SR UNIVERSITY

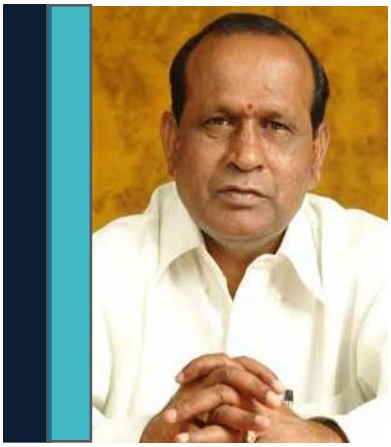

STUDENT HANDBOOK

Applicable for students admitted into UG/PG/PhD Programs upto the Academic Year 2025-2026

(BBA/BCA/B.Sc./B. Tech/MBA/MCA/M.Sc./M. Tech/PhD)

June 2026

Message from the Chancellor

Dear Students,
It is with great pleasure that we welcome you to SR University. Your enthusiasm and energy bring vibrancy to our campus community. At SR University, we are reimagining education through innovative practices, aiming to create a dynamic ecosystem that nurtures holistic development.
As you embark on this exciting journey, we look forward to growing, exploring, and learning together. Our university values academic excellence, diversity, and a spirit of inquiry. Here, you'll find a culture that encourages curiosity, critical thinking, and collaboration. You will have the opportunity to work alongside distinguished faculty on groundbreaking research and creative projects, while also gaining fresh perspectives through interaction with your talented peers.

We are committed to providing a rich, inclusive learning environment where every student is empowered to reach their full potential. As you begin this transformative phase, know that we are deeply invested in your growth and success.

Welcome to SRU. We wish you a fulfilling and inspiring educational experience.
Warm regards,
Varada Reddy Anagandula
Chancellor, SR University

Vice-Chancellor – Prof. Deepak Garg
Prof. Deepak Garg holds a Ph.D. in Computer Science, with a specialization in Efficient Algorithm Design, and brings over 26 years of academic leadership and research experience. He has previously served as Professor and Dean at Thapar Institute of Engineering & Technology and Bennett University. Widely recognized as a leading voice in Artificial Intelligence in India, Prof. Garg writes a regular column titled "Breaking Shackles" in The Times of India, addressing higher education and AI trends. He has been an advisor to prestigious bodies such as AIRAWAT (Govt. of India's Supercomputing Mission), NAAC, NBA, UGC, and AICTE.
A passionate advocate for innovation and entrepreneurship, Prof. Garg actively mentors startups and serves on advisory boards of Drishya AI, ByteXL, and Global AI Hub. He is the only CAC ABET Commissioner from India and has been a Program Evaluator (PEV) for over seven years.
He has served on the Board of Governors of the IEEE Education Society (USA) and chaired several IEEE bodies in India. With over 180 research publications, 2600+ citations, and an h-index of 22, his work spans Reinforcement Learning and Generative AI. He has mentored 14 Ph.D. scholars and led prestigious collaborations with over 100 global universities and industries.
Prof. Garg also served as Director of the NVIDIA-Bennett Research Center on AI and led leadingindia.ai, India's largest AI skilling initiative, impacting over a million students. He has delivered 350+ invited talks and keynotes across the country. His vision is to position SR University as a national benchmark for excellence in private higher education.

Welcome to SR University

Congratulations on becoming a part of SR University.

Student Handbook Purpose

This Student Handbook serves as a comprehensive guide to academic regulations, student services, campus facilities, policies, and opportunities available at SR University

1. ABOUT SR UNIVERSITY

SR University (SRU) is a State Private University located in Warangal, Telangana. Spread across a 170-acre verdant campus, the university is home to over 11,000 students and more than 1,200 faculty and staff, with six distinct schools.

Vision

- To accelerate the transformation and advancement of the regional innovation ecosystem through academic excellence, industry relevance, and social responsibility.

Mission

- Develop technically competent, industry-ready, and socially responsible leaders.
- Undertake groundbreaking research and actively disseminate its outcomes.
- Foster collaborations with industry, government, and non-profit organizations to serve the broader community.

1.1 University Profile

Rankings and Accreditations

NIRF Rankings: SRU is one of the youngest universities in India to achieve national recognition. It ranked 91st in Engineering in the year 2025. In the University category, it is placed in the 101–150 rank band.

Academic Schools

SR University offers a comprehensive range of undergraduate, postgraduate, and doctoral programs across the following six academic schools:

School of Computer Science and Artificial Intelligence
School of Engineering
School of Business
School of Agriculture
School of Sciences and Humanities
School of Design

We encourage you to explore the University website (https://sru.edu.in/) for detailed information about each school, including faculty, programs, and research initiatives.

Research and Innovation Centers

SRU is committed to multidisciplinary research and innovation through its state-of-the-art centers. These centers serve as collaborative spaces where students and faculty engage with real-world challenges and cutting-edge technologies:

Nest for Entrepreneurship in Science & Technology (NEST)
Center for Creative Cognition (CCC)
Center for Design (CoD)
Center for Embedded Systems & IoT (CEIoT)
Center for AI & Deep Learning (CAIDL)
Collaboratory for Social Innovation (CSI)
Center for Materials & Manufacturing (CMM)
Center for Emerging Energy Technologies (CEET)
Center for Construction Methods & Materials (CCMM)
Center for Experiential Learning (CEL)
Centre for Nanomaterials (CNM)
Center for Informetrics & Statistics (CIS)

Visit the SRU website (https://sru.edu.in/Research-Spotlite) to learn more about ongoing research projects, industry collaborations, innovation ecosystems, and upcoming events hosted by these

centers. They form the backbone of SRU's mission to foster vibrant research and entrepreneurial culture.

Sri Ranganatha Swamy Temple

Located at the main entrance of the university, the Ranganatha Swamy Temple is a serene place of worship dedicated to Lord Ranganatha. With its traditional architecture and peaceful ambiance, the temple serves as a spiritual landmark, offering students and faculty a space for reflection and devotion amidst their academic journeys.

1.2. Administrative Offices and Student Support

Office of Dean Student Welfare

The Office of the Dean of Student Welfare oversees student welfare, campus engagement, hostel administration, and student support services. The office works closely with students, faculty, the Student Council, and University leadership to ensure a supportive and enriching campus environment. Students may contact the office at dean.sw@sru.edu.in for assistance and guidance.

Student Help Desk

The Student Help Desk serves as the primary contact point for student support and administrative assistance. It is located in Block-I, Room No. 1002 (Administrative Office) and functions on all working days up to 5:00 PM. Students are advised to contact the appropriate staff members as per the nature of their request and follow the prescribed University procedures for timely resolution of issues.

Important Student Contacts

Service / Facility	Concerned Person (Location)	Contact Information Mobile No and Email
Tuition Fee/Transportation Fee/Pending Due payments related	Ms. B. Sunitha (Block-I, Room No- No 1018)	9912654505 b.sunitha@sru.edu.in

1.3. Transportation Services

SR University offers reliable and efficient transport services for day scholars from Monday to Friday. These services cover Kazipet, Hanamkonda, Warangal, and nearby districts such as Karimnagar, Husnabad, Jammikunta, and Huzurabad.

Registration for Transportation Facility

Students who wish to avail of the university transport service must register with Mr. B. Ramesh, Location: Block-I, Room No. 1002.

Transportation Charges

Transport services are chargeable, and the fee must be paid in full at the beginning of the academic year. The transport fee varies depending on the distance and specific stop location. No refunds will be issued for partial or unused transport services.

Bus Boarding Rules

Students must board only at their registered stop; changing boarding points is not permitted.

Personal Vehicle Policy

Personal vehicles of the students are not allowed inside the campus. They must be parked outside the second gate at the designated space at the student's own risk. The university will not be responsible for any damage or theft of the vehicle. Cycles are allowed inside the campus, and students can keep their cycles in the hostel.

2. STUDENT SUPPORT, ENGAGEMENT AND CAMPUS LIFE

2.1. Student Registration and University Identity

Enrollment Number Framework

Enrollment and registration mark the formal commencement of a student's academic journey at the University. The process, from admission to final enrollment, is structured to ensure transparency, accuracy, and systematic academic record management, as illustrated in Flowchart 1.1.

Upon successful admission, a student's enrollment remains provisional until the University officially assigns a unique Institutional Enrollment Number. To ensure administrative accuracy and avoid duplication of records, the University follows a structured enrollment identification framework.

Each student is allotted a unique 10-digit Enrollment Number representing the Year of Admission, School Code, Degree Code, Program Code, and serial number.

Component	Description
Year of Admission	Admission Year
School Code	School Identifier
Degree Code	Degree Type
Program Code	Program Identifier
Serial Number	Unique Student Number

Example: For B. Tech CSE

2	3	0	3	A	5	1	0	0	1
Year of Admission		School Code		Degree Code	Program Code		Serial Number		

University Identification Card

Every student shall be issued a University Identification Card containing the Enrollment Number, student photograph, name, and other essential details. The ID card serves as the official identity credential within the University campus.

Students are required to carry and wear the ID card at all times while on campus and during participation in external academic, sports, cultural, or official University activities.

In case of loss or damage, a duplicate ID card may be issued upon payment of the prescribed fee as per University policy.

2.2. Academic Working Hours and Campus Dress Code

Institution and Transportation Timings

Institute Timings for all UG (II, III & IV Year), PG and PhD Courses: 9.30 A.M. to 5.30 P.M.

Transportation Timings for Day-scholars: Arrival - 9.20 A.M. Departure - 5.40 P.M.

Dress Code Policy

Students are expected to maintain appropriate and professional attire while on campus. Clothing containing offensive language, inappropriate content, or excessively torn designs is discouraged within the University premises.

Students should wear formal dress every Monday and Tuesday. In addition, formal attire is mandatory during technical presentations, seminars, meetings, placement activities, and all official University events conducted on any working day.

Formal Dress Guidelines

For Male Students

Shirt: Collared formal shirt with full or half sleeves.

Trousers: Plain formal trousers. Jeans, cargo pants, and shorts are not permitted.

Footwear: Formal shoes are mandatory. Slippers, sandals, and casual footwear are not permitted.

Professional Attire: Tie and blazer are recommended during presentations, seminars, placement activities, and formal University events.

For Female Students

Salwar Kameez: Neat and modest attire with dupatta.

Kurti with Leggings/Churidar: Should be formal and appropriate in design and length.

Saree/Formal Western Wear: Professional and modest attire suitable for academic and official activities.

Footwear: Closed-toe sandals or formal shoes are permitted. Slippers and flip-flops are not permitted.

2.3. Academic and Administrative Digital Services (SRAAP)

The SR Academic and Administration Portal (SRAAP) is the University's integrated digital platform for managing academic and administrative services. It provides students with seamless access to essential information and services throughout their academic journey.

Key Features: Student Profile Management, Course Registration and Enrollment, Attendance Monitoring, Academic Performance Tracking, Examination Fee Payment, Academic Calendar and Regulations, Holiday Notifications, Faculty Feedback Submission, Grievance Redressal, Student Engagement and Gamification Modules. SRAAP also facilitates communication with parents through periodic updates on attendance and academic performance, promoting transparency and student support.

Login Credentials:

Students will receive their login credentials during the registration or induction process. These credentials provide access to all services available on the portal.

Support Contact: Mr. D. Kishore, sraap@sru.edu.in

2.4. Mentoring and Academic Advising Framework

The University recognizes mentoring and academic advising as integral components of student success, academic progression, and holistic development. Each student is assigned a faculty mentor at the time of enrollment to provide continuous academic guidance and institutional support throughout the program.

Mentoring System

The mentoring framework is designed to support students in their academic, personal, and professional development. Faculty mentors act as the primary point of contact for guidance, support, and student engagement.

Mentor Responsibilities

Support students in academic and personal development.

Facilitate timely communication and academic updates.

Guide students in addressing academic challenges and identifying growth opportunities.

Promote student engagement and overall well-being.

Mentoring Engagement

At least one individual mentor–mentee interaction shall be conducted each semester.

At least one group mentoring session shall be organized each semester.

Students are encouraged to seek guidance from their mentors whenever required.

Academic Advising

Academic advising complements the mentoring process by helping students make informed decisions regarding their academic progression and future career pathways.

Academic Advising Areas

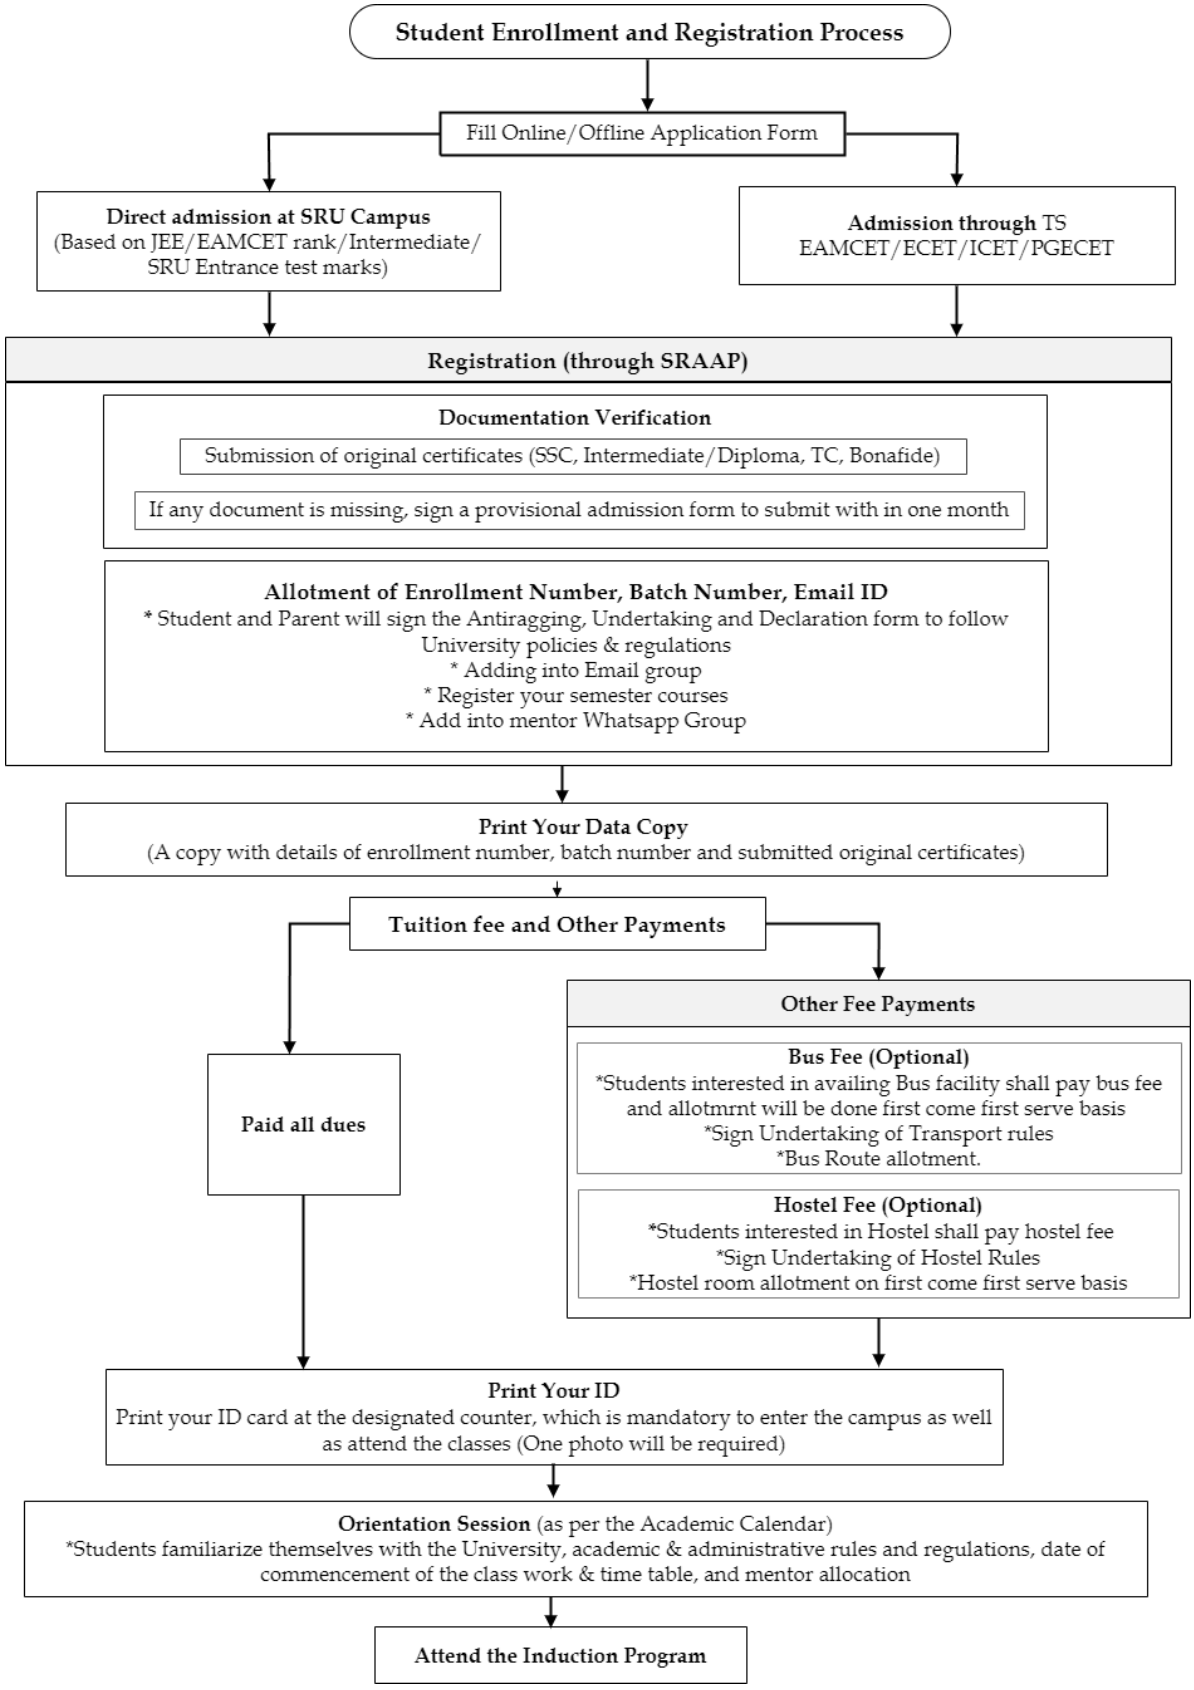

Course Registration and Academic Planning.

Goal Setting and Academic Progress Monitoring.

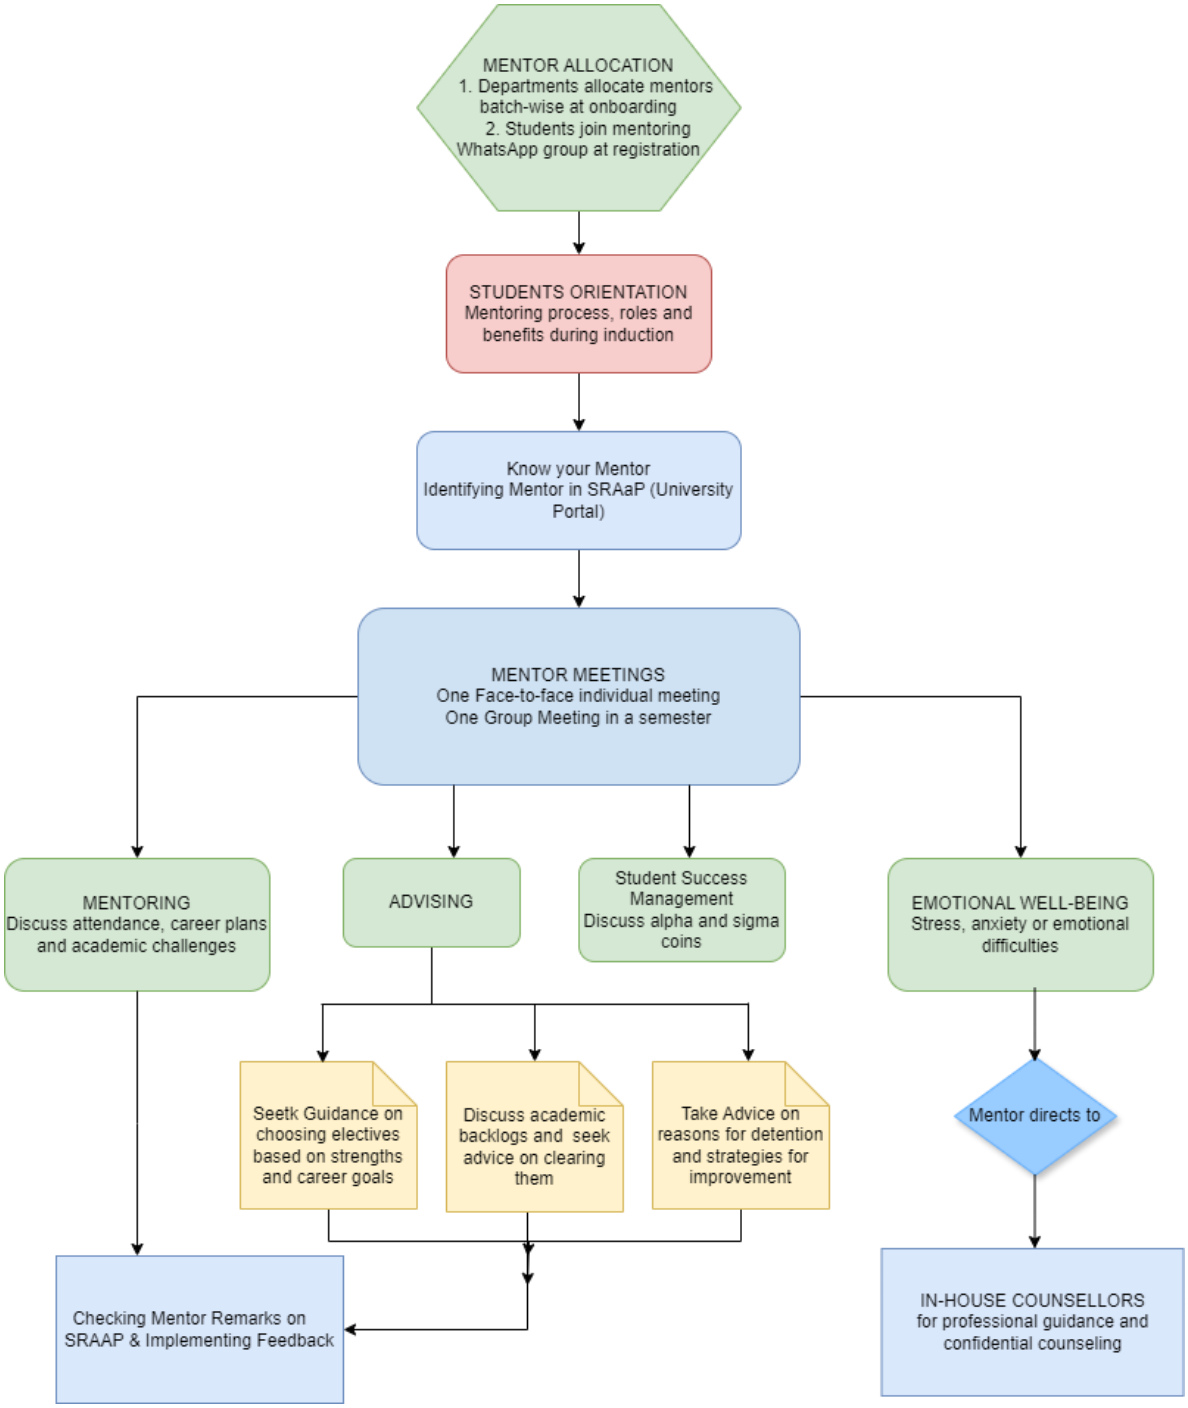

Internships, Research, and Experiential Learning Opportunities.

Higher Education and Career Development Pathways.

Through mentoring and academic advising, students are supported in developing personalized learning pathways aligned with their academic interests, professional goals, and long-term aspirations. (Refer Flowchart 1.2 for the Mentoring and Academic Advising Framework.)

Flowchart 1.1. Student Enrollment and Registration Process

Flowchart 1.2. Mentor-Mentee Process

2.5. Batch Representative System

Each academic batch, comprising approximately 30 students, is represented by a Batch Representative (BR) selected at the start of every semester. The BR acts as the voice of their batch, presenting views, concerns, and grievances in meetings with the Dean, Pro-Vice-Chancellor, or Vice-Chancellor, typically conducted in the third or fourth week of the semester.

Batch Representative Selection Process

i. **Opening Nominations**
   - Announced by the Dean Academics through the SRAAP portal.

ii. **Collecting Nominations**
   - Interested students submit their nominations via SRAAP.

iii. **Selection Process**
   - Students of the respective batch choose their preferred candidate on SRAAP.

iv. **Declaration of Results**
   - The student with the highest number of choices is declared the BR.
   - If no nominations are received, the Head of the Department (HoD) will devise an internal process to nominate a representative.

2.6. Learning Management System (LMS)

The University utilizes Learning Management Systems (LMS) such as **Google Classroom**, or other approved digital learning platforms to support teaching, learning, and academic engagement. These platforms provide a centralized digital learning environment for course delivery and academic communication.

- Course Content and Learning Resources
- Assignments and Submission Portals
- Academic Announcements and Discussions
- Assessments, Quizzes, and Feedback
- Multimedia Learning Materials

Students are required to access the LMS using their official University email credentials. The LMS platform adopted for a course shall be determined by the respective course instructor. Students are expected to regularly access the LMS and actively participate in all prescribed learning activities.

2.7. Student Feedback and Escalation Framework

Open Door Policy

The University follows a transparent and student-centric Open Door Policy that encourages students to share suggestions, concerns, and feedback regarding academic and campus-related matters. Students may communicate with faculty members, administrative offices, or University leadership through meetings, official emails, or scheduled appointments. Students are encouraged to follow the prescribed communication hierarchy for routine matters before approaching higher authorities. The University values constructive feedback as an important component of continuous institutional improvement and student engagement.

Feedback Mechanism

The Office of Dean Academics collects student feedback before Mid Sem and End Sem examinations through the University's online feedback system. Students, parents, and alumni may also submit feedback and suggestions through the official communication channel at feedback@sru.edu.in. The University remains committed to continuously improving the overall learning and campus experience through active stakeholder participation.

Student Grievance Redressal Cell

The Student Grievance Redressal Cell functions as the designated institutional mechanism for addressing student grievances and concerns related to academic, administrative, and campus matters. Students may submit grievances through the official email ID stu.grievance@sru.edu.in or contact the University Help Desk. All grievances shall be reviewed and resolved within a reasonable timeframe based on the nature and severity of the issue.

For any queries Contact: Mr. P. Naresh- 9989221167, p.nareshkumar@sru.edu.in

2.8. Student Council

The University promotes student leadership, participation, and democratic representation through the Student Council framework. The Student Council functions as a structured platform for student engagement in academic, cultural, social, and co-curricular activities of the University.

(Refer Flowchart 2.6 for Student Council Mechanism.)

Council Structure

The University-level Student Council shall consist of the following office bearers:

- President
- Vice President
- General Secretary

- Joint Secretary
- Treasurer
- Cultural Secretary

Eligibility Criteria

General Eligibility

Students applying for Student Council positions shall:

- Be bonafide students of the University
- Have no active backlogs at the time of nomination
- Minimum 75% attendance in the previous semester.
- Maintain a minimum CGPA of 7 or equivalent
- Have no disciplinary action or warning issued against them
- Demonstrate active participation in departmental, club, cultural, or student engagement activities

Position-Wise Eligibility

Position	Eligibility
President	Must be from 3rd Year
Vice President	Must be from 2nd Year
General Secretary	Must be from 3rd Year
Joint Secretary	At least one representative from each year (except final year) shall be included. At least one representative from each gender shall be included. The maximum tenure in the same position is one academic year only.
Treasurer	
Cultural Secretary	

Nomination and Scrutiny

Student Council nominations shall be invited through the prescribed online application process. Applicants shall submit:

- Basic student details
- Record of co-curricular and student engagement activities
- Statement of vision/manifesto

All nominations shall be reviewed and scrutinized by the Office of Dean Student Welfare.

Selection and Tenure

The Student Council shall be constituted annually for a tenure of one academic year. In case of mid-term vacancies, replacement or nomination may be carried out by the Dean Student Welfare from the shortlisted eligible candidates.

Roles and Responsibilities

Position	Responsibilities
President	Leads the Student Council and represents student interests before the University administration
Vice President	Assists the President and coordinates council activities
General Secretary	Maintains records and coordinates meetings and events
Joint Secretary	Assists in coordination and communication activities
Treasurer	Supports management of approved student activity funds under supervision
Cultural Secretary	Coordinates cultural and student engagement activities

Code of Conduct

All Student Council members are expected to:

- Maintain discipline and professional conduct
- Attend meetings and assigned activities regularly

- Perform duties ethically, transparently, and inclusively
- Avoid misuse of authority, position, or University resources
- Follow all University rules and regulations

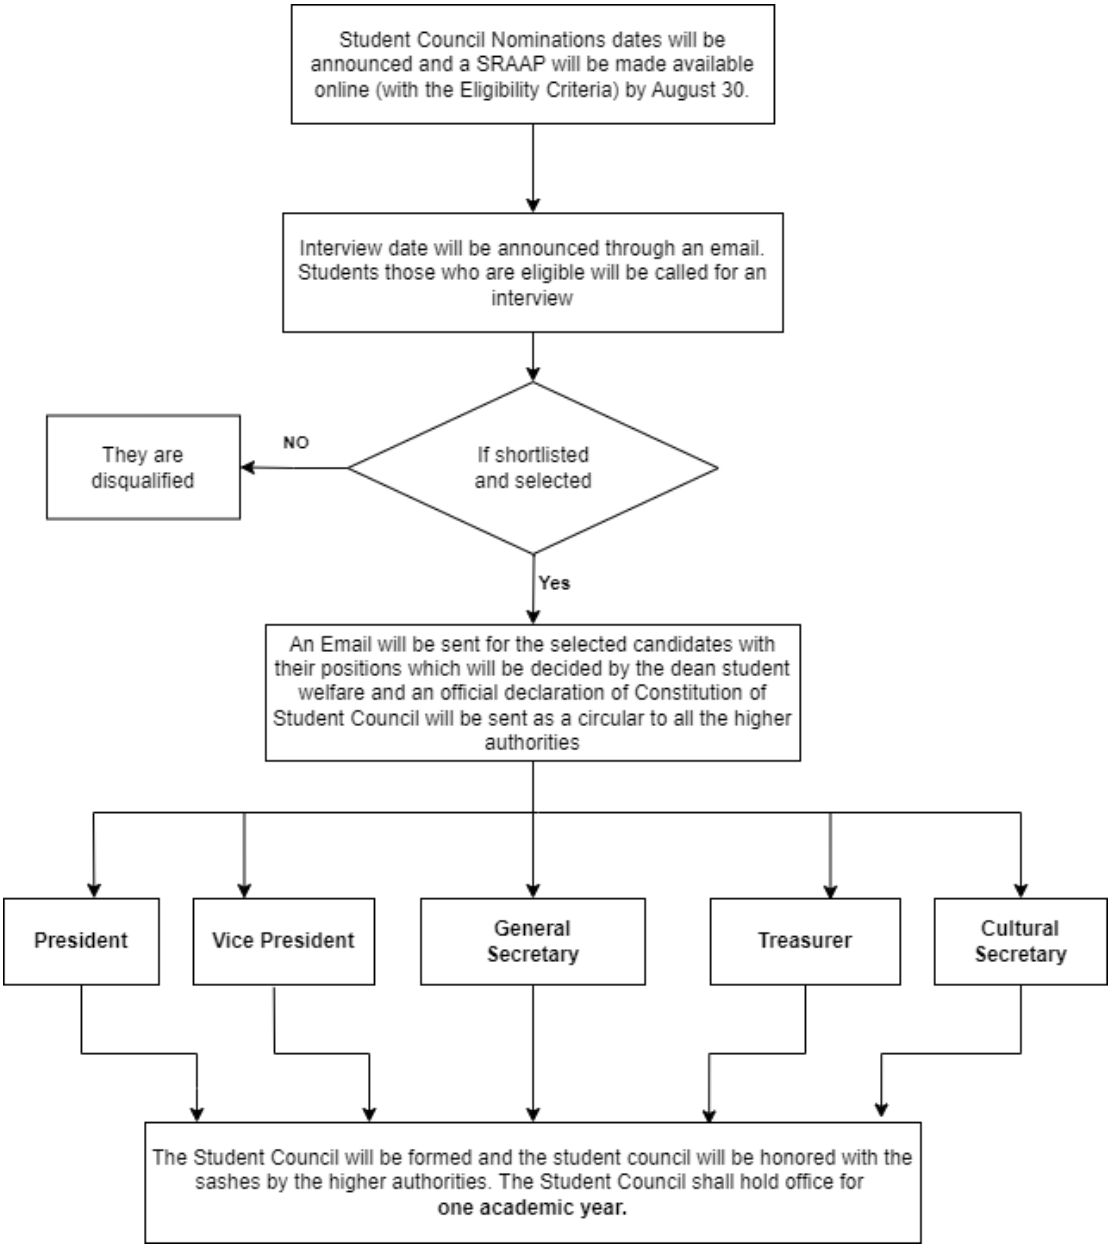

Faculty Oversight

The Dean Student Welfare and Associate Deans shall provide guidance, supervision, and administrative support for Student Council activities and meetings.

Disqualification and Removal

A Student Council member may be removed from office under the following circumstances:

- Involvement in misconduct, indiscipline, or academic dishonesty
- Continuous absence from official meetings without valid reason
- Misuse of position, authority, or University resources
- Violation of University rules, policies, or code of conduct

Flowchart 2.6. Student Council Mechanism

2.9 Student Clubs and Professional Societies

Clubs at the university provide a platform for students to develop talents, explore interests, and pursue passions. Students are encouraged to join at least one club per semester to expand their skills and experiences.

The clubs aim to identify and nurture students' potential, supporting their academic and personal growth through engaging activities. Open to all, these clubs organize events year-round, enriching students' social, cultural, and academic experiences. They serve as a hub for learning, networking, and socializing beyond the classroom. For more details on club activities, visit the university website.

The following clubs are active for the academic year 2025-26 onwards.

University Level Clubs:

Garden Club: The Garden Club is committed to restoring a sustainable ecosystem while fostering interest in horticulture, gardening, and garden therapy. It encourages the beautification of the college campus, inspiring students to take an active role in environmental conservation. Through floral design and greenery initiatives, the club cultivates a passion for gardening and promotes civic engagement in sustainable practices.

Organic Farming Club: The Organic Farming Club is a student-led initiative that promotes sustainable agriculture and environmentally conscious practices within the university community. The club serves as a platform for students, faculty, and staff who are passionate about organic cultivation, food security, and ecological balance.

Yoga Club: This club promotes confidence, enthusiasm, and well-being in a non-competitive environment. It enhances physical and emotional health, improves focus, concentration, and memory, and helps ease stress and anxiety. Through regular practice, students develop better posture, patience, and self-awareness, fostering relaxation, mindfulness, and inner balance.

Literary Master Communicators Club: This club enhances communication skills across diverse contexts, fostering critical thinking, confidence, and performance abilities for inter-collegiate events and contests.

Artistic (Painting and Sketching) Club: This club nurtures creativity, confidence, and artistic exploration through various painting and sketching techniques. Students engage with historical and contemporary artistic practices, expanding their ideas and personal styles. By developing their own work, they cultivate self-expression, innovative thinking, and design skills, fostering a deeper appreciation for visual arts.

Community Service Center: This center encourages students to identify community issues, engage in problem-solving, and develop a strong sense of civic responsibility. It fosters leadership, teamwork, and social awareness, helping students apply their knowledge to real-world challenges. Through active participation, members gain skills in mobilizing community efforts, responding to emergencies, and promoting social harmony, contributing to national integration and collective well-being.

Martial Arts Club: The Martial Arts Club promotes fitness, self-confidence, and discipline through structured training. Members develop physical strength, mental resilience, and teamwork, while learning both defensive and offensive techniques in a safe and supportive environment.

Adventure Club: This club offers students exciting opportunities to explore nature, build resilience, and develop leadership through activities like trekking, camping, and rock climbing. It encourages teamwork, eco-awareness, and personal growth beyond the classroom.

Hiking Club: This club encourages students to explore local trails, stay active, and connect with nature. It promotes fitness, mindfulness, and outdoor camaraderie.

Cultural Club: The Cultural Club is dedicated to celebrating the diverse traditions and festivals observed across different communities. It serves as a platform for students to embrace cultural heritage through various events, performances, and interactive activities. The club organizes festivals,

traditional celebrations, and artistic showcases, promoting inclusivity and unity within the student body.

Sports Club: The Sports Club fosters athletic skills, teamwork, and discipline while promoting physical fitness, mental resilience, and social awareness. It encourages sportsmanship, leadership, and cooperation through sports events, training, and competitions, helping students build confidence and teamwork.

Drama and Theatre Club: This club fosters self-expression, confidence, and creativity through acting and performances. It enhances social interaction, imagination, and teamwork, helping students build confidence while making learning fun.

Photography and Movie Making Club: This club encourages students to explore creativity in photography and video production, helping them develop a strong visual aesthetic through compiling, editing, and storytelling. It fosters technical, artistic, and perceptual skills, allowing students to express their ideas while discovering potential career opportunities. Members experiment with natural and artificial settings, refining their ability to manipulate and control artistic vision through engaging projects.

Dance Club: This club that provides students with opportunities to learn and perform various dance forms and styles. The club offers training in different genres of dance, including contemporary, classical, folk, western, and freestyle, while encouraging creativity and self-expression. Members actively participate in flash mobs, cultural events, and intercollegiate competitions, showcasing their talent on diverse platforms. Through regular practice sessions and performances, students enhance their confidence, teamwork, stage presence, and artistic skills.

Music Club: This club that nurtures musical talent and creativity among students. The club provides training in various ragas, vocal and instrumental music forms, and encourages students to explore diverse genres of music. Members actively participate in live band performances, jam sessions, cultural events, and intercollegiate competitions. The club also offers opportunities to learn lyric writing, music composition, and performance techniques, fostering artistic expression and teamwork.

Innowiz Club: This club equips students with managerial skills, fosters a teamwork culture, and stimulates critical thinking. It helps members develop communication skills, refine their personalities, and overcome stage fear, transforming introverts into confident speakers. Through interactive sessions, students gain leadership abilities and enhance their problem-solving mindset.

Yes+ Club: The Youth Empowerment Seminar (YES+) is an engaging and dynamic club established with the support of the Art of Living Bangalore Ashram. The club offers two transformative programs, the YES+ Course and the Advanced Meditation Program. Both are designed to empower teens to take ownership of their lives through a holistic set of tools and techniques. YES+ creates a supportive and inspiring environment for young people to grow, connect, and thrive.

Fashionista Club: This club nurtures creativity, confidence, and fashion skills among students. The club provides opportunities to learn ramp walk techniques, styling, grooming, and fashion presentation based on iconic, traditional, and contemporary attire themes. Members actively participate in fashion shows and design competitions conducted within the University and at external events. Through theme-based activities and competitions, students enhance their design, coordination, and presentation skills while showcasing their artistic talent and innovation.

Ashwaveega Club: This Motorsports Club provides students with hands-on experience in designing, developing, and fabricating innovative vehicle prototypes such as Go-Karts and Buggies. The club fosters technical skills, teamwork, creativity, and problem-solving through real-world engineering projects. Members actively participate in prestigious national competitions, including BAJA SAE and FMAE events, gaining practical exposure to vehicle design, manufacturing, testing, and racing. Ashwaveega serves as a platform for aspiring engineers to apply theoretical knowledge and showcase their talent in national-level motorsports competitions.

Digital & Branding Club: This club empowers students to develop creative design and branding skills for academic and extracurricular events. Members learn to design invitations, certificates, ID cards, posters, social media creatives, and other promotional materials using digital tools. The club fosters

innovation, visual communication, and brand identity development while supporting various University events. Through hands-on projects, students gain practical experience in graphic design, digital marketing, and event branding.

Department Level Clubs

Mechanical:

Robotics Club: Members gain hands-on experience in programming robots, exploring assembly languages, and building robotic applications. The club hosts guest lectures on robotics technologies and encourages participation in competitions across India to refine practical skills and expertise.

SAE Club: This club provides engineering students with world-class learning facilities for automobile design and manufacturing. It focuses on developing vehicles with lower pollution and better safety standards while exposing members to the latest industry research and technological advancements.

Renewable Energy Sources Club: This club promotes active involvement in renewable energy initiatives, raising awareness about sustainable energy solutions. It offers specialized course activities geared toward career opportunities in the renewable energy sector while equipping students with practical skills for meaningful contributions.

CAD/CAM Club: This club provides students with the opportunity to explore CAD/CAM software, mastering the creation of 2D and 3D designs for mechanical applications. Members gain hands-on experience in developing intricate models and refining their practical design skills. The club encourages participation in nationwide competitions, allowing students to showcase their skills and excel in the field across India.

Computer Science and Artificial Intelligence:

Coding Club: This club fosters a strong coding culture, equipping students with essential programming skills applicable across various domains. It provides hands-on experience in problem-solving, optimization, debugging, and execution, helping members refine their technical expertise. With the motto "Create-Optimize-Debug-Execute," the club encourages innovation, collaboration, and continuous learning in the ever-evolving world of coding.

Data Science Club: This club empowers students to use data science for solving real-world challenges while fostering a collaborative community for knowledge sharing, innovation, and impactful projects.

Cyber Security Club: A student-run initiative providing industry-relevant experiences in cybersecurity through hands-on learning and expert interactions. Open to all, the club helps members build skills valuable for interviews and careers in information security.

AIML Club: Focused on Artificial Intelligence & Machine Learning, this club equips students with the skills to tackle real-world problems and prepares them for breakthrough technologies in AI-driven industries.

SANKHYA Club: A hub for students passionate about mathematics and computing, offering academic and social activities such as National Mathematics Day, Pi-Day, and Math Olympiads to foster collaboration and career exploration.

Electrical and Electronics Engineering:

ElectrAIfy Club: ElectrAIfy Club is an AI-focused community within Electrical Engineering, providing students with opportunities to explore artificial intelligence and machine learning applications in their field. It fosters learning, collaboration, and innovation through projects, discussions, and hands-on experiences, helping members stay ahead in emerging AI technologies.

Simulation Club: This club serves as a platform for students passionate about simulation technologies in electrical engineering, offering hands-on learning, creativity, and collaboration through simulation-based projects. Using advanced software tools, members deepen their understanding of electrical systems and enhance their problem-solving skills.

Electrical Engineering Association (EEA): EEA provides a community for electrical engineering students to develop technical and professional skills. It organizes seminars, workshops, technical quizzes, poster presentations, certifications, hackathons, and project competitions, supported by both internal and external experts to help students advance their knowledge and career opportunities.

Electronics and Communications Engineering:

Byte Optimizers Club: Byte Optimizers promotes interest in the Internet of Things (IoT) by bringing together students passionate about emerging technologies and smart devices. The club explores IoT's transformative impact through workshops, skill development sessions, and expert talks, encouraging innovation and practical learning.

Intelligence Ignite Club: Intelligence Ignite bridges artificial intelligence and electronics and communication engineering, fostering collaboration among students with diverse interests. Through guest lectures, workshops, and tutorials, the club explores AI integration into ECE applications, inspiring members to develop innovative solutions.

Socio Tech Innovative Club: This club fosters social innovation by utilizing technology and interdisciplinary approaches to address societal challenges. Through ideation sessions, workshops, and expert talks, members collaborate on solutions that create a positive impact on communities.

Tech Connectors Club: Bringing together students passionate about wireless communication and networking, this club explores advancements in mobile networks, 5G, and emerging technologies. Members gain practical knowledge through workshops, invited talks, and discussions on career opportunities in the field.

Business Management:

Marketing Club: This club fosters creativity, innovation, and professional growth in marketing through workshops, industrial visits, competitions, student projects, and market research. It provides a dynamic platform for students to explore trends, develop strategic thinking, and engage with industry professionals.

HR Club: This club prepares students to become effective people managers by nurturing leadership, teamwork, and ethical decision-making. It organizes team-building exercises, problem-solving activities, and HR-focused events to enhance interpersonal skills and professional development.

Finance Club: Focused on deepening students' understanding of the financial sector, this club offers workshops, seminars, and guest lectures. It facilitates networking opportunities, helping students connect with finance professionals while exploring key industry trends, challenges, and career prospects.

Agriculture:

AGRIGYAN: This club promotes agricultural education and provides a platform for students to explore new aspects of farming. It fosters interdisciplinary knowledge exchange, strengthens student-farmer relationships, and advocates for organic, sustainable, and eco-friendly farming practices. Additionally, it helps students develop leadership, teamwork, and personal growth skills through hands-on experiences and collaborative learning.

Civil Engineering:

Indian Concrete Institute (ICI) Students Chapter: This chapter provides a platform for civil engineering students to engage in technical learning through lectures by industry experts, report writing competitions, and site visits. Members gain exposure to emerging building materials and technologies while developing practical knowledge in construction.

ACCE - Association of Consulting Civil Engineer Students Chapter: This chapter bridges the gap between academia and industry by offering structured programs that enhance civil engineering students' technical and professional skills. It provides mentorship, skill development initiatives, and training to improve employability in the construction sector.

Society of Civil Engineers: Focused on technical growth, this society organizes expert lectures, UG-level technical events, and industrial visits to connect students with industry practices. It prepares young civil engineers to tackle real-world challenges while fostering innovation and collaboration.

2.10. Campus Events and Student Engagement Activities

The University is committed to holistic student development by fostering a vibrant campus life that balances academics with extracurricular activities. With a large residential student population, the university ensures a conducive environment where students can grow both personally and professionally.

Freshers Party

The Freshers Party, hosted by second-year students, welcomes juniors with fun games, performances, and interactive activities, fostering friendships and easing their transition into university life. The Fresher's Party is held in first month after start of 1st year classes.

Club Mela

Designed to introduce students to explore and choose clubs suited to their interest, Club Mela is held at the start of each semester. It provides a platform for students to explore various clubs—ranging from cultural, technical and social—enhancing leadership, creativity, and engagement within and outside the campus.

Independence Day

A patriotic occasion commemorating India's freedom, Independence Day is observed with flag-hoisting ceremonies, speeches, and cultural performances. Celebrated annually on August 15th, it instils a deep sense of pride and national responsibility among students.

Bathukamma Celebrations

A major cultural event marking Telangana's floral festival, Bathukamma celebrations bring students together for traditional floral arrangements, folk music, and dances. Held in September or October as per academic calendar, this event symbolizes the spirit of nature and community bonding.

Traditional Day

A vibrant showcase of heritage and customs, Traditional Day allows students to dress in regional attire, engage in cultural performances, and share their unique backgrounds. Celebrated as per the academic calendar, it fosters appreciation for the diverse traditions within the university.

International Students Day

A celebration of cultural diversity and global perspectives, International Students Day recognizes the contributions of international students to the university community. Held on as per academic calendar, this event show cases various traditions, fosters academic exchanges, and promotes intercultural understanding among students.

Republic Day

Observed on January 26th, Republic Day marks the adoption of the Indian Constitution. The university hosts formal events, including student-led parades, discussions on civic duties, and cultural showcases, reinforcing the values of democracy and citizenship.

Sparkrill

Sparkrill is the University's annual cultural festival, is a three-day celebration featuring art, literature, music, drama, and Pro-night (concert night) with renowned musicians. Organized by students with faculty support, it provides a platform for showcasing talent and enjoying cultural festivities. The Sparkrill event is held during the last week of January.

Sports Day

Encouraging physical fitness and teamwork, Sports Day is a dynamic event where students participate in a range of athletic competitions and recreational activities. Typically organized in February or March, it strengthens camaraderie and promotes a competitive yet inclusive sporting culture on campus.

Hostel Night

One of the most vibrant and memorable events organized in the university, aimed at promoting friendship, cultural diversity, student engagement, and community bonding among hostel students. The event provides a platform for students to showcase their talents beyond academics through cultural, recreational, and entertainment activities, making hostel life more enjoyable, inclusive, and memorable.

Farewell Party

The Farewell Party is a heartfelt send-off by pre-final year students to final year students, filled with music, dance, and nostalgic moments, creating lasting memories for outgoing students. The Farewell Party is held during the last month of the academic year**.**

2.11. Sports and Physical Wellbeing

SR University encourages sports and recreational activities with a firm belief that a sound mind resides in a sound body. The vast campus provides number of fields for different sports and games. The main objective is to provide initiatives to encourage the growth and development of students in a secure environment to develop fitness, team building and leadership opportunities.

The Department of Physical Education plays an important role in the student's life on campus. It is headed by a Physical Director and assisted by individual coaches for football, volleyball, cricket, basketball, etc. The Department aims to provide the students with a wide range of sport recreation and leisure activities for students, staff and faculty. The sports facilities available on campus are given below.

Outdoor Games: Block-III (Back Side)

Athletics Track and Field
Basketball Court
Volleyball Court
Kabaddi Court
Throw Ball Court
Kho-Kho Field
Badminton Court
Cricket Ground
Cricket Practice Nets
Lawn Tennis Court
Football Field (Block-IV)

Indoor Games: Block-I (Back Side Sheds)

Table Tennis
Carroms
Chess

Gymnasium Hall (Gym Center)

The Gymnasium Hall is a modern fitness facility equipped with strength training, cardio, and flexibility workout equipment. It provides a motivating space for students and faculty to maintain an active lifestyle, offering fitness programs and expert-led training to support health and wellness goals. The Gymnasium Hall operates from 5.30 A.M. to 7.30 A.M. in the morning and 3.00 P.M. to 7.00 P.M. in the evening, providing convenient time slots for students and faculty.

For any details and participation, please contact the Director of Physical Education- **Dr. P. Srinivas Goud, Contact details: 9949279800, p.sreenivas@sru.edu.in**

National Service Scheme (NSS)

The institution has launched units of NSS wings. These units take up various community development service-oriented activities like road safety programs, blood donation, plantation, awareness programs etc. in and around the region. These units aim at developing social and civic responsibilities among young students.

For NSS related updates Contact Dr. K. Ravinder Contact No: 9912782872

National Cadet Corps (NCC)

The National Cadet Corps was brought up on September 2020 under the alliance of 1(T) Compo (Tech) Regt. NCC, Warangal Group with a strength of 160 cadets (Company). The aspirants of 1st year engineering students of university can enroll, if they have the necessary qualification models determined in the NCC Act. The boy cadets are enrolled into Senior Division (SD) and the girl cadets are enrolled into Senior Wing (SW).

Mr. T. Haribabu Contact No: 8810415979, haribabu@sru.edu.in

2.12 Health, Wellness and Counseling Services

Health and Wellness Center: The University Health Centre has two beds with a nurse and doctor available during the day. The university has an arrangement with the Aaditya hospital and students are taken to that hospital in case of any emergency in an ambulance stationed in the university 24x7.

or any day-to-day issues related to health, students should immediately reach out to the wellness center.

Wellness Center Timings: 9:00 A.M. to 5:30 P.M.

Nurse: Ms. B. Pavani Contact No: 6300390764

Ambulance Driver: Sai Kumar Contact No: 7989738242

Counseling and Psychological Support: The University has a counseling center, with a clinical psychologist offering counseling services to students. The students are informed about the counseling services during the orientation program. Students who wish to avail yourself of the Counsellor can approach their office directly or can also book an appointment through call/WhatsApp on the following numbers.

Boys: Mr. Benson, Phone: 7207362300, email: stu.counseling@sru.edu.in

Girls: Ms. Swapna, Phone: 720767230, email: stu.counseling@sru.edu.in

2.13 Library and Learning Resources

Library Facilities

The university library supports the teaching and research activities of the university by providing facilities for general reading through acquisition, organization and dissemination of knowledge resources. It provides value added services according to the requirement of the users. University library has also implemented RFID technology for better functioning.

Collection

Spread over 3300mtrs., our university library is a vast repository of knowledge, featuring an extensive collection of books, journals, e-books, e-journals, and multimedia resources. Library has around 53,111 books and it receives 17 Journals, and 17 Magazines. The services and operations in the university library are fully computerized. The library is also equipped with a digital library section and reference section. It also receives 30,000 on-line e-journals (Full Text).

Working Hours

The library works on all days of the year except for a few holidays of national and social importance included in the Academic Calendar.

Monday to Friday: 8.00 A.M. to 8.00 P.M.

Saturday and Sunday: 10.00 A.M. to 4.00 P.M.

Reading Hall:

Monday to Sunday: 8.00 A.M. to 10.00 P.M.

Library Membership and Usage

The enrolment of membership is for all our UG/PG students, research scholars and staff of the university. The prescribed membership form can be obtained from the circulation counter. The students are provided with a Bar-Coded member ID card for the duration of their studies at the university. The ID card is not transferable for issue of books.

Circulation Section

The working hours for the issue and return of books are,

Weekdays : 9.30 A.M. to 6.00 P.M.

Sundays and Holidays : 10.00 A.M. to 4.00 P.M.

Borrowing Privileges

Category	No. of Books	Period of Loan
UG students	4	One month
PG students	6	One month
Research scholars	6	One month

Overdue Charges (Fines)

All the books borrowed from the library should be returned on or before the date stamped on the due date slip failing which overdue charges Re.1/-per day per book will be collected. Receipt must be obtained at the counter.

Loss of Books

In case of loss or damage of book, the user must replace the latest edition of the book or pay double the cost of book with a penalty as per rules prescribed by the library.

Digital Resources

OPAC (Online Public Access Catalogue)

The students can search the Bibliographic data viz. Author, Title, Subject, classified no. etc. through OPAC of the terminals installed at the Circulation Counters.

WEBOPAC

Students can also access the Bibliographic data of the University library through WEBOPAC within the university campus. WEBOPAC link is, http://192.168.30.100/webopac/default.aspx.

Online E-Resources

The library has University campus LAN connectivity through the computer center and is connected to a web server with 12 systems, providing network facility for access e-Resources only.

	Product Type	Access	No. of E-Resources
1	**JET : J- Gate Engineering and Technology (Includes Engineering &Technology., Basic Science, Agriculture. & Biological Science)** **JSMS : J- Gate Social and Management Sciences (Including Social & Management Science, Arts and Humanities)**	Full Text	**Engineering and Technology** 16,900+ **Basic Sciences** 19,700+ **Agriculture and Biological Sciences** 5,550+ **Social and Management Sciences** 24,100+ **Arts and Humanities** 17,700+
2	**DELNET e-Journals**	Full Text	**Engineering, Science & Technology :** e-Journals: 219 e-Articles: 3,05,048 e-Books: 45,825 **Management :** e-Journals: 1,093 e-Articles: 11,55,125 e-Books: 18,969 **Agriculture :** e-Journals: 389 e-Articles: 5,03,094 e-Books: 5,594 **Social Science & Humanities:** e-Journals: 202 e-Articles: 1,12,119 e-Books: 7,695
3	**National Digital Library(NDL)**	Full Text	More than **14.5 Crore+** Digital Resources (at No Cost)
4	**IEEE Access**	Full Text	**IEEE (ASPP Online)** Essential Package 209

For any queries: Mr. Sammi Reddy, Contact No: 0870-2818384, libraian@sru.edu.in

2.14 Information Technology and Wi-Fi Services

IT and Wi-Fi Access

The campus is Wi-Fi enabled, and students have access to the internet and learning management system while on campus. Students can login and have access to a secure network in common areas, labs, library and hostels.

All students are provided with a username (email) based on their enrollment number. The email follows the nomenclature enrollmentnumber@sru.edu.in. These login credentials can be used to connect to the campus Wi-Fi network, learning management system and mobile application.

Mr. A. Bala Krishna, Contact No: 8886522500, a.balakrishna@sru.edu.in

Mr. E. Manikanta, Contact No: 8008917297, e.maikantayadav@sru.edu.in

2.15. Hostels and Dining Services

The primary purpose of university hostels is to provide students with a "home away from home," ensuring a comfortable and conducive environment for academic and personal growth. To maintain discipline, protect hostel property, and promote a healthy living atmosphere, specific rules and regulations have been established.

Accommodation and Facilities

The university offers triple-sharing rooms separately for boys and girls.

Rooms are well-equipped with basic amenities, including a bed, mattress, study table, chair, and cupboard for each student.

Both AC and non-AC rooms are available based on student preference.

Hostels feature essential facilities such as hot water, mineral water, TV halls, and a common reading room.

Dining halls are either within or near the hostel buildings.

Wi-Fi access is provided for academic purposes.

Laundry services are available for residential students.

The hostel facility available for boys and girls.

Boys Hostel

Boys Hostel (BH-2)	Location- Beside Dining Hall
Boys Hostel (BH-3)	Location- Beside Dining Hall
Boys Hostel (BH-5)	Location- Behind Block-2

Girls Hostel

Girls Hostel (GH-1)	Location- Beside Boys Hostel
Girls Hostel (GH-8)	Location- Beside Boys Hostel
Dining Hall (Boys/ Girls)	Location- Beside Boys Hostel

Hostel Rules and Regulations

Students are responsible for maintaining hostel property and must use it carefully.

Any loss or damage caused will be charged to the responsible student(s). If a group is involved, all members will be fined.

A Student Hostel Committee will oversee the mess menu, hostel night, and other general matters.

Each hostel floor will have a Proctor to ensure discipline and address student concerns.

Disciplinary Actions

The university authorities hold the right to terminate a student's hostel residency if they engage in:

Deliberate disobedience or non-compliance with hostel rules.

Damage to property or harm to individuals.

Antisocial, antinational, or unlawful activities.

By adhering to these guidelines, students can enjoy a safe, comfortable, and disciplined hostel experience while focusing on their academic pursuits.

For any queries you can contact Hostel Management Team given in below table.

Designation	Contact Person	Contact Details
Administrative Officer (Hostels)	Mr. Ch. Vinay Kumar	9966001761, c.vinaykumarreddy@sru.edu.in
Hostel Manager (Boys)	Mr. A. Surender	9989671719, a.surender@sru.edu.in
Hostel Manager (Girls)	Ms. S. Shobha Rani	9701578799, s.shobharani@sru.edu.in

Cafeteria and Food Services

SR University has a spacious cafeteria with modern equipment and a hygienic environment providing quality food thus catering to the needs of students and staff. The cafeteria has an area of 710sft and accommodates 200 students at SRIX- Ground Floor. It is open for the students from 8.00 A.M. to 6.00 P.M. There is a wide variety of North-Indian and South-Indian cuisine, and the students enjoy the healthy nutritious food served at the cafeteria. Along with the main cafeteria, three food kiosks are conveniently located across the campus as follows (**Timings**: 8.00 A.M. to 7.00 P.M.):

Kiosk-1 Location- Beside Block-1

Kiosk-2 Location- Behind Block-II

Kiosk-3 Location- Beside Block-III

2.16. Stationery, Photocopy and Essential Services

Stationery Store

To support the professional needs of students, a stationery store is available adjacent to Block-I. This store offers office supplies, including pens, pencils, notebooks, files, and other essential stationery. It also provides photocopy and printing services.

Timings: 8:30 A.M. to 5:30 P.M.

Mr. G. Rajeshwar Reddy, Contact No: 9849014127, g.rajeshwarreddy@sru.edu.in

Photocopy Facility

Students can avail themselves of the printing facility from the space dedicated for reprographic facilities at a nominal cost.

Location and Timings: Beside Block I, 8:30 A.M. to 05:30 P.M.

ATM Facility

The Canara Bank ATM facility is located at the entrance of the main gate of the university.

2.17. Lost and Found Facility

A dedicated Lost and Found facility is available at the Central Library Block to assist students and faculty in recovering misplaced belongings. Items found on campus can be reported and submitted at the designated desk, where they are securely stored for retrieval. Students are encouraged to check the facility if they lose any personal items and provide identification when claiming their belongings. The Lost and Found operates during library hours, ensuring accessibility for all members of the university.

2.18. University Social Media and Communication Channels

The University fosters a vibrant community by engaging students, faculty, alumni, and beyond through social media. Follow us on Instagram, LinkedIn, Facebook, and X to stay updated on the latest news, events, and achievements. Experience campus life, celebrate student and faculty success stories, and be part of meaningful conversations. Join the SRU community online today!

3. ACADEMIC REGULATIONS AND ASSESSMENT FRAMEWORK

3.1. Academic Definitions and Terminology

Term	Definition
Academic Calendar	A semester schedule outlining teaching periods, exams, holidays, deadlines, and events. Accessible via SRAAP.
Academic Council	The highest academic authority overseeing instruction, research, and evaluation. Includes the VC, Deans, HoDs, faculty representatives, and external experts.
Academic Year	Spans **July to June**, comprising **Odd and Even semesters**, plus **Summer Semester** for backlog/improvement courses.

Board of Studies (BoS)	Department-level academic body responsible for designing and updating syllabi, chaired by the Head of department and including departmental faculty and external experts.
Capstone Project	A final-year credit-based project reflecting cumulative program learning under faculty mentorship.
CGPA (Cumulative Grade Point Average)	Overall academic performance across all semesters, calculated as the total credit-weighted grade points divided by total credits.
Degree with Specialization	Awarded upon successful completion of core program courses and a defined set of specialization courses.
Elective Course	A course chosen by students from a pool. Types include Program Elective, Open Elective, and Specialization Elective.
Honours Degree	Earned by completing additional, predefined courses beyond the standard degree requirements.
Mid Term Make-up Examination	A make-up exam offered to students after mid-term exam who scored <50% or missed the mid-term for valid reasons.
Minor Degree	Granted to students who fulfil their primary program requirements and complete specific courses from another discipline.
Pre-requisite	A course that must be completed before registering for an advanced course.
Programme	A structured set of courses leading to a degree upon completion of minimum credit requirements.
Remedial Classes	Additional academic support sessions are conducted to help students improve subject understanding and achieve the expected learning outcomes.

3.2. Program Structure and Duration

All Undergraduate (UG) and Postgraduate (PG) programs offered by the University follow a semester-based academic structure designed to support systematic learning, continuous evaluation, and academic progression. Each academic year normally consists of:

- **Odd Semester:** July/August to November/December
- **Even Semester:** December/January to April/May
- **Summer Semester (Optional):** May to July, primarily intended for backlog courses, academic recovery, or grade improvement.

The academic framework ensure comprehensive assessment of student learning and competency development. The minimum and maximum duration of various programs, along with the prescribed credit requirements, are provided in the following table.

Programs	Normal Duration	Maximum Duration	Credits Range
B. Tech	8 semesters	16 semesters	160-180
Lateral Entry	6 semesters	12 semesters	120-130
BBA	6 semesters	12 semesters	120
B. Sc (Hons.) Agriculture	8 semesters	14 semesters	170-190
B. Sc.	6 semesters	12 semesters	120
BCA	6 semesters	12 semesters	120
M.Sc. Agriculture	4 semesters	10 semesters	80
M.Sc.	4 semesters	8 semesters	80
MCA	4 semesters	8 semesters	80
MBA	4 semesters	8 semesters	80
M.Tech	4 semesters	8 semesters	80

B. Tech + BBA	8 semesters	16 semesters	160-200
B. Tech + MBA	10 semesters	20 semesters	200-220

Summer Semester Policy

The University offers a Summer Semester during the summer vacation period to support flexible learning pathways, academic recovery, and continuous progression. The Summer Semester is conducted in an accelerated mode due to the shorter academic duration. However, the total instructional hours and academic requirements for each course shall remain equivalent to those of a regular semester, requiring intensive weekly engagement.

Unless otherwise specified, all academic rules, evaluation procedures, attendance requirements, and assessment regulations applicable to regular semesters shall also apply to courses offered during the Summer Semester.

Students may register for Summer Semester courses for the following purposes:

- Clearing backlog courses
- Grade improvement
- Earning additional credits for Minor or Honors programs

Registration for Summer Semester courses is subject to payment of the prescribed fee as per University policy.

Supplementary examinations shall be conducted after the completion of each semester in accordance with the Academic Calendar notified by the Controller of Examinations.

3.3. International Mobility and Global Learning Opportunities

The University provides multiple international learning pathways and global academic engagement opportunities through collaborations with reputed international institutions. These programs are coordinated through the Office of International Affairs and Corporate Outreach (IACO).

Semester Abroad Program

Eligible students may apply to study for one semester at partner universities abroad based on the guidelines and selection criteria prescribed by IACO. Students participating in the program shall pay the applicable University tuition fee along with the prescribed international program charges.

Summer Immersion Program

The University facilitates short-term international immersion programs ranging from 1 to 6 weeks at globally recognized institutions such as NUS, FPT University, and San Francisco State University.

These programs are intended to provide global academic exposure, interdisciplinary learning, and cultural experience.

Subject to the duration, structure, and academic content of the immersion program, students may be permitted to claim eligible open elective or professional elective credits with prior approval from the University.

International Business Accelerated Program (IBAP)

Under the IBAP pathway, students complete three years of study at the University under the BBA program and may pursue advanced studies for two additional years at partner institutions in the USA, such as UMass Lowell, leading to an MBA or MS degree in Finance or Business Analytics.

International Engineering Program (IEP)

The University offers multiple international engineering pathways in collaboration with foreign universities:

- **2+2 Model:** Two years at the University followed by two years abroad leading to an undergraduate degree.
- **3+1+1 Model:** Three years at the University, one year abroad for undergraduate completion, and an optional additional year for a master's degree.

Progression Pathway Programs

The University also facilitates progression-based international programs through academic partnerships with foreign universities. Under these pathways, students may transfer during the final phase of their undergraduate program to pursue integrated bachelor's and master's degree

opportunities abroad. Eligibility criteria and admission requirements shall be governed by the respective partner institution policies.
For further details regarding international programs and global academic pathways, students may contact the Office of International Affairs and Corporate Outreach (IACO).

3.4. Honours and Minor Degree Framework

Honours Degree

The Honours Degree framework enables academically motivated students to pursue advanced learning in their discipline through additional specialized coursework.

- Students must maintain the prescribed minimum CGPA at the time of registration and award of the Honours Degree.
- A minimum of 16 credits shall be earned through approved advanced courses.
- These credits must be completed through overloading during regular or Summer Semesters.
- Courses completed under the Honours framework shall not overlap with the core curriculum requirements of the parent program.
- Additional registration fees shall apply as per University policy.
- These courses can be also taken in summer semester.

Minor Degree

The Minor Degree framework provides students the opportunity to acquire multidisciplinary knowledge in a secondary domain outside their parent discipline.

- Students shall complete a minimum of 16 credits from an approved Minor course basket.
- Registration through course overloading is mandatory.
- Minor courses shall be distinct from the core curriculum of the parent program.
- Additional fees shall be applicable for the registered Minor courses as per university policy.
- These courses can be also taken in summer semester.

3.5. Course Registration Framework

Course Registration

Course registration is mandatory for all students and shall be completed through the University academic portal (SRAAP) within the timelines specified in the Academic Calendar. Registration confirms a student's enrollment in the courses offered during the respective semester. Delayed registration beyond the prescribed schedule may attract a late registration fee as per University policy.
Prior to registration, students are required to:

- Complete payment of all prescribed academic and administrative fees
- Clear any pending dues, if applicable
- Plan the semester course load in consultation with the assigned faculty mentor
- Resolve timetable or course scheduling conflicts with the concerned Program Coordinator

Add/Drop Policy

The University provides a limited academic flexibility window at the beginning of each semester for course modification.

- Students may add, drop, or change elective courses during the designated registration modification period on payment of the prescribed fee.
- Elective course changes are normally permitted within three days from the commencement of the semester, subject to seat availability and academic approval.
- Elective courses shall normally be offered subject to minimum student enrollment requirements as prescribed by the University. Exceptions, if any, shall be approved by the Dean Academics.

The University reserves the right to:

- Withdraw elective courses with insufficient enrollment
- Cancel course registrations in cases involving disciplinary violations, malpractice, or academic integrity concerns

3.6. Teaching Scheme and Course Coding Framework

The course contents and syllabi approved by the Academic Council shall be implemented and followed for all academic programs offered by the University.

A regular semester normally spans 17–19 weeks with 90 working days, including registration, coursework, self-learning, continuous assessments, examinations, and other academic activities.

The University follows a structured course coding framework to ensure uniform academic administration, curriculum mapping, and program identification across all Schools and Departments. Each course is assigned a unique alphanumeric code representing the admission year, offering department, instructional structure, course category, course level, and course sequence number.

Course Code Components

Component	Digits	Example	Description
Admission Year	2	25	Year of student admission
Owner Department	3	EEE	Department offering the course
Lecture, Recitation, Practical Hours	3	302	Total weekly hours (e.g., 3 lecture hours, 0 recitation, 2 practical hours)
Course Category	2	PC	Program Core (PC), Program Elective (PE), Open Elective (OE), etc.
Course Level	1	3	Level of study (UG: 1-4, PG: 5-6, PhD: 7)
Course Number	2	01	Course sequence number assigned within the department

Example: **25EEE302PC301**

Component	Description
25	Admission Year
EEE	Owner Department of the Course
302	Lecture, Recitation, and Practical Hours
PC	Course Category
3	Course Level
01	Course Sequence Number

3.7. Attendance and Academic Engagement Policy

The University recognizes regular academic engagement as an essential component of learning, competency development, and continuous academic progression. Students are therefore expected to maintain active participation in all academic activities throughout the semester.

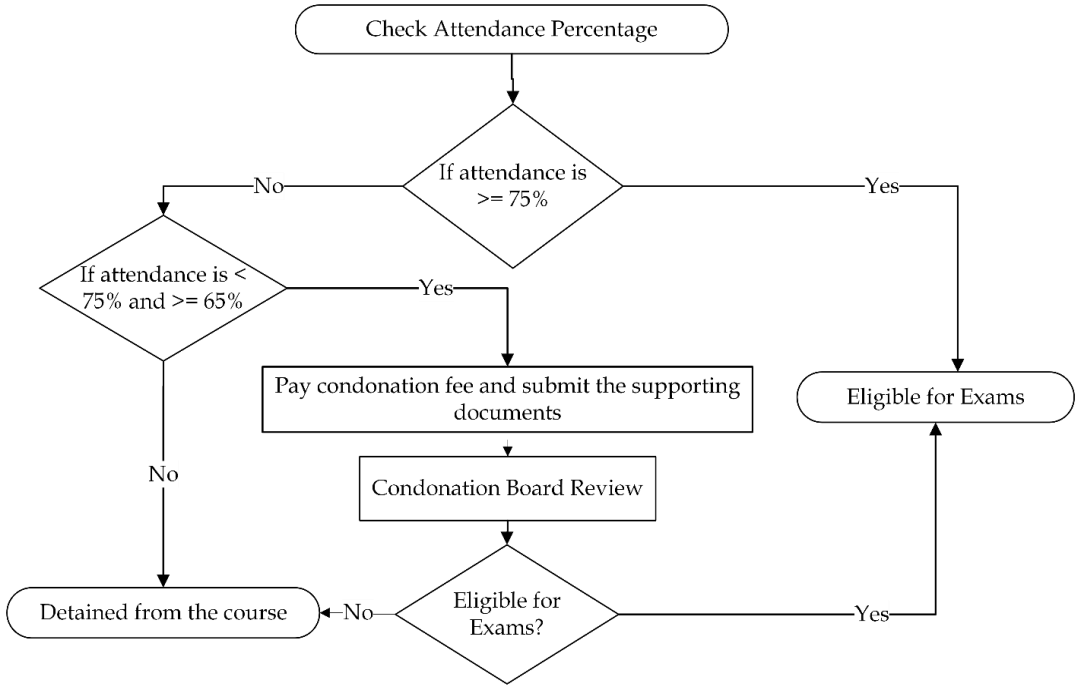

A minimum of 75% attendance in each course is mandatory to become eligible for the End Semester Examination (ESE). Attendance shall be calculated on a course-wise basis.

The permitted absence may normally be utilized for genuine and approved reasons, including:

- Medical emergencies
- Family functions or personal contingencies
- Participation in officially approved University activities such as seminars, workshops, conferences, cultural events, NSS/NCC camps, sports, and other academic or co-curricular programs

In case of medical or emergency situations, students or parents are expected to inform the concerned faculty or academic administration through official communication channels at the earliest opportunity.

Students who fail to satisfy the minimum attendance requirements shall not be permitted to appear for the End Semester Examination and may be placed under academic detention for the respective course(s). The list of detained students shall be notified prior to the commencement of examinations as per the Academic Calendar. (Refer Flowchart 2.1 for Promotion and Detention Policy.)

Flowchart 2.1. Promotion/Detention Policy

3.8. Grading System and Academic Performance Evaluation

The University follows a grading system for evaluating student performance in each course. Letter grades are awarded based on a student's academic performance as per the overall performance of the course cohort to ensure fairness, consistency, and academic rigor. Each letter grade is associated with a corresponding Grade Point (GP), which is used for the computation of the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA). The SGPA represents the weighted average of grade points earned in all courses registered during a semester, while the CGPA reflects the cumulative academic performance across all completed semesters of the program. The detailed grading framework, grade points, and methodology for SGPA and CGPA computation are provided in the following sections.

Grading Framework

For Undergraduate Programs;

Letter Grade	Performance	Grade Point
A	Excellent	10
B	Very Good	8
C	Good	6
D	Average	4
R	Repeat due to inadequate attendance/Dropped/ Unregistered	0
F	Fail/Malpractice	0
I	Incomplete due to exam fee not paid/absence in end exam	0

For Postgraduate Programs

Letter Grade	Performance	Marks Range	Grade Point
A	Excellent	90-100	10
B	Very Good	80-89	9
C	Good	70-79	8
D	Average	50-69	7

R	Repeat due to inadequate attendance/Dropped/ Unregistered	-	0
F	Fail/Malpractice	-	0
I	Incomplete due to exam fee not paid/absence in end exam	-	0

For PhD Programs

Letter Grade	Performance	Marks Range	Grade Point
A	Excellent	90-100	10
B	Very Good	80-89	9
C	Good	70-79	8
D	Average	60-69	7
R	Repeat due to inadequate attendance/Dropped/ Unregistered	-	0
F	Fail/Malpractice	-	0
I	Incomplete due to exam fee not paid/absence in end exam	-	0

Grade Definitions

Grades A, B, C, and D shall be treated as passing grades. Grades R, F, and I indicate unsuccessful completion of the course, and such courses shall be treated as backlog courses.

R Grade

The 'R' grade shall be awarded to students detained due to shortage of attendance or under approved academic or disciplinary conditions. Students awarded an 'R' grade are required to register for the course again during the Summer Semester or subsequent offering of the course.

F Grade

The 'F' grade shall be awarded to students who satisfy the minimum attendance requirements but fail to secure the prescribed minimum passing marks in the overall course evaluation, including continuous assessments and End Semester Examination.

The 'F' grade shall also apply in cases involving academic malpractice or violations of examination regulations, as per University policy.

I Grade

The 'I' (Incomplete) grade shall be awarded to students who are unable to appear for the End Semester Examination due to approved medical reasons or non-completion of examination registration formalities, including non-payment of examination fees.

Students awarded an 'I' grade may appear for the End Semester Make-up Examination after completing the prescribed registration process and payment of the applicable fee and penalty, if any.

SGPA Calculation

SGPA will be computed for each semester. The SGPA will be calculated as follows:

$SGPA = (\Sigma C_i\ G_i) / (\Sigma C_i)$

where C_i is the number of credits assigned to i^{th} course and G_i is the grade point equivalent to the letter grade obtained by the student in the ith course.

Illustration of SGPA calculation for UG Programs

Course/ Subject	Credits	Letter Grade Secured	Grade Points	Credit Points
Course1	4	A	10	4x10=40
Course2	2	C	6	2x6=12
Course3	3.5	B	8	3.5x8=28
Course4	1	A	10	1x10=10

Course5	2	B	8	2x8=16
Course6	1	D	4	1x4=4
	13.5			110

SGPA=110/13.5=8.14 (Rounded off up to 2 decimal points)

Illustration of SGPA calculation for PG and PhD Programs

Course/ Subject	Credits	Letter Grade Secured	Grade Points	Credit Points
Course1	4	A	10	4x10=40
Course2	2	C	8	2x8=16
Course3	3	B	9	3x9=27
Course4	1	A	10	1x10=10
Course5	2	B	9	2x9=18
Course6	1	D	7	1x7=7
	13			118

SGPA=118/13=9.08 (Rounded off up to 2 decimal points)

Illustration of Calculation of CGPA up to 3rd Semester

Semester	SGPA	Credit Points (CP)
I	8.46	18
II	6.78	24
III	9.30	22
Total	24.54	64

CGPA= (8.46*18) +(6.78*24) +(9.30*22)/64 = 519.6/64=8.1 (Rounded off up to 1 decimal point)

When a student repeats a course, the better grade will be considered in the calculation of the CGPA. While calculating CGPA 'I' grade secured by the student shall not be considered.

Formula for conversion of CGPA to percentage of marks is (10 x CGPA).

Students who have backlog course(s) in each semester may be allowed to study an equivalent course (against the backlog course), if necessary, with the approval of School Dean as per the flexibility given in the approved curriculum.

3.9. Examination Process, Academic Recovery and Grade Improvement Framework

The University adopts a comprehensive assessment framework designed to evaluate student learning, competency development, analytical ability, and academic progression through a combination of Continuous Internal Evaluation (CIE) and End Semester Examination (ESE).

Examination Eligibility

Students shall be eligible to appear for any examination only if they:

Are registered for the course;

Have completed the prescribed examination registration process;

Have paid the applicable examination fee; and

Fulfil the minimum attendance requirements prescribed by the University.

Failure to satisfy these requirements may result in withholding examination eligibility and award of an appropriate grade as per University regulations.

Closed Book and Open Book Examinations

The University may conduct examinations in either Closed Book or Open Book mode depending on the nature of the course and the intended learning outcomes.

Closed Book Examination

A Closed Book Examination assesses students without access to textbooks, notes, or reference material and primarily evaluates conceptual understanding, retention, and problem-solving ability.

Open Book Examination

An Open Book Examination permits students to refer to approved learning resources during the examination. Such examinations are designed to evaluate application of knowledge, critical thinking, analysis, interpretation, and problem-solving rather than memorization.

The mode of examination shall be determined by the University from time to time and notified through the approved examination schedule.

Assessment and Evaluation

Each course shall be coordinated by a designated Course Coordinator responsible for assessment planning, evaluation, and grade submission. Continuous Internal Evaluation may include one or more of the following components:

Mid-Term Examinations
Quizzes and Class Tests
Assignments and Case Studies
Laboratory Evaluation and Viva Voce
Presentations and Seminars
Projects and Design Challenges
Hackathons and Innovation Activities
Industry Certifications and Experiential Learning Activities

Internships, Capstone Projects, Industry Projects, and other experiential learning components shall be evaluated through approved evaluation committees constituted by the University.

Final grades shall be awarded based on overall performance in Continuous Internal Evaluation and End Semester Examination as per the approved grading framework.

Review and Re-evaluation of Answer Scripts

To promote transparency and academic accountability, students shall be provided an opportunity to review evaluated answer scripts within the schedule notified by the concerned department. Students who identify discrepancies in evaluation may seek clarification from the course instructor during the review process. Any correction arising out of evaluation oversight may be incorporated before final grade submission. Students who do not attend the answer script review session within the notified schedule shall forfeit their right to review the answer script. However, students may subsequently apply for re-evaluation by paying the prescribed fee.

Following the declaration of results, students may apply for re-evaluation of answer scripts under the following circumstances:

Missed Review: The student was unable to attend the scheduled answer script review session conducted by the faculty.

Dissatisfaction After Review: The student attended the review session but remains dissatisfied with the evaluation of the answer script.

Applications for re-evaluation shall be submitted within the timeline prescribed by the Examination Branch along with the applicable fee. The outcome of the re-evaluation process shall be final and binding.

Mid-Term Make-up Examination

Students who are absent for the Mid-Term Examination or secure less than the prescribed qualifying marks may register for a Mid-Term Make-up Examination by paying the prescribed fee within the notified schedule. The marks secured in the Mid-Term Make-up Examination shall replace the original Mid-Term marks for evaluation purposes.

Scaling End term marks by adding additional marks in proportion to midterm total marks.

To provide an additional opportunity for academic improvement, students who are not satisfied with their Mid-Term Make-up Examination performance may apply for proportionate scaling of End Semester Examination marks towards Mid-Term marks by paying the prescribed fee.

The scaled Mid-Term marks shall be computed based on the student's performance in the End Semester Examination and the approved evaluation weightages of the course.

The final Mid-Term marks shall be the higher of Mid-Term Make-up Examination Marks or Scaled Mid-

Term Marks.
The detailed computation methodology shall be notified by the Controller of Examinations from time to time and implemented as per the University policy. The scaling process shall not reduce the student's existing Mid-Term score.
Example:
Formula
Scaled Re-Mid Marks = (End Exam Marks / End Exam Max) × (Re-Mid Max + End Exam Max) - End Exam Marks
Final Re-Mid Marks = max (Original Re-Mid Marks, Scaled Re-Mid Marks)

Example	Mid/Re-Mid Marks (Q)	End Exam Marks	Mid/Re-Mid Marks after scaling (J)	Best of Two (max (Q, J))	Final Combined Marks
1	8 / 20	25 / 40	12.5	12.5	25 + 12.5 = 37.5
2	10 / 20	30 / 40	15	15	30 + 15 = 45
3	15 / 20	20 / 40	10	15	20 + 10 = 30

Grade Improvement Policy
Students awarded grades B, C, or D may register for Grade Improvement subject to the following conditions:
Grade Improvement shall be permitted only before graduation.
Registration shall be completed within the schedule notified by the Examination Branch.
Only one Grade Improvement attempt shall be permitted per course.
Students shall undergo all evaluation components of the course irrespective of previous attempts.
The better of the two grades shall be retained for CGPA computation.
Revised grades shall be considered for academic progression, internships, placements, international mobility, and eligibility for Honors or Minor programs.
Revised grades shall not be considered for award of University medals or ranks.
Academic Recovery Framework
The University provides structured academic recovery mechanisms to support student progression and successful completion of academic requirements.
Clearing Not Registered Courses
Courses not registered during the prescribed registration period shall be treated as Not Registered Courses. Students may complete such courses during subsequent regular semesters or Summer Semesters subject to:
Availability of the course;
Timetable feasibility;
Approval of the concerned academic authorities; and
Payment of the prescribed fee.
In case of semester withdrawal or semester drop, students shall comply with the applicable fee and registration requirements prescribed by the University.
Clearing F Grade
Students awarded an F grade may appear for the immediate Supplementary Examination.
Only one supplementary attempt shall be permitted.
The Supplementary Examination shall normally be conducted for 100 marks.
The maximum grade that may be awarded through Supplementary Examination shall be C.
Clearing R Grade
Students awarded an R grade shall re-register for the course and complete all prescribed evaluation components.
Such courses may be completed through the immediate or subsequent Summer Semester or whenever the course is next offered.

Clearing I Grade

Students awarded an I grade may appear for the End Semester Make-up Examination after completing the prescribed registration process and payment of the applicable fee.

The Make-up Examination marks shall replace the End Semester Examination marks.

Original course grading criteria and grade cut-offs shall be applicable.

The Make-up Examination shall normally be conducted for 100 marks and scaled appropriately to the End Semester Examination weightage of the course.

Failure to utilize the Make-up Examination opportunity shall result in the course being treated as a failed course.

Clearing MOOCs Courses

Students who fail a MOOCs course may:

Re-register for the same MOOCs course during a subsequent offering; or

Register for an approved equivalent course with prior approval of the concerned academic authorities.

Refer Flowchart 2.2: Examination Process, Academic Recovery and Grade Improvement Framework

Advance Supplementary Examination for Final-Year Students

To facilitate timely graduation, the University may conduct Advance Supplementary Examinations for eligible final-year undergraduate students who have completed all other academic requirements but have one or more pending backlog courses. Students shall normally be required to exercise the Summer Semester option before becoming eligible for Advance Supplementary Examination. The eligibility criteria, fee structure, and examination schedule shall be notified separately by the Controller of Examinations.

Declaration of Results

Semester results shall be declared by the Controller of Examinations after approval by the Dean Academics. Results, including course grades, SGPA, and CGPA, shall be published through the University academic portal. Any correction in grades shall require approval of the Director of Evaluation based on the recommendation of the Dean Academics. Requests for correction or appeal relating to published results shall be submitted within the prescribed period, normally within 15 days from the date of declaration of results.

The minimum passing requirement shall be 45% aggregate marks for Undergraduate programs; and 60% aggregate marks for Postgraduate and Ph.D. programs.

Committee for Prevention of Academic Malpractice (CPAM)

The University is committed to maintaining the highest standards of academic integrity and examination ethics. A Committee for Prevention of Academic Malpractice (CPAM) shall be constituted annually with the approval of the Vice-Chancellor to investigate cases of examination misconduct and unfair means.

Identification of Malpractice

If a student is suspected of using unfair means during an examination:

The invigilator shall seize the answer script and any supporting evidence.

The student shall be given an opportunity to provide a written statement.

Refusal to provide a statement shall be recorded and duly witnessed.

In practical examinations, evidence may include digital records, files, screenshots, or other supporting materials.

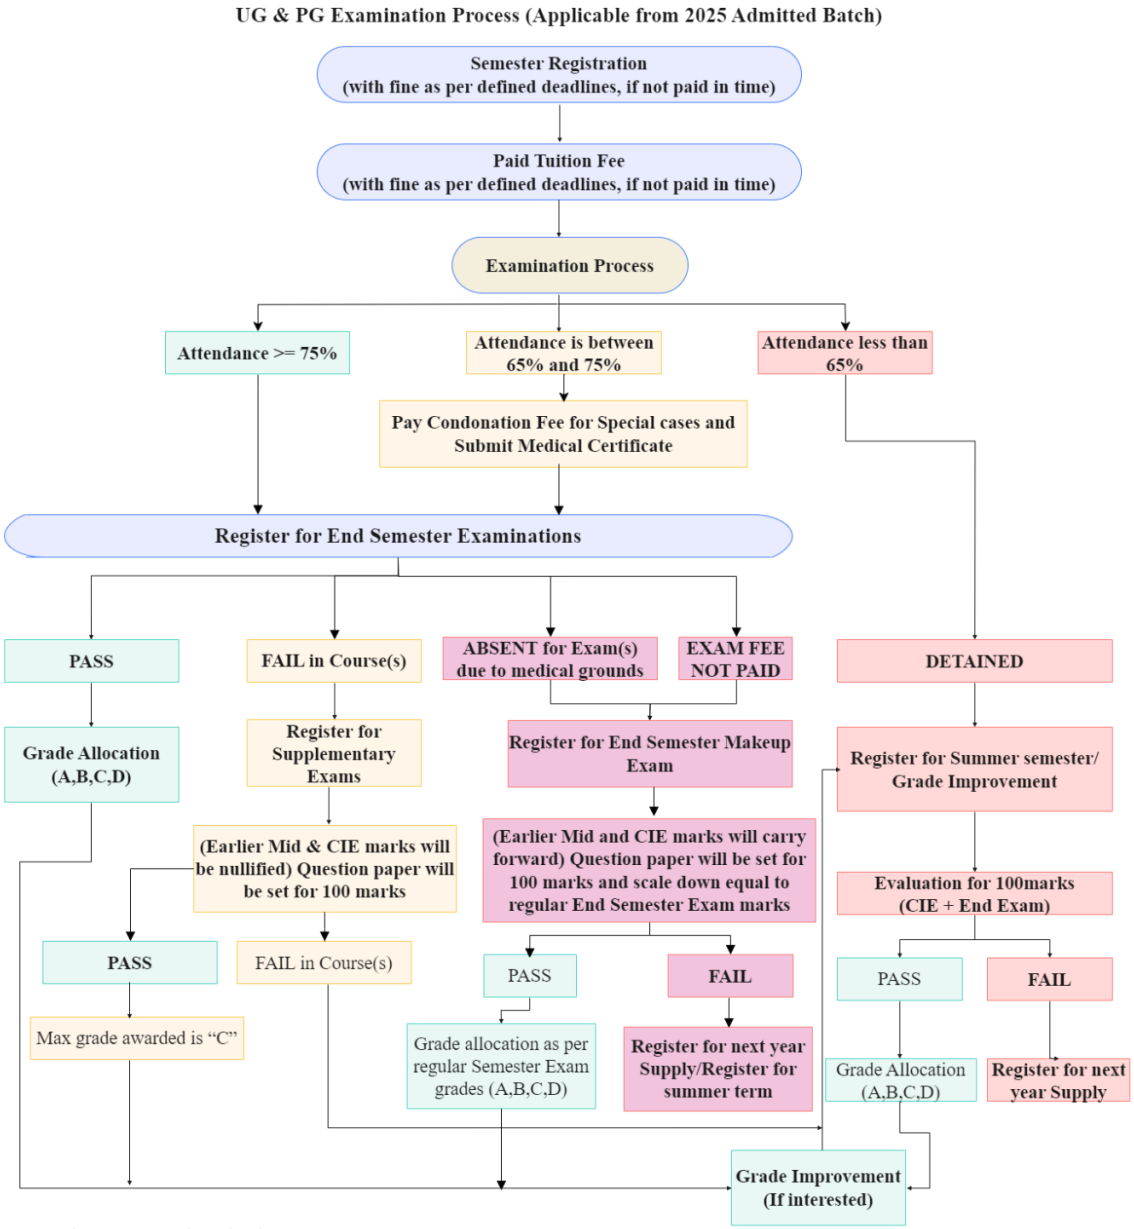

Post-Incident Process

The student may be issued a fresh answer booklet to continue the examination.

Relevant records and evidence shall be forwarded to the Controller of Examinations.

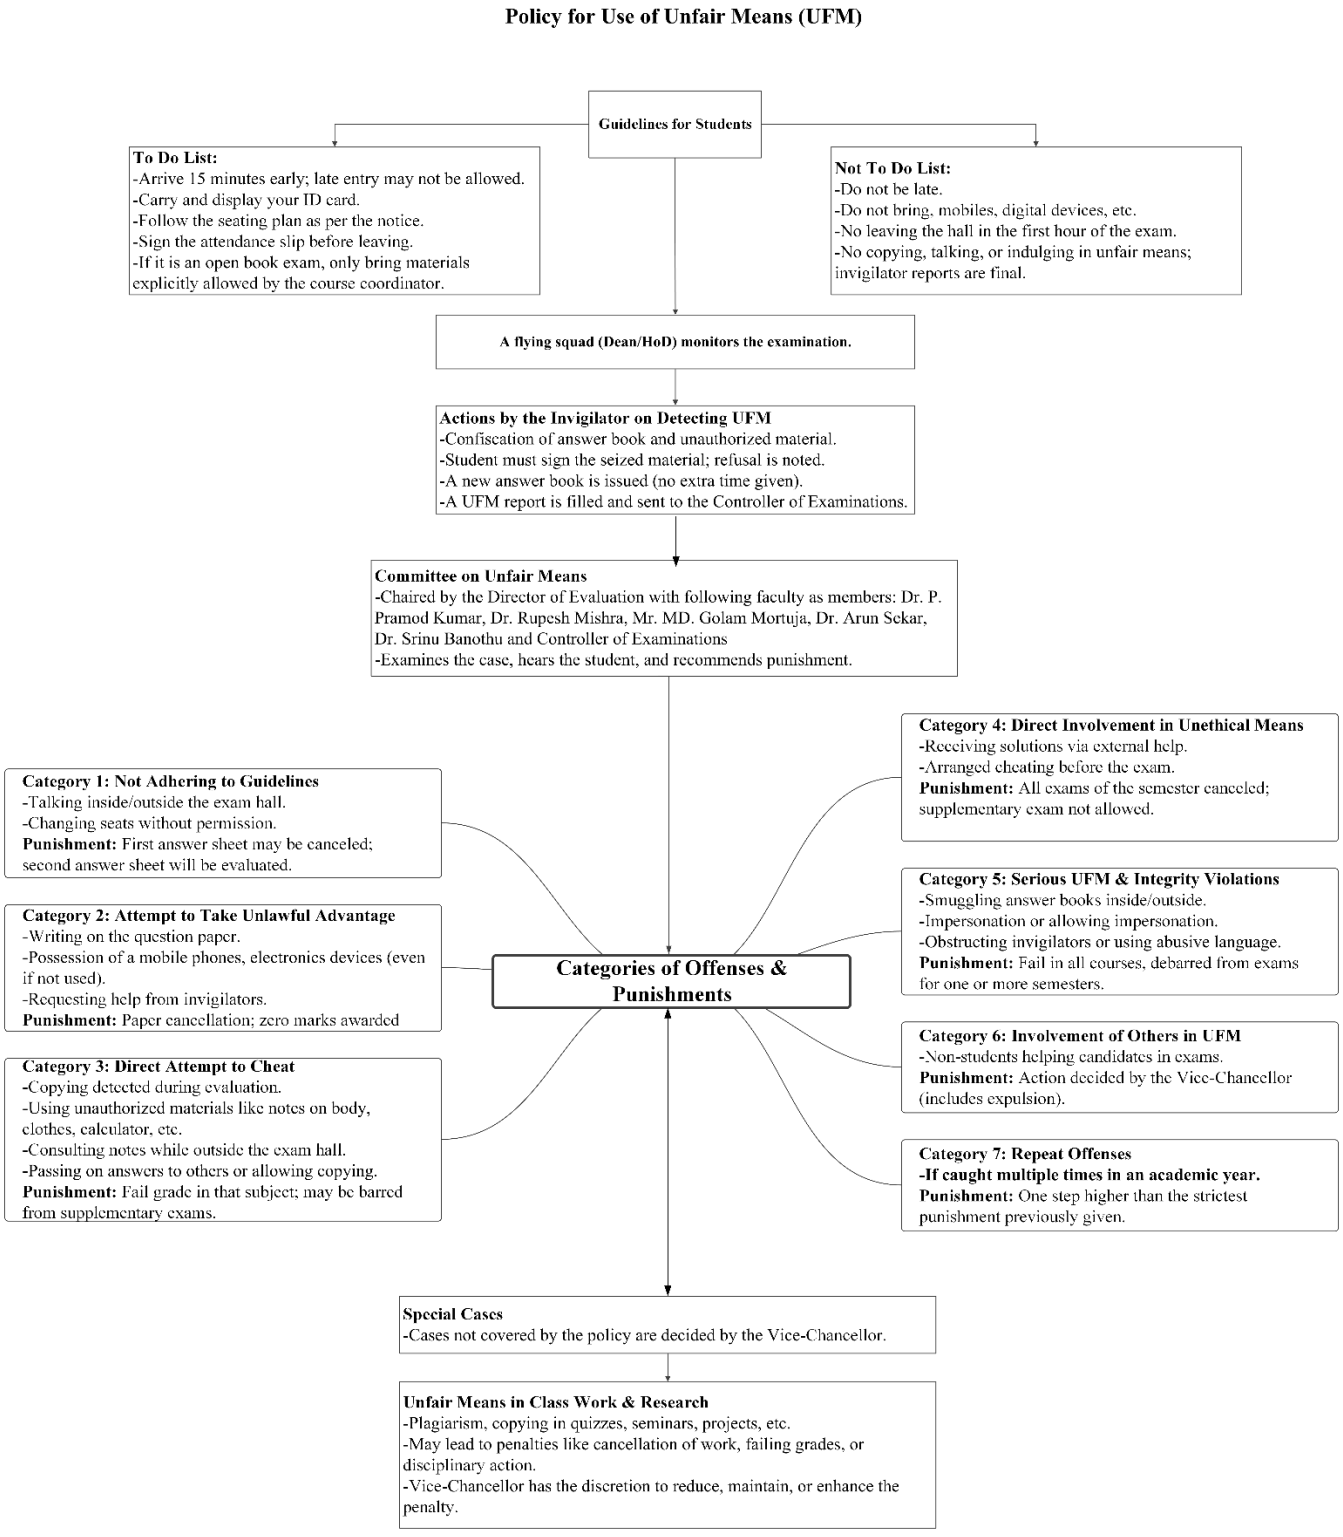

CPAM shall investigate the case, classify the offence, and recommend appropriate action as per university regulations.

The recommendations of CPAM shall be processed by the Controller of Examinations for further action. Refer Flowchart 2.3 for Academic Malpractice Handling Process.

CIE - Continuous Internal Evaluation
Note 1: The pass mark is 45 for UG and 50 for PG
Note 2: Only one supply chance immediately after End Term Exam or one supply chance after attempt of summer term
Note 3: Students having grade B to D are eligible for grade improvement in a course during Summer Semester (Only one chance for a course).
Note 4: Only one opportunity will be given for grade improvement, and the best of the two grades will be considered.

Flowchart 2.2. Examination Process, Academic Recovery and Grade Improvement Framework

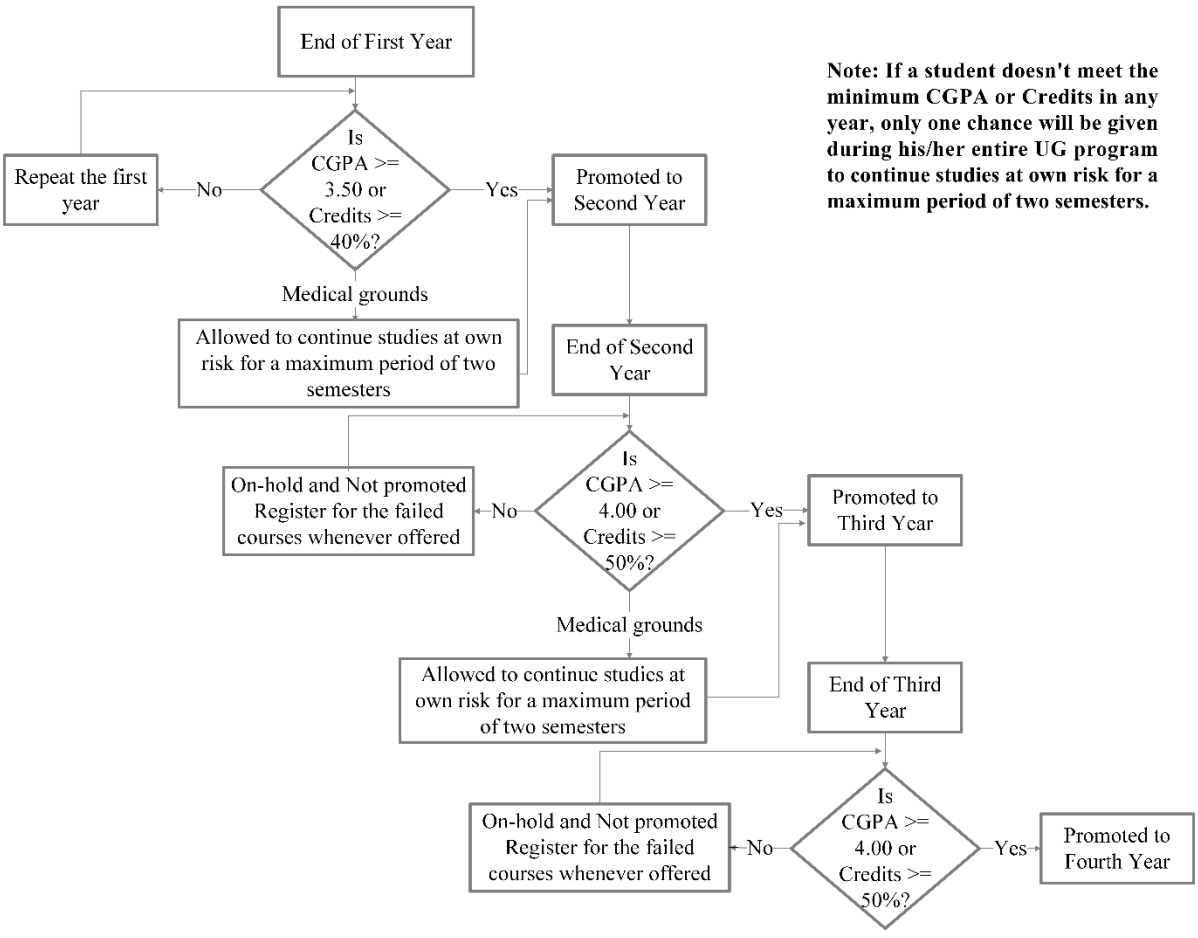

Flowchart 2.3. Policy for Use of Unfair Means

3.10. Promotion Policy and Academic Progression Requirements

The University follows a structured academic progression framework to ensure that students achieve the required learning outcomes and academic competencies at each stage of their program. In addition to satisfying the attendance requirements specified in Section 2.13, students shall meet the prescribed academic requirements for promotion to the next academic year. At the end of each academic year, students shall satisfy the minimum progression requirements as prescribed in the approved curriculum and academic regulations. These requirements may include achievement of the

prescribed minimum CGPA; and/or earning the minimum number or percentage of credits required for progression to the subsequent academic year.
Students who fail to satisfy the prescribed academic progression requirements may not be eligible for promotion and may be required to repeat the academic year as per the applicable regulations.
Students admitted through the lateral entry pathway shall be governed by the promotion requirements applicable from the second year onwards.
In exceptional cases involving prolonged medical conditions or other approved circumstances, the University may grant additional time to fulfill the prescribed academic requirements, subject to submission of supporting documents and approval by the competent authority. Such extensions shall not automatically guarantee promotion, and students shall be promoted only upon satisfying the stipulated academic eligibility criteria.
The detailed promotion requirements for various programs are provided in the respective Promotion Policy Flowcharts. Refer Flowchart 2.4(a), and Flowchart 2.4(b) for Program-wise Promotion Policies.

Flowchart 2.4. (a) Promotion Policy for B. Tech

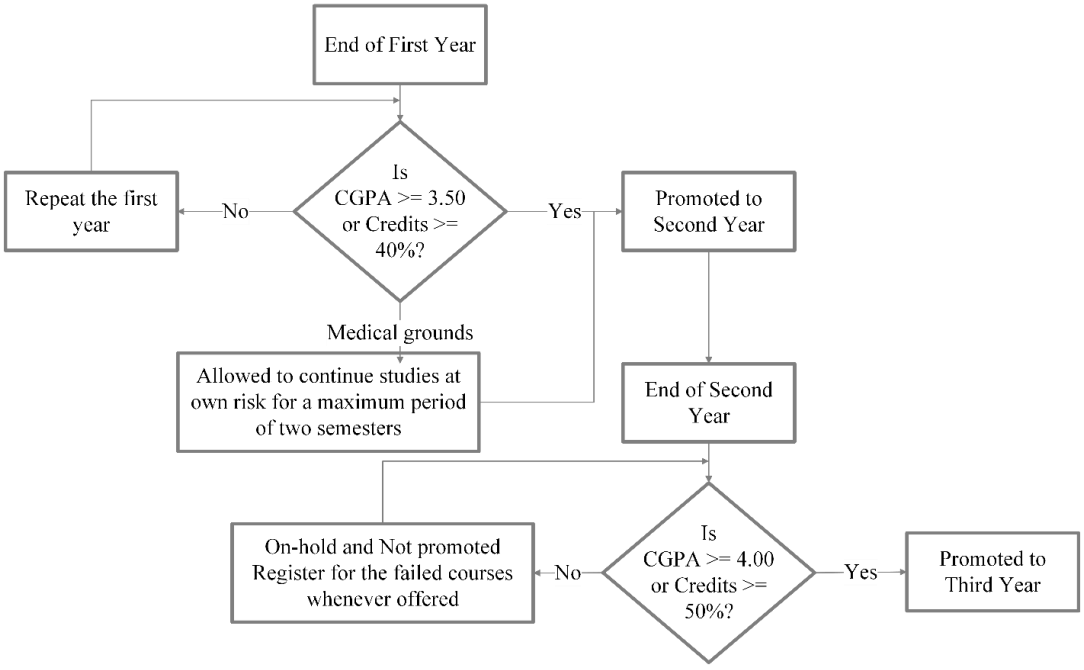

3.11. Branch Transfer Policy

Students may apply for a change of Branch or Program during the prescribed period at the beginning of the second or third semester, as notified by the University. Requests for branch change shall not be considered beyond the permitted academic period.
The following guidelines shall apply for branch change:

- Change of Branch once approved shall be final and binding.
- Students shall not be permitted to decline the allotted branch after approval of the branch

change process.

- Branch change shall be subject to availability of seats, academic performance, eligibility criteria, and University regulations.
- The University may, at its discretion, permit academically non-performing students to shift to another eligible branch based on seat availability and institutional recommendations.
- Students allotted a new branch shall complete all additional or equivalent courses prescribed for the revised program curriculum and pay the applicable fee as notified by the University.
- Students admitted under International Engineering Programs (IEP) shall not be eligible to participate in the branch upgradation process at the end of the first year.

Flowchart 2.4. (b) Promotion Policy for BBA/BCA

3.12. Credit Transfer Framework

The University facilitates academic mobility and transfer of credits earned from recognized universities, academic institutions, research organizations, and approved learning platforms in India and abroad.

Students seeking transfer of credits to or from the University shall submit the prescribed application along with the required supporting documents and fee to the Examination Branch. The University shall issue transcripts and process credit transfer requests in accordance with the approved academic regulations and University policy.

Eligibility and Approval

Credit transfer may be considered for courses completed through:

- Institutions having academic collaboration or MoU with the University
- Recognized and accredited universities or academic institutions
- Approved research institutions and international partner universities
- Recognized MOOCs and online learning platforms approved by the University

The equivalence and relevance of transferred courses shall be evaluated by a committee of subject experts constituted under the guidance of the Dean Academics and approved by the Vice Chancellor. Final approval of credit mapping shall be ratified by the Academic Council.

General Guidelines

- Students transferring to the University must complete at least 50% of the prescribed program credits at the University to become eligible for the award of the degree.
- Student exchange or international transfer pathways shall normally be limited to a maximum

duration of two academic years at partner institutions.

- Approved equivalent course baskets and mapped courses shall be maintained by the respective Schools and Departments.
- Applicable credit transfer and transcript fees shall be governed by university policy.

3.13. Academic Bank of Credits (ABC)

In alignment with the National Education Policy (NEP) 2020, the University implements the Academic Bank of Credits (ABC) framework to support academic flexibility, lifelong learning, and seamless student mobility. The ABC system enables students to digitally store, transfer, redeem, and utilize academic credits earned from recognized institutions through a secure national academic repository linked to the student's APAAR ID. This framework supports continuation of education across institutions and flexible academic progression.

Students are encouraged to complete ABC registration through the official ABC Portal or DigiLocker platform as prescribed by the Government of India. Detailed registration guidelines and support resources shall be made available by the University from time to time.

ABC Registration Process

Option A: ABC Portal	Option B: DigiLocker
Go to abc.gov.in. Click "My Account" → "Student". Select "Sign up for Meri Pehchan" (for new users). Enter your mobile number and verify with OTP. Fill in your details and confirm. Get your ABC ID.	Visit digilocker.gov.in. Log in using Mobile or Aadhar. Search for ABC ID in the Education Section. Click the widget to generate and download. Your ABC ID is ready.

For more guidance, check out ABC Portal (https://www.abc.gov.in.) for video tutorials.

3.14. Multiple Entry and Exit Framework

In alignment with the National Education Policy (NEP) 2020 and the National Higher Education Qualifications Framework (NHEQF), the University provides a flexible academic progression framework with multiple entry and exit options. This framework enables students to pursue higher education through structured academic milestones while supporting lifelong learning and academic mobility.

Students who exit a program after successfully completing the prescribed credits and academic requirements shall be awarded the corresponding qualification as approved by the Academic Council. Students may subsequently re-enter the program within the permissible duration as per university regulations and continue their academic progression through the Academic Bank of Credits (ABC) framework.

Structured Exit Pathways – Undergraduate Programs

Academic Level	Qualification Awarded	Minimum Credits Requirement
After 1 Year (2 Semesters)	Undergraduate Certificate in the respective program	As prescribed by the curriculum
After 2 Years (4 Semesters)	Undergraduate Diploma in the respective program	As prescribed by the curriculum
After 3 Years (6 Semesters)	Bachelor's Degree / Advanced UG Diploma in the respective program	As prescribed by the curriculum
After 4 Years (8 Semesters)	Bachelor's Degree in the respective discipline	Full program credit requirements

Structured Exit Pathways – Postgraduate Programs

Academic Level	Qualification Awarded	Minimum Credits Requirement
After 1 Semester	Postgraduate Certificate in the respective program	As prescribed by the curriculum
After 1 Year (2 Semesters)	Postgraduate Diploma in the respective program	As prescribed by the curriculum

Students seeking re-entry after an approved exit shall be governed by the applicable academic regulations, curriculum structure, and credit equivalence framework in force at the time of rejoining. Credit redemption and continuation shall be facilitated through the Academic Bank of Credits (ABC) and APAAR framework as per University policy.

3.15. Academic Re-Enrollment and Continuation Protocols

The University supports flexible academic continuation and re-entry for students whose studies are interrupted due to academic, personal, medical, or administrative reasons.

Students may apply for re-enrollment by completing the prescribed process and fulfilling the applicable academic and administrative requirements. Upon rejoining, students shall be governed by the academic regulations and curriculum in force at the time of re-enrollment.

Eligible previously earned credits may be considered through approved credit mapping and the Academic Bank of Credits (ABC) framework as per university policy.

3.16. Student Success Management Framework

The University envisions an engaging and rewarding student journey by integrating gamification into academic and extracurricular activities. A detailed gamification process is illustrated in Flowchart 2.5.

Motivation: Our vision is to gamify student life and reward their achievements, to boost their confidence and motivation to excel with better speed.

There are three entities in the Gamification process are Student, Faculty, and Program Coordinator.

Objectives

Basic Idea is to incentivize students for their mini achievements.

To make this happen, we planned to implement 2 types of coins, 5 levels in each and badges.

We have academic, co-curricular and extracurricular activities coins serving their own purposes,

To implement a leader board to increase competitive spirit in students.

Badges are allocated, so that can be shared on social media to show off their skills publicly.

These badges stay permanently on their profile, as proof of their achievements.

Gamification Categories

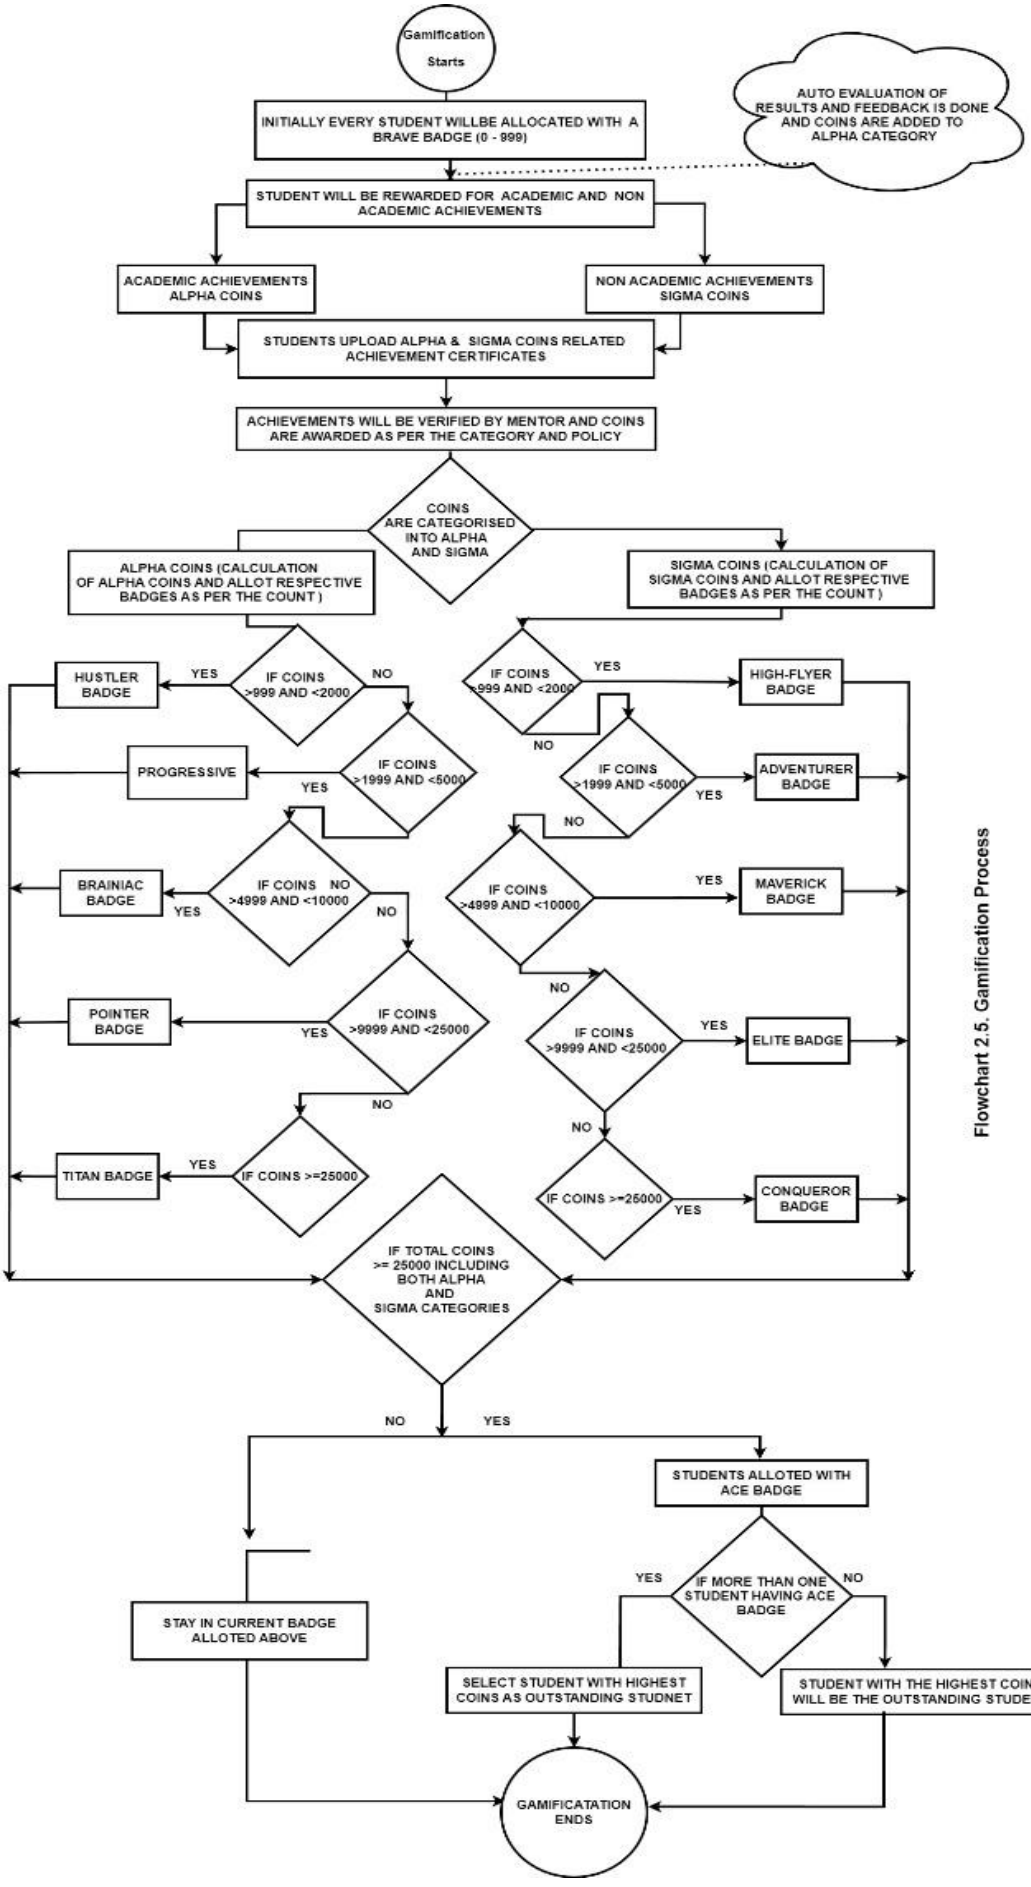

Alpha Coins- Academic Purpose: These coins are given to students who perform well in curricular and co-curricular activities.

Sigma Coins- Non-Academic Purpose: These coins are given to students who perform well in extracurricular activities.

**Note: 1 coin = 0.10 Rupee

Badge Types:

S.No.	Badge Name	Associated Coin	Threshold Value	Status (Permanent/Temporary)
L0	BRAVE	Welcome Badge ALPHA and SIGMA	0-999	
L1	HUSTLER	Alpha Coin	1000-1999	Permanent
L2	PROGRESSIVE	Alpha Coin	2000-4999	Permanent
L3	BRAINIAC	Alpha Coin	5000-9999	Permanent
L4	PIONEER	Alpha Coin	10000-24999	Permanent
L5	TITAN	Alpha Coin	>=25000	Permanent
L1	HIGH-FLYER	Sigma Coin	1000-1999	Permanent
L2	ADVENTURER	Sigma Coin	2000-4999	Permanent
L3	MAVERICK	Sigma Coin	5000-9999	Permanent
L4	ELITE	Sigma Coin	10000-24999	Permanent
L5	CONQUEROR	Sigma Coin	>=25000	Permanent
L5+L5	ACE	HIGHEST alpha and Sigma	>=25000	Permanent

Flowchart 2.5. Gamification Process

Reward and Recognition System

Allocation of Alpha Coins:

S. No.	Coin Type	Activity Type	No. Coins	Cap/Year	Cap/Degree	Authority
1	Alpha	Class/Lab/Tutorial Appreciable Participation (Max 5 Students per course)	10	50	200	Instructor
2	Alpha	Feedback Points per Sem 10 (Teacher + CLO + Mentoring)	10	20	80	Mentor
3	Alpha	Best Performer Amongst Top1% Performers. Per Semester	500	1000	4000	Mentor
4	Alpha	Best Performer Amongst Top5% Performers. Per Semester	200	400	1600	Mentor
5	Alpha	Best Performer Amongst Top10% Performers. Per Semester	100	200	800	Mentor
6	Alpha	Project Selected for Project Showcase (Team Division)	200	400	1200	Mentor
7	Alpha	Approved State Level Coding Competition-Hackathon (Team Division) Participation	100	200	800	Mentor
8	Alpha	Approved State Level Coding Competition-Hackathon (Team Division) winners (1,2,3 positions)	400,300,200	400	1000	Mentor
9	Alpha	Approved National Coding Competition-Hackathon (Team Division) Participation	200	400	800	Mentor
10	Alpha	Approved National Coding Competition-Hackathon (Team Division) winners (1,2,3 positions)	1000,750, 500	1000	2000	Mentor
11	Alpha	Approved International Coding Competition-Hackathon (Team Division) Participation	1000	1000	2000	Mentor
12	Alpha	Approved International Coding Competition-Hackathon (Team Division) winners (1,2,3positions)	5000,3000, 2000	5000	10000	Mentor
13	Alpha	Inside/ Regional SRU Academic Competitions/ Hackathons (Team Division) Participation	25	100	400	Mentor
14	Alpha	Inside/ Regional SRU Academic Competitions/ Hackathons (Team Division) Winners (1,2,3 positions)	100,90,80	200	800	Mentor
15	Alpha	Course Certifications	1/Hour, if >50=50	100	400	Mentor
17	Alpha	Industry Certification (Basic)	50	100	400	Mentor
18	Alpha	Industry Certification (Intermediate)	100	200	300	Mentor
19	Alpha	Industry Certification (Professional)	200	400	800	Mentor
20	Alpha	Internship (Virtual)	100	200	300	Mentor
21	Alpha	Internship (Physical)	200	400	800	Mentor
22	Alpha	Internship with stipend (in thousands)	100*no. Of thousands	---	--	Mentor
23	Alpha	Research Publication Patent /Scopus Conference / Book Chapter (Team Division)	100	1000	2000	Mentor

24	Alpha	Research Patent (Granted) Team Division	200	1000	2000	Mentor

3.17. Degree Award Requirements and Academic Honors

Eligibility for Award of Degree

The University recognizes academic excellence by awarding degrees and honors to students who meet the required criteria. These awards motivate students to maintain high academic standards and overall discipline.

A student is eligible for the award of a degree upon fulfilling the following conditions:

Minimum CGPA for UG: 6.00 or above.

Minimum CGPA for PG: 7.00 or above.

Completion of All Courses and Compliance of all academic rules and regulations.

Clearance of Dues: Payment of all fees with no pending disciplinary cases.

Academic Honors and Medals

The University shall award Gold Medals in all UG/ PG/ diploma Programs. The Gold Medal shall be awarded only to students who have successfully completed the respective programs of study and are merited for such an award as per the criteria laid below.

Chancellor's Gold Medal

Awarded to the best one UG student based on academic performance across all programs and branches in the University, provided there are a minimum number of students in the program. It will be based on the final CGPA of the student. The student should not have backlogs throughout the program and should not have any disciplinary case. Minimum eligibility for Chancellor's Gold Medal is 9.0 CGPA.

Vice-Chancellor's Medal

Awarded to the top-performing students in order of Gold Medal/Silver Medal/Bronze Medal in each program/branch of the university. The student should not have backlogs throughout the program and should not have any disciplinary case. Minimum eligibility for Vice-Chancellor's Medal is 8.5 CGPA.

Semester Topper Award

The Semester Topper Award is presented to the student with the highest performance in gamification points including academics in each semester. Minimum eligibility for Semester Topper Award is 8.0 CGPA.

Award Criteria- One topper per batch per program each semester.

Tie-Breaking Rules

Student Success Management points as per the SRAAP dashboard.

Highest number of A, B grades (in that order).

If still tied, the younger student (as per Date of Birth) will be awarded.

4. STUDENT CONDUCT, DISCIPLINE AND GRIEVANCE REDRESSAL

4.1. Student Code of Conduct

The University is committed to fostering a culture rooted in responsibility, inclusivity, and academic integrity. The university encourages students to embrace the freedom of learning while upholding ethical behaviour, mutual respect, and social accountability. The following Code of Conduct outlines the expected standards of behaviour for all students across academic, digital, and social domains.

Applicability of the Code

The code shall be applicable to all students admitted to the university and including any academic program, activity or event conducted by the university. It is the duty and responsibility of each student from the date of admission to get acquainted with all the rules and code of conduct. All students are required to strictly adhere to this code and this code would be binding on and enforceable on them.

Student Responsibilities

It shall be the responsibility of the student,

To produce Identity Card whenever asked by any official/staff of the university.

To foster and maintain a vibrant academic, intellectual, cultural and social atmosphere which is consistent with the objectives of the university.

To access all educational opportunities and benefits available at the university and make good use of them to prosper academically.

To respect the laws of the country, human rights and to always conduct in a responsible and dignified manner. To report any violation of this code to the functionaries of the university.

Student joining in any academic program of the university will have to give an undertaking to the effect that the student will comply with the provisions envisaged in this code in letter and spirit and even if it is not given, they will be bound by the provisions of this code.

General Conduct Expectations

Respect and Inclusivity: Students shall embrace diversity and uphold mutual respect, regardless of background, culture, or belief.

Personal Appearance and Behaviour: Maintain decency in attire and uphold decorum in all university spaces, both physical and digital.
Civic Responsibility: Always demonstrate courtesy and consideration toward faculty, staff, peers, and the campus community.
Social Media Use: Posting defamatory or inappropriate content, including reels or images against the university or its members, is prohibited and subject to disciplinary action.
Digital Citizenship: Students are expected to use university-provided digital platforms ethically and refrain from creating unauthorized groups or sharing misleading content.
SRU discourages the use of single-use plastics on campus to support environmental sustainability.

4.2. Academic Integrity and Ethical Conduct

Students must uphold the highest standards of honesty and responsibility in academic pursuits. Academic dishonesty undermines the core values of SRU and will not be tolerated.
All submissions, assessments, and research must be the student's own. Collaborative work is permitted only when explicitly authorized.
Plagiarism: Students must properly acknowledge all external ideas, images, data, and digital content, including content generated by AI tools.
Cheating and Fabrication: Use of unauthorized aids, impersonation, falsifying records, or tampering with academic documents is prohibited.
Respect for Evaluation Processes: Attempting to influence grading decisions or disrupting others' academic work is unethical and subject to penalty.

Discipline and Prohibited Conduct

Substance Abuse: SRU enforces a strict zero-tolerance policy toward alcohol, drugs, tobacco, and any other prohibited substances on campus.
Harassment and Discrimination: Any form of harassment—verbal, physical, emotional, sexual, or cyber is forbidden.
Possession of Weapons: Carrying weapons or dangerous items on campus is strictly prohibited.
Dress and Identification: Students are expected to wear formal attire on Monday and Tuesday or decent attire during academic hours and must always carry their university ID card.

Mobile Phone Policy

Permitted Use: Mobile phones must be used responsibly.
Prohibited Areas: Usage is banned in classrooms, laboratories, and examination halls.
Misuse: Use of mobile phones for recording or sharing unauthorized content may result in confiscation and disciplinary measures.
Banned Content: Accessing or distributing offensive, pornographic, or illegal material using university networks is punishable.

Disciplinary Measures and Consequences

Violations of the Code of Conduct may lead to one or more of the following.
Formal warning or reprimand.
Suspension from specific classes, hostels, or activities.
Cancellation of examinations or assignments.
Financial penalties.
Rustication or permanent expulsion.
Withdrawal of scholarships or other academic privileges.
All decisions will be made by the Disciplinary Committee based on the nature and gravity of the offense.

Research and Publication Ethics

Students engaged in research are expected to adhere to international standards of academic ethics.
Responsible Research: Ensure ethical treatment of human and animal subjects and responsible disposal of research materials.

Publishing Guidelines

Avoid duplicate submissions or simultaneous submissions to multiple journals.

Limit conference submissions to maximum three papers per event.

Do not list non-contributing authors or use non SRU affiliations without formal approval.

Fabrication of data or plagiarism in research is prohibited.

University reserves the right to amend the Code of Conduct periodically. All students are required to stay informed via official communication channels.

Security

The safety and security of the students on campus is of utmost priority to the university. Security guards are deployed round the clock across all the academic blocks, hostels, all exit points and key areas. These areas are also under 24x7 monitoring through CCTV cameras.

All the hostel students must not leave the campus without completing the out-pass process. The students entering the campus are physically frisked and their belongings are checked every time by the security guards to prevent carrying prohibited items into the hostels.

For any concerns contact Mr. K Venkateshwar Rao Contact No: 9618503127, k.v.venkateshwararao@sru.edu.in

4.4. Punishment Provisions in cases of Ragging

Any student or group of students found guilty of ragging on campus or off campus shall be liable to one or more of the following punishments:

Debarring from appearing in any mid exam/ university examination or withholding results.

Suspension from attending classes and academic privileges.

Withdrawing scholarships and other benefits.

Suspension from the college for a period of one month.

Cancellation of admission.

Debarring from representing the institution in any national or international meet, tournament, youth festival, etc.

Suspension/expulsion from the hostel.

Rustication from the institution for periods varying from 1 to 4 semesters or equivalent period.

Expulsion from the institution and consequent debarring from admission to any other institution.

Fine ranging between Rs. 25,000/- and Rupees 1 Lakh.

Imprisonment for a term which may extend to two years or with fine which may extend to ten thousand rupees or with both.

Collective punishment - When the students committing or abetting the crime of ragging are not identified, the institution shall resort to collective punishment as a deterrent to ensure community pressure on the potential raggers.

4.5. Prevention of Sexual Harassment (POSH) in Workplace

University is committed to providing a safe and respectful environment for all members of its academic community, including staff and students. This Sexual Harassment Policy aims to prevent and address any form of sexual harassment within the university setting. It applies to all staff, students, and visitors and reflects our commitment to fostering a culture of respect, dignity, and inclusivity.

Any student who experiences or witnesses sexual harassment is strongly encouraged to report the incident promptly to the appropriate authorities. Reporting can be done through multiple channels, including- Mentor, Head of the Department, Dean, and POSH Committee of the University.

Reports can be made verbally or in writing and will be treated with confidentiality. The university is committed to conducting a thorough, impartial, and timely investigation of all complaints of sexual harassment.

If an investigation confirms that sexual harassment has occurred, appropriate disciplinary action will be taken against the perpetrator, which may include but is not limited to, Counseling, Formal warning, Suspension or Expulsion, and Legal consequences.

University adheres to the POSH act of UGC, recognizing that sexual harassment is more prevalent among female staff and students, Regulation 3 (d) of the UGC POSH regulation mandates prompt action by Higher Educational University's in the wake of any such harassment, the full regulations are available at https://7203627_UGC_regulations-harassment.pdf, SRU students and its staff members must adhere to these practices as mentioned thereof.

The POSH Committee at SR University consists of Vice-Chancellor (Chairperson), two senior lady professors, Dean, Student Welfare, one woman faculty member from each department, and three girl students representing various academic levels.

4.6. Grievance Redressal Committee (GRC)

The University has constituted a Grievance Redressal Committee (GRC) to address student grievances, disciplinary concerns, and cases of misconduct in a fair and transparent manner.

Based on the nature and severity of the issue, the concerned case may be referred to the GRC for detailed enquiry and resolution. The Committee shall examine the matter, recommend appropriate

corrective or disciplinary action, and submit its report to the Chairperson of the GRC within the prescribed timeline, normally within one week from the date of enquiry.

Right to Appeal

Students aggrieved by any decision or disciplinary action taken by an authority subordinate to the Associate Dean (Student Welfare) may submit an appeal to the Dean (Student Welfare). Appeals against decisions of the Dean (Student Welfare) may be submitted to the Vice-Chancellor.

All appeals shall be submitted within two weeks from the date of communication of the decision, along with proper justification and supporting documents, if any. The decision of the Vice-Chancellor shall be final and binding.

5. CAREER DEVELOPMENT, INNOVATION AND ENTREPRENEURSHIP

5.1. Center for Student Services and Placements (CSSP)

The CSSP at University plays a pivotal role in shaping students' professional journeys. Dedicated to enhancing employability and bridging the gap between academia and industry, CSSP provides a holistic ecosystem that supports placement, career development, and skill building.

Key Services of CSSP

Placement Training

Monitors job opportunities and organizes campus recruitment drives for UG, PG, and PhD students.

Conducts structured career development programs that prepare students to thrive in the corporate world.

Skill Development Courses

Offers industry-aligned training modules to boost technical proficiency and soft skills.

Internship Opportunities

Partners with industries and startups to provide meaningful internship experiences, enabling students to gain hands-on exposure and build professional networks.

Portfolio Development

Assists students in curating professional portfolios that highlight their skills, certifications, projects, and achievements.

The CSSP team actively engages with top-tier companies across sectors, ensuring a streamlined recruitment process. With a focus on long-term career success, the center provides continuous training starting from the first year itself. The training covers communication skills, aptitude, reasoning, programming, and interview readiness. Summer boot camps, global certifications, coding contests, and hackathons are also part of the CSSP initiatives that build industry-ready talent. The Flowchart 5.1. provides an overview of Campus Placement and Career Services at SRU.

With consistent growth in placement numbers and salary packages, CSSP continues to set benchmarks in empowering students for successful careers.

For placement-related queries, contact Mr. Sunil Reddy at SRiX-1st Floor (Ph: 96765 61828) or Mr. D. Sridhar (Ph: 9000966994), email: stu.cssp@sru.edu.in.

5.2. SR Innovation Exchange (SRiX)

SRiX is a DST sponsored Technology Business Incubator. SRiX brings entrepreneurs, mentors, researchers, and academicians together to create an inspiring ecosystem to transform ideas into business entities. SRiX intends to be an active catalyst for the growth of the startup ecosystem and help Startups evolve & grow into mature businesses. It has State of Art Infrastructure consisting of,

Design & Rapid Prototyping facilities.

Conference Halls/ Meeting Rooms.

Video-conferencing facilities.

Air-conditioned Co-working spaces with Wi-Fi.

Support provided

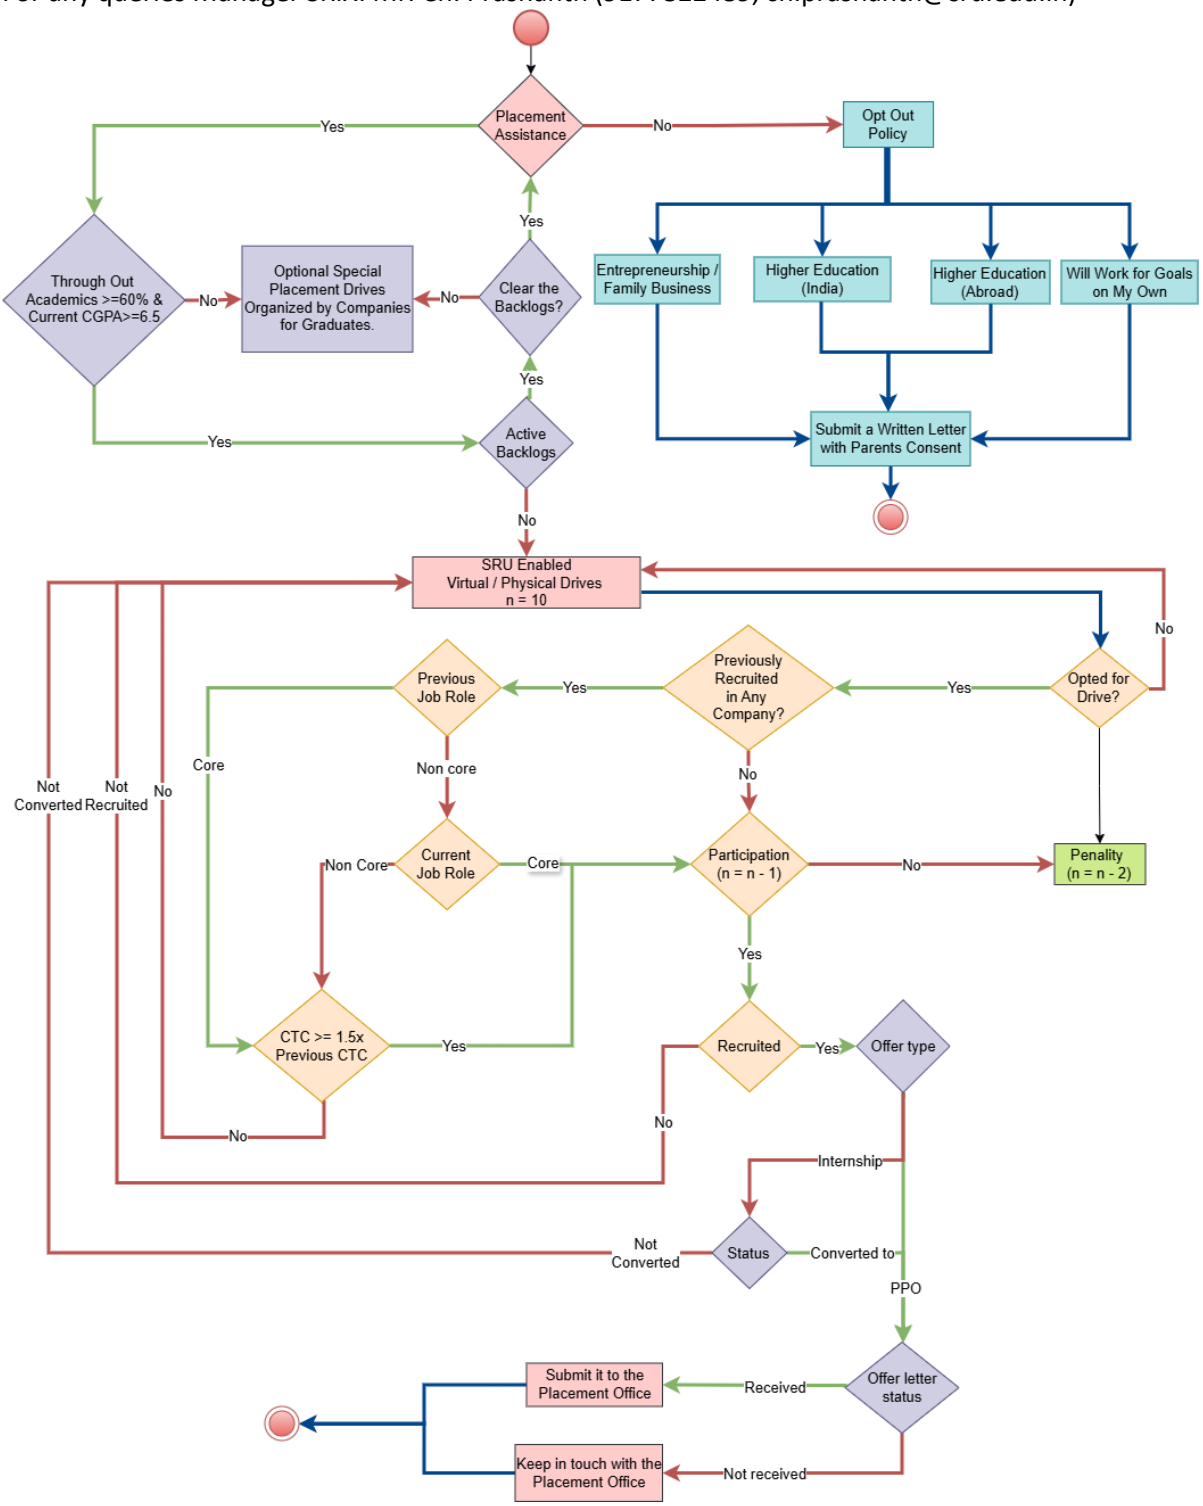

Idea Valuation/ Validation.

End-to-end product development support.

Incubation and Acceleration Support.

Mentoring Support: Branding, marketing, Go-to-market, Business Expansion, Technology, and

commercialization.
Legal Support: Company incorporation and documentation, Intellectual Property (IP), Patenting, and Regulatory Compliance.
Funding Support: Seed capital, Grants, Angel Investors, Venture Capitalists, investor connect.
Financial Services: Accounting, Filings, Valuations etc.
Connections & Networking: Mentors, investors, industry partners, Government,
Higher Education institutions connections.
Human Resources: Hiring of interns and fresh grad, team management, partners fit.
For any queries Manager SRiX: Mr. Ch. Prashanth (9177822489, ch.prashanth@sru.edu.in)

Flowchart 5.1. Overview of Campus Placement and Career Services

5.3. Nest for Entrepreneurship in Science and Technology

The Nest for Entrepreneurship in Science and Technology (NEST) serves as a vital component of the startup ecosystem, offering an incubation platform for aspiring students and faculty entrepreneurs. NEST actively fosters entrepreneurial spirit through a variety of initiatives, including specialized courses, interactive workshops, expert-led sessions, and student-driven programs.

Supported and guided by the Ministry of Education, the NEST Center also plays a key role in facilitating activities of the Institutions Innovation Council (IIC), promoting innovation and entrepreneurship across campus. The center is closely associated with incubation centers like SRiX and T-Hub. NEST empowers individuals to think creatively and develop practical solutions to real-world problems.

NEST Providesinfrastructure, mentoring support on technology and business, awareness about Business and Market strategies, Intellectual property (IP) and Legal advisory services, Seed funding for Innovation and startups, and Networking with venture capitalists/angel investors.

For any information please contact:

Dr. B. Girirajan (Dean, Innovation and Startups): 8525002366, girirajan.b@sru.edu.in

Dr. A. Chakradhar (Associate Dean, Innovation and Startups): 9908246759,chakradhar.a@sru.edu.in

6. ALUMNI RELATIONS

6.1. Alumni Connect

Alumni Affairs at **SR University** (formerly **S R Engineering College**) acts as the essential bridge between the institution and its graduates, nurturing a lifelong connection well beyond graduation. The office facilitates a variety of programs, services, and events that ensure our alumni remain actively connected and meaningfully engaged with the university community.

Alumni are encouraged to-

Participate in reunions and networking events;

Leverage career services and mentoring opportunities;

Contribute towards institutional growth through volunteerism and support.

Your relationship with SR University doesn't end with a degree—it evolves into a lifelong partnership. As you embark on your academic journey, know that the university is committed to celebrating your milestones, supporting your aspirations, and welcoming you into the dynamic and ever-growing SR University Alumni community.

Portal Registration Link: https://srualumni.in

The Department-wise Alumni Affairs Committee Members are given in the following table.

Name	Mobile Number	Email ID	Designation and Department
Dr. C. Madan Kumar	6281814067	dir.alumni@sru.edu.in	Director
Mr. Srikanth Yalabaka	95056 05467	srikanth.v@sru.edu.in	Associate Director

SR University Alumni Association – Office Bearers (2025–26)

The SRU Alumni Association plays a vital role in connecting past and present students, promoting collaboration and professional growth. The office bearers for 2025–26 is committed to strengthening alumni engagement and contributing to university development.

Office Bearers

President: Chintha Rajendra Prasad
Vice President: Md Mujahid Irfan
General Secretary: Garimella S.R.N. Jaya Bhargav
Joint Secretary: Yelabaka Srikanth
Treasurer: Kanegonda Ravi Chythanya
Executive Members: B. Anu, Gaddam Ashok, Kodem Sravan
The team will lead initiatives that enhance alumni involvement and campus contributions.

6.2. Alumni Services and Resources

As a valued member of our alumni community, you have access to a wide array of services and resources aimed at your personal and professional growth while maintaining your bond with SR University. These include:

Job Postings
Career Counselling
Alumni Events
Online Networking Platforms
Library Access
Continued Education Support
Connect with Mentors
Become a Mentor
Local and Regional Chapters
Chapter Events
Alumni Newsletters
Social Media Groups
Alumni Achievements
Nominate Outstanding Peers
Event Support
Serve on Advisory Boards
Facility Usage
Fundraising Collaboration
Institutional Support Initiatives

6.3. Alumni Chapters

University has actively taken steps to strengthen alumni engagement through the formation of city-based and international alumni chapters. These chapters aim to foster professional networking, mentorship, and collaborative initiatives among alumni across the globe.

Hyderabad Alumni Chapter – Established in 2024
Warangal Alumni Chapter – Established in 2024
Bengaluru Alumni Chapter – Launch in progress
USA Alumni Chapter – Formation underway

These chapters serve as local hubs for alumni to stay connected, contribute to the university's mission, and build a stronger SRU alumni identity.

7. SCHOOL OF AGRICULTURE – ACADEMIC REGULATIONS

7.1 Attendance and Examination Policies

Every student shall ordinarily attend all classes in a course. However, the minimum attendance in a prescribed course is 75%. The attendance shall be reckoned for theory and practical separately. A

student who fails to put in the minimum attendance either in theory or practical, his/her registration for that course shall be treated as cancelled.
The minimum attendance requirements can be relaxed up to 10% on medical grounds i.e., up to 65% for theory and practical separately.
As per ICAR Dean's committee recommendations 85% attendance is required for student READY programmes.

Evaluation and Results

Evaluation of students, examinations and grades

The evaluation of the student in a course shall be based on his/her performance in various kinds of examinations, records, class work and other types of exercises.
The detailed course outlines in each course shall be prepared by the teacher(s) concerned in consultation with the University Head of the Department/Head of the Department, which will be made available to the students during the first week of the semester. A schedule of the mid-semester examinations of the academic programme shall be prepared by the Dean and notified to the students at the beginning of each semester.
Answer scripts of mid-semester examinations are evaluated by the teacher shall be shown to the students. The students shall have the option to request the teacher for clarification of any doubts in scoring, provided that such clarification is requested for when the answer scripts are made available to them. This shall not apply forboth the final theory and practical examinations.

Mid-semester examinations

There shall be one mid-semester examination to be conducted by the teacher offering the course after 50% of the working days are over in a semester. The duration for the mid-semester examination shall be for one and half hours and the final theory examination shall be two and half hours.
The marks allotted for mid-semester and semester final theory examinations shall be 50 and 100, respectively. Ordinarily no condonation for absence of mid-semester examination shall be given. However, the mid semester examination to be conducted to the students who could not appear these examinations in view of their participation in the inter-University and National Sports, Literary and Cultural events etc., along with the students who genuinely prevented from taking examination in the case of serious illness or accident or any other case. This repeat examination shall be held within two weeks from the date of examinations so missed and shall be a common examination for all such students.
Unless a student appears for the mid-semester examination, he/she shall not be permitted to appear for the semester final theory and practical examinations in the course concerned. The special re-examination shall be conducted as per the time to be fixed by the Dean within two weeks from the last date of mid semester examinations. The weightage of marks allotted for mid semester and semester final theory examination shall be as per VDeans Committee recommendations.

Semester final examinations

The final examinations shall be held at the end of each semester in each course. The final examination in the theory portion shall be of two and half hour's duration. It shall be the responsibility of the University to conduct the theory portion of the final examination. Practical examinations shall be conducted by the respective colleges. The students shall be given two preparation holidays (including the public holiday) before the commencement of the semester final theory examinations.
Answer scripts of semester final theory examinations are evaluated through common spot valuation system year of study wise. On the last day of semester final examinations, the Dean shall send all the sealed answer scripts to the selected center where they are coded, before distribution for valuation. The duration of the spot valuation is 7 (seven) working days. Evaluation instructions are issued by the University from time to time for each semester.

Computation and award of courses grades

Marks for the practical shall be based on continuous evaluation of practical classes and a final practical examination which shall include a viva-voce examination. In respect of RAWE Programme/ In plant Training/Industrial Attachment/Hands on Training/Skill Development Training and ELP etc., the

criteria for evaluation of students as prescribed in manuals of respective programmes shall be followed.

Examination R23 Regulation

Courses with Theory and Practical

Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%) + External Theory (50%)

Courses with only Theory

Mid-term Exam (40%) + Assignment (10%) + External Theory (50%)

Courses with only Practical

100% Internal

Mid-term examination question paper is set by the course teacher(s) concerned and HOD shall ensure the coverage of the syllabus.

Semester Final Practical Examinations (Internal)

Shall be conducted by course instructor(s) and one teacher nominated by HOD.

Semester Final Theory Examinations (External)

The syllabus of the courses concerned shall be sent to at least two teachers at other State Universities with an agriculture faculty for each course who shall prepare the question paper (PartA:40and Part B : 60) in addition to the existing system of paper setting.

The Deans of the respective Faculty / COE shall choose two question papers which shall be moderated by the teachers as identified by the Deans/COE of the respective faculty and finally one of the question papers shall be chosen by Dean of the respective faculty/COE for the conduct of the semester final theory examination. Evaluation shall be done internally by the faculty other than the course Instructor in case of single campus colleges.

Weightage with various courses such as courses with theory and practical (1+1,2+1,3+1 and 1+2 etc.,) courses with theory only (1+0, 2+0 and 3+0 etc.,) and courses with practical only (0+1, 0+2, 0+3 and 0+4 etc.,) are approved as proposed.

Percentage of Marks obtained	Conversion into Points
100	10
90 to <100	9 to <10
80 to <90	8 to < 9
70 to <80	7 to < 8
60 to <70	6 to <7
50 to <60	5 to <6
< 50 (Fail)	< 5
E.g. 80.76	8.076

Academic status and scholastic deficiencies

A student shall get a minimum of 50% marks in both final theory and final practical examinations separately for a pass in the final examination of a course. If a student does not achieve this, he/she has to reappear for the final examination in theory/ practical or both as the case may be, when next conducted for such course(s).

A student obtaining a grade point of 5.0 shall be considered to have passed the course. A student getting less than 5.0 shall be deemed to have failed in the course and “F” shall be indicated in the grade point. A student who secures grade point below 5.0 or who secures less than 50% marks in semester final theory / practical examination of the course (or) was marked absent has to appear for either final theory or practical examination or both (as the case may be). A student may also have the option to write the mid-semester examination of the course in the same semester when he/she next takes the final examination (Theory/practical or both) of that course.

Whenever a student wants to take re-examination in any course(s) he/she should fill in the particulars in a prescribed application form duly paying the re-exam fee as prescribed by the University.

7.2. Promotion Policy

Promotion to second year: A candidate is automatically promoted to second year irrespective of the number of courses absent / failed in the first year.

Promotion to third year: A candidate should have passed all first-year courses compulsorily, without any backlogs including non-gradial/elective courses and should have registered and attended all the courses of 2nd year.

Promotion to fourth year: A candidate should have passed all the second-year courses compulsorily and should not have any backlogs including electives/non-gradial courses and should have registered and attended all the courses of 3rd year.

The non-gradial courses / Student Ready programmes and electives if any are considered on par with other courses for the purpose of promotion to the next year for the students.

Graduation requirements

The student shall satisfy minimum residential requirements and maximum duration as below. The minimum residential requirement is eight Semesters for UG Degree programmes in the university.

The maximum duration of degree programmes is fourteen semesters (7academic years).

Requirements for bachelor's degree

A student undergoing courses of study leading to award of bachelor's degree viz: B.Sc. (Hons.) Agriculture (Bachelor of Science (Hons.) in Agriculture), shall pass courses and complete the minimum number of credit hours prescribed thereby the Academic Council from time to time by obtaining a minimum Overall Grade Point Average (OGPA) of 5.000 on the 10-point scale. A student undergoing instructions in UG courses of study leading to the award of Bachelor of Science (Hons.) in Agriculture, shall have to complete satisfactorily the Student Ready Programmes as approved by Academic Council like, Rural Work Experience Programmes/In-Plant training/Industrial Attachment/Hands on training/Skill Development Training/Project Work/Experiential Learning Programme etc., as prescribed from time to time.

Classification of successful candidates

The successful candidates after completion of graduation requirements declaration of the division/class in the provisional degree certificate and degree certificate in the 10-point scale up to 3 decimal places shall be classified as under.

OGPA	DIVISION
5.000 – 5.999	PASS
6.000 – 6.999	II DIVISION
7.000 – 7.999	I DIVISION
8.000 and above	I DIVISION WITH DISTINCTION

(Classification shall be given in the transcripts as footnote).

GPA = Total points scored / Total credits (for 1 semester)

CGPA = ∑ Total points scored / Course credits

OGPA = ∑ Total points scored (after excluding failure points)/ Course credits

% of Marks = OGPA x 100/10

7.3. Multiple Entry and Exit Framework

This scheme is applicable for B.Sc. (Hons.) Agriculture 2024 admitted batch onwards.

There is provision of multiple entry and exit at different levels. The student(s) will have the option to exit after the 1st year. He/ she /ze must complete 10 weeks of internship (10 credits) after 1st year (2 semesters) to be eligible for award of UG-Certificate. The student has another option to exit after the 2nd year. The student must complete 10 weeks of internship (10 credits) after 2nd year (4 semesters) to be eligible for award of UG-Diploma.

After four years of study, the student will be awarded a UG degree in concerned discipline. No exit after 3 years (6 semesters) is recommended considering the professional nature of the courses.

The lateral entry at 3rd semester will be for the candidates having UG-certificate or those who have completed Diploma (3 years course after 10th) in recognized HAEIs. The lateral entry in 5th semester will be for candidates who have completed UG-Diploma.

Exit Options

There will be three exits during the restructured UG programme.

Exit after 1st year: A student may opt to exit after the 1st year of UG programme. However, he/ she/ze has to complete 10 weeks of internship (10 credits) to be eligible for being awarded UG Certificate degree. (The students going to the higher level need not take 10 weeks internship at this stage.)

Exit after 2nd year: A student may opt to exit after the 2nd year of UG programme. However, he/ she/ze has to complete 10 weeks of internship (10 credits) to be eligible for being awarded UG Certificate degree. (The students going to the higher level need not take 10 weeks internship at this stage.)

Exit after 4-years programme leading to B.Sc. (Hons.)/ B.F.Sc. (Hons.)/ B. Tech. degree.

Provision of lateral entry for Diploma holders from recognized institutions

Candidates having a Diploma from polytechnics (after completion of 3 years course after 10th in related disciplines) will be entitled to take admission in the 2nd year (3rd semester) program. The HAEI may admit students either by holding its own admission test or use merit as criteria for by following any of the existing norms of the University/HAEI.

Migration from one University to another

The UG-Certificate/ UG-Diploma passed candidate from HAEI will be eligible for admission into any agricultural university/institution in the country at an appropriate level, provided the admitting university has provision of seats to admit them.

It is recommended to make institutional migration after the 4thsemester more convenient. HAEIs are at liberty to put in place rules/ regulations relaxing/ modifying existing provisions of migration, providing more freedom and ease to students. The migration shall be subject to availability of seats at the accepting HAEI.

Provided further, any such rule/ regulation that is notified by UGC regarding changes in admission criteria, migration, etc., these notifications will be considered/ examined by ICAR and re-notified to make them applicable to agricultural education falling under its domain.

Online courses

The students will take a minimum of 12 credits of online courses during four years as a partial requirement for the B.Sc. (Hons.) Agriculture program. The online courses can be from any field such as Agriculture and Allied Sciences, Basic Sciences, Humanities, Psychology, Anthropology, Economics, Business Management, Languages including foreign language, Communication skills/ Music, etc. and can be taken from NPTEL, Mook IT, edX, Coursera, SWAYAM or any other such reputed portal.

Examination and Evaluation system

There will be a uniform system of evaluation and grading to be followed with Grade point average (GPA) system. The following pattern of examination is recommended.

Evaluation system R24 Regulation:

	External theory	**Internal theory (Mid-term)**	**Quiz/ progressive assessment**	**Final Practical**
For courses having both theory and practical components (1+1,2+1,3+1and 1+2 etc.,)	40%	20%	20%	20%
For courses with theory only (1+0, 2+0 and 3+0 etc.,)	50%	30%	20%	-
Courses with practical only (0+1, 0+2, 0+3 and 0+4 etc.,)	-	30%	20%	50% (Internal)

Note: The external theory examinations should be for 2 to 2.5 hours duration, and the mid-term examinations should be normally for 1 hour duration.

7.4. M.Sc. Agriculture Regulations

Eligibility for admission

Bachelor's degree in respective/related subjects.

For admission into master's courses, the candidates must have secured a minimum OGPA of 5.50/10.00 or 50% marks in traditional system in the qualifying examination.

Credit requirements

The total requirement of credits for master's in agriculture is 70.

Breakup of credits

Course work	
Major course	20 credits
Minor course	08 credits
Supporting course	06 credits
Common course	05 credits
Seminar	01 credits
Thesis Research	30 credits
Total	**70** credits

Major courses: From the Discipline in which a student takes admission. Among the listed courses, the core courses compulsorily to be taken may be given *mark.

Minor courses: From subjects closely related to a student's major subject.

Supporting courses: The subject not related to the major subject. It could be any subject considered relevant for student's research work (such as Statistical Methods, Design of Experiments, etc.) or necessary for building his/her overall competence.

Common Courses: The following courses (one credit each) will be offered to all students undergoing a master's degree programme.

Library and Information Services.

Technical Writing and Communications Skills.

Intellectual Property and its management in Agriculture.

Basic Concepts in Laboratory Techniques.

Agricultural Research, Research Ethics and Rural Development Programmes.

Mandatory requirement of seminars

It has been agreed to have mandatory seminars one in Masters (One Credit)

The students should be encouraged to make presentations on the latest developments and literature in research topics. This will provide training for the students on preparation for seminars, organizing the work, and critical analysis of data and presentation skills.

Online learning resources

A PG student may take up to a maximum of 20% credits in a semester through online learning resources.

Permissible Workload

Students of masters can register a maximum of 22 credits per semester including non-credit courses, seminars and research. However, research credits registered per semester should not exceed 20 credits.

Attendance requirement

A student who fails to secure 80 per cent of attendance in each course separately for theory and practical, shall not be permitted to appear for the final examination in that course and shall be awarded 'E' (incomplete) and will be required to repeat the course when offered with juniors.

Residential requirements

The minimum and maximum duration of residential requirement for Masters' Degree.

PG Degree	**Duration of Residential Requirements**	
	Minimum	Maximum
Master's degree	2 Academic Years (4 Semester)	5 Academic Years (10 Semester)

In case a student fails to complete the degree programme within the maximum duration of residential requirement, his/ her admission shall stand cancelled. The requirement shall be treated as satisfactory

in the cases in which a student submits his/her thesis any time during the 4th semester of his/her resident-ship at the University for Masters' programme, respectively.

Evaluation of course work

For M.Sc., multiple levels of evaluation (Midterm and Final semester) are desirable. However, it has been felt that the comprehensive examination is redundant for M.Sc. students.

A post-graduate student getting a grade less than 6.00/10.00 in any course will be deemed to have failed in that course and that he/she should secure a better grade with 6.00 and above (applicable for candidates admitted from 2002-03 onwards. However, he/she may not be required to study that course by repetition, but he/she may appear for all tests and examinations including the final semester examination in that course when conducted next according to the regular schedule in the department concerned. However, all the examinations in the failed core course be conducted even though the said course is not offered in the next semester.

Advisory System

Advisory Committee

There shall be an Advisory Committee for every student consisting of not fewer than three members in the case of a candidate for a Masters' degree.

The Advisory Committee should have representatives from the major and minor fields amongst the members of the post-graduate faculty with two years of experience.

The Advisor should convene a meeting of the Advisory Committee at least once in a Semester. The summary record should be communicated to the Head of Department, Dean of the School, Dean academics and Registrar for information.

Preparation and Submission of Synopsis

The synopsis of research work in PG form shall be submitted to the school for approval by the end of 2nd semester.

Prevention of plagiarism

An institutional mechanism should be in place to check the plagiarism. The students must be made aware that manipulation of the data/ plagiarism is punishable with serious consequences.

Submission of Thesis

The research credits registered in the last semester of post graduate programs should be evaluated only at the time of the submission of thesis (before sending the thesis to the external examiner) by the advisory committee. Students can submit the thesis at the end of the final semester.

Evaluation of Thesis

The thesis submitted in partial fulfillment of a master's degree shall be evaluated by an external examiner nominated by the Dean of the School.

Academic Status and Scholastic Probation

In order to pass, a PG (M.Sc.) student shall secure a minimum GPA of 6.50 /10.00 at the end of first semester and a minimum OGPA of 6.50/10.00 during subsequent semesters.

A PG student who secured GPA/OGPA between 6.00 and 6.49 in a particular semester, shall be placed on Scholastic probation during the subsequent semester. If a post graduate student who is on scholastic probation during a semester again fails to secure the minimum OGPA of 6.50 (required for pass), the Dean of the School may decide whether to allow the student to continue scholastic probation for the second time or to withdraw the student from the University. PG students whose GPA / OGPA is less than 6.50 / 10.00 may be permitted to appear for re-examination in such courses in which the grade is less than 6.50 so as to enable them to improve the GPA/ OGPA to 6.50/10.00 or above.

If a post graduate student fails to secure a minimum G.P.A. of 6.00 /10.00 at the end of I semester or OGPA 6.00/10.00 during subsequent semesters, his/her admission shall stand cancelled, and the student is deemed to have been withdrawn from the University.

Eligibility for Degree

The student of master's degree programme shall be eligible for the award of degree after he/she Successfully completes the course requirements with a minimum OGPA of 6.5 or above and

Completes final oral (Thesis) examination satisfactorily. Candidates who secure OGPA of 8.00 and above shall be placed in First Class and others who secure an OGPA of 6.50 and above but less than 8.00 shall be classified under Second Class.

8. PhD REGULATIONS

Introduction

The PhD Regulations provided below will govern the conditions for admission, registration, coursework, conduct of the examinations and evaluation of scholars' performance leading to the award of PhD Degree. These Regulations are effective for the batches of scholars admitted from the academic year 2026-27 onwards.

Chairman, Academic Council of SRU may change any or all parts of these regulations at any time.

Category of PhD Scholars

Full-time Scholar: All scholars who pursue full-time research in SRU are classified as Full-time Scholars.

Part-time Scholar: All scholars who are working in organizations including colleges, universities, industries, institutions and who are sponsored for pursuing PhD program while continuing their jobs are Part-time Scholars. Non-working candidates are also eligible to apply for part-time PhD.

A **No Objection Certificate** should be submitted to pursue the part-time PhD program from the appropriate authority in the organization where the candidate is employed, clearly stating that,

The candidate is permitted to pursue studies on a part-time basis.

Official duties permit the candidate to devote sufficient time to research.

If required, the candidate will be relieved of the duty to complete the course work and other statutory requirements.

Conversion of category

Full-time to part-time Scholar: A full-time scholar may be allowed by Dean PhD to convert his registration into part-time registration at the request of the scholar and recommendation of the SRC.

Part-time to full-time Scholar: If a part-time PhD scholar applies for conversion of registration into full-time, Dean PhD, on the recommendation of SRC, may allow the scholar on the merits of each case. It will also require approval of Pro VC.

8.1. PhD Assistantship

At SRU we provide attractive and competitive PhD Assistantship for a full-time scholar, which will enable them to peruse research as below.

Every full-time scholar is eligible to receive a PhD Assistantship of Rs.40, 000 per month.

In case the scholar chooses to take hostel facility then the full-time scholar will be given a PhD Assistantship of 25,000 per month. Such scholars will have accommodation facilities on campus along with three meals a day, snacks, and laundry facility without any additional cost.

Scholarship Policy for Scholars Receiving Government Funding: If a scholar is selected for government funding such as JRF, SRF, Special Stipend, or a Scholarship, the SRU scholarship will be suspended during this period. If the sanctioned government stipend/scholarship is less than the SRU stipend, SRU will provide the remaining amount as a top-up stipend. If the government stipend/scholarship ends before the completion of three years of the PhD, the SRU stipend will resume to ensure financial support.

PhD Assistantship is valid for a period of three years from the date of admission registration. This includes any period of extra ordinary leave, break, assistantship withheld period due to unsatisfactory report, assistantship withheld due to any disciplinary issue or low student feedback, medical or maternity leave.

In certain exceptional cases, six months extension may be provided twice only on the recommendation of SRC, Dean PhD and the Vice Chancellor in that order.

For all full-time scholars the first three months' PhD Assistantship will be on hold as security deposit, and it will be released after completion of PhD Degree. However, there are two other options that are provided for scholar's convenience as follows.

Scholars can pay three months of the PhD Assistantship as security deposit in advance to get eligibility for receiving PhD Assistantship from the date of admission/registration.
50% amount of the PhD Assistantship will be kept on hold for the duration of six months from the date of admission/registration.
Scholar after transfer to part-time option will not be eligible to obtain PhD Assistantship and his security deposit will be nullified and will not be refunded.
PhD Assistantship cannot be claimed as a matter of right. The following criteria apply to all full-time scholars/scholars awarded PhD Assistantship.
They should provide 8 hours/week of teaching assignment from the date of registration. It can be put on hold/stopped in case the scholar in not maintaining punctuality in attending to the duties assigned by the department/supervisor and/or showing below par performance in teaching or PhD work.
They should score feedback of 4 or more than 4 out of 5 from students in teaching. If a scholar fails to score this feedback, the PhD Assistantship will be on hold and will be reviewed as per the discretion of Vice-Chancellor/Pro VC.
They Should show satisfactory performance in course work, comprehensive Viva, research plan presentation, and Semester Progress monitoring as applicable.
They shall handle at least 1-2 capstone projects for the final year batches of their respective departments. They are expected to be brand ambassadors for the university.
On the 25thof every month, the scholar must submit the PhD Assistantship claim form in the SRUNIV/SRAAP web portal. Failure to do so will lead to non-payment of stipend, and the scholar can only reapply in the subsequent month alongside the respective claim.
The university reserves the right to cancel the PhD Assistantship at any point of time for any valid reason on the recommendations of SRC. If the registration of a scholar is cancelled due to any reason, scholars should reapply after fulfilling the required norms as per regulations. Security deposits will be forfeited in case of cancellation of PhD due to performance/disciplinary issues.

8.2. Eligibility Criteria

Eligibility to pursue a PhD is defined by regulatory bodies (UGC and State Govt.) and are updated as per the norms. The following are eligible to seek admission to the PhD program.
Candidates who have completed-
A 1-year/2-semester(Or more) master's degree program after a 4-year/8-semester bachelor's degree program or a 2-year/4-semester master's degree program after a 3-year bachelor's degree program or qualifications declared equivalent to the master's degree by the corresponding statutory regulatory body, with at least 55% marks in aggregate or its equivalent grade in a point scale wherever grading system is followed or Equivalent qualification from a foreign educational institution accredited by an assessment and accreditation agency which is approved, recognized or authorized by an authority, established or incorporated under a law in its home country or any other statutory authority in that country to assess, accredit or assure quality and standards of the educational institution.
A 4-year/8-semester bachelor's degree program should have a minimum of 75% marks in aggregate or its equivalent grade on a point scale wherever the grading system is followed.
Candidates who have completed the M.Phil. program with at least 55% marks in aggregate or its equivalent grade in a point scale wherever grading system is followed or equivalent qualification from a foreign educational institution accredited by an assessment and accreditation agency which is approved, recognized or authorized by an authority, established or incorporated under a law in its home country or any other statutory authority in that country to assess, accredit or assure quality and standards of educational institutions, shall be eligible for admission to the PhD program.
To promote interdisciplinary candidates with UG/PG from any branch, any branch/specialization may be admitted in any other branch/specialization.
A relaxation of 5% marks or its equivalent grade may be allowed for those belonging to SC/ST/OBC (non-creamy layer)/ Differently abled, Economically Weaker Section (EWS) and other categories of candidates as per the decision of the Commission from time to time.

A member of the academic/ non-academic staff of SRU who satisfies the above eligibility qualifications may be considered for admission to the PhD degree as a Part-time scholar provided, they have been given administrative clearance by the Registrar/Vice-Chancellor.
Full-time project JRFs/SRFs, joining and working in SRU in funded R&D projects,
may be admitted for PhD program, subject to the following:
They should satisfy the above eligibility qualifications and entrance exam requirements.
They shall be interviewed by both (i) DRC (ii) and the JRF selection committee. (iii) In the final selection, priority will be given to the candidates who qualify for both PhD and JRF.
Such candidates should be funded through the project grant. In case the project gets over, before completion of the PhD degree, the scholars shall be treated as Full-Time PhD scholars and governed by PhD Assistantship rules so applicable to Full-time scholars.

8.3. Selection Procedure

TheselectionprocedureatSRUconsistsofthefollowing(availableonSRUwebsite)**.**

Submission of application form

All interested candidates shall fill in the online application form available at SRU website along with application fee. The candidates who meet the eligibility criteria will be called for SRU eligibility test and/or interview.

SRU eligibility test

Candidates who have qualified in UGC-NET/UGC- CSIR NET/GATE/CEED/SET and similar National level tests are exempted from SRU eligibility test.
All other candidates are required to appear for SRU eligibility test conducted at SRU. (Note: Entrance exam syllabus shall consist of 50% aptitude and reasoning, and 50% shall be subject-specific. The test will consist of 50 questions of 2 marks each. 25 questions from aptitude and reasoning and 25 from subject specific syllabus. The syllabi are available at https://sru.edu.in/schools/PhD)

Interview Process

The interview for the candidates will be conducted by the Department Selection Committee (DSC) which consists, Head of the Department or Dean of the School (as applicable) as Chairman, All Professors and Associate Professors with PhD from the department/School as members, and other members invited by the Head/Dean considering their expertise.
One member will be nominated by Dean PhD with approval from Vice-Chancellor.
The candidates are required to discuss their research interest/areas through a presentation before the DSC. The interview should also consider the following aspects.
The candidate possesses competence for the proposed research.
The research work can be suitably undertaken at the University/School/ Workplace.
The proposed area of research can contribute to new/additional knowledge.
The final selection will be made based on the following points.
70 % weightage for the SRU eligibility test/other qualifying tests
30 % weightage for interview and research proposal presentation and
Number of seats in each subject/discipline as announced on the website.
The Dean/Head of the department will forward the list of the selected candidates, rejected candidates, waitlisted candidates, candidates not called for test/interview due to non-eligibility or incomplete application along with their applications to the Dean (PhD).
The Dean (PhD) will seek the approval of the Vice-Chancellor for declaration of the results. The list of the selected candidates will be notified by email and on the University website.

8.4. Admission and Registration

The selected candidates will be admitted to the PhD program after payment of the prescribed fee and submission of the following certificates (in original) for verification.
No Objection Certificate for the part-time scholars from the applicant's organization.
SSC / Matriculation or equivalent certificate.
UG Marks and Degree certificate
PG Marks, Degree, or Provisional Certificate as applicable.

UGC-NET/ UGC- CSIR NET/GATE/CEED/CPAT etc. valid scores, if applicable.
Passport size photographs (4 No.)
Aadhar Card

Transfer Candidates

In the case of transfer of candidates from other universities- Candidates who seek admission to SRU from other universities will be admitted to the PhD program after payment of transfer fee, along with the semester fee. A committee consisting of Dean/Head of respective School, Associate Dean PhD, Dean PhD will evaluate the transfer documents and submit a report to Vice-Chancellor for approval.
The Department Research Committee (DRC) will advise about relaxation of the following if applicable after submission of required supporting documents.
Relaxation of course works in lieu of courses done in the previous university, if any.
Relaxation of Maximum time to complete the PhD at SRU, if any.
Relaxation of Number of minimum publications required to submit the thesis at SRU, if any.

Registration

All scholars admitted to the PhD program will be required to register every semester till the submission of the thesis. Minimum of six semester registration must be done, and fee has to be paid. The renewal of registration every semester shall be subject to payment of registration fees, completion of specified number of courses and/ or satisfactory progress of research work recommended by SRC. Scholars can register late up to 15 days with different stages of late fee as prescribed.
A scholar who fails to register as per specified schedule will cease to be a PhD scholar with immediate effect.

Break and Withdrawal from PhD

In case a scholar wishes to take a break from the PhD program for a semester or more, they may do so with prior permission of the Vice-Chancellor through SRC.
The application for break must be endorsed by the SRC. The period of the break will be counted when calculating the total duration of the PhD program.
A scholar may be permitted to withdraw by the Dean PhD from all/some the courses registered or the entire semester, on genuine/medical grounds supported by a suitable/medical document/certificate from the University Medical Officer/ registered Medical Practitioner. Withdrawal from Semester/PhD may also be granted by the Dean PhD provided the scholar cannot pursue their studies for the reasons beyond control. In all such cases scholars will not get any refund of the fee for that semester/period. Semester withdrawal will count towards the maximum limit of PhD period.

Cancellation of registration

A scholar's registration may be cancelled under one or more of the following circumstances, subject to Vice-Chancellor approval.
Unauthorized Absence – Absent for two consecutive days without prior intimation or approved leave.
Withdrawal from the Program – Voluntarily withdraws from the PhD program with SRC recommendation.
Failure to Renew Registration – Does not renew semester registration, as required by regulations.
Non-Reporting to Supervisor – Fails to report to the supervisor on time despite formal reminders.
Comprehensive Examination Failure – Does not clear the comprehensive exam within the stipulated timeframe.
Research Plan Failure - Does not clear the research plan within the stipulated timeframe.
Unsatisfactory Semester Progress – Semester progress is deemed unsatisfactory, as per regulations.
Low CGPA – CGPA falls below 8.00 during coursework and remains below the threshold despite an additional opportunity.
Failure to Submit Research Documents – Does not submit the research plan, synopsis, or thesis within the prescribed or extended period.
Regulatory Violations or Misconduct – The SRC recommends registration revocation due to regulatory breaches, professional misconduct, unethical behaviour, or unlawful activities.

Duration of the Program

The duration of the PhD program starts from the date of admission to the date of PhD viva.

The PhD Program should be for a minimum duration of three years and a maximum duration of six years including course work period.

Extension of maximum of two years (in chunks of six months) can be given based on the recommendation of the SRC, however, the total period for completion of a PhD program should not exceed eight years. An extension fee will apply for all such cases.

Female PhD scholars and persons with Disabilities (having more than 40% disability) may be allowed an additional relaxation of two years; however, the total duration for completion of the PhD program in such cases should not exceed ten years.

Scholars seeking extension should submit the Proforma for 'Application for extension for submission of thesis along with the fee for the extended period.

Leave policy

Scholars should be available all the time and adhere to the academic schedule outlined for the PhD program in the academic calendar, including working days, holidays, and other important dates for registration, fee payment and submission etc.

Scholars are eligible to avail leave as below which may be amended from time to time by the Academic Council:

Eight casual leaves (CL) and six sick leaves (SL) for every academic year.

Scholars will be entitled to avail one week summer vacation. It cannot be taken in chunks. It has to be the full week from Monday to Saturday.

The leave may be subject to the approval of the Head of Department concerned.

Female PhD Scholars may be provided Maternity Leave/Childcare Leave for up to 240 days in the entire duration of the PhD program without PhD Assistantship. This period will be counted in the maximum time required for PhD. Special Leave may be granted to attend Seminars/Conferences in India/abroad to present research papers, with the permission of Head of the department.

Change of supervisor

Change of supervisor is only permitted in exceptional circumstances with recommendation of Chairman, SRC and approval of School Dean by paying a fee. The supervisor should have slots available and should give consent to take the candidate. If the change of supervisor is made by the Dept/School due to any reasons, then no supervisor change fee will be charged.

Admission of International students in the PhD Program

Each supervisor can guide up to two international candidates on a supernumerary basis over and above the permitted number of PhD candidates.

SRU will decide its own selection procedure for PhD admission of international students keeping in view the norms in this regard issued by regulatory bodies.

Clustering of PhD Students

SRU promotes clustering of 2 to 4 PhD students preferably, under same supervisor in the same area so that they can collaborate and produce better outcomes. However, they will still be required to their individual point requirements.

Faculty Supervisor Leaving SRU

In case any supervisor leaves before submission of thesis, a new supervisor will be allocated by SRU. Any exception has to be approved by VC.

8.5. Research Committees

Department Research Committee (DRC)

Composition of DRC

All Professor of the department, two Associate Professors from the department (to be rotated every year), two Assistant Professors from the department (to be rotated every year).

Function of DRC

DRC will oversee the PhD works in the respective department and the Scholar Research Committee (SRC) assigned to each scholar for monitoring/mentoring the PhD work and progression. DRC is also

responsible for maintaining the highest standards of quality and ethics in the research being done in the department. DRC should meet at least once in a semester.

Scholar Research Committee (SRC)

Composition of SRC

Chairman SRC- Professor/ Associate Professor from the concerned school/ department, Supervisor(s) and two expert(s) in the allied areas of research from the school/ SRU; it is desirable that one of these experts is from the school/ department and another one from outside the school/department.

Functions of SRC

To review the research proposal and finalize the topic of research.

To guide the PhD scholar in developing the study, design, and methodology of research and identify the courses that they may have to take.

To support scholars in pursuing research in the right direction.

To provide any support needed for the scholar to complete their research work.

Each semester, a PhD scholar shall appear before the SRC to make a presentation of the progress period for further guidance. Assistant Dean, Research shall submit the recommendations of SRC of all PhD scholars in the department along with a copy of PhD scholar's progress report to Dean PhD office. A copy of such a recommendation shall also be provided to the PhD scholar.

To evaluate whether candidate has done requisite work to submit synopsis.

To summarize the reports of the thesis adjudicators.

8.6. Course Work

The Credit requirement for the PhD course work is a minimum of 12 credits, including a research methodology course of 4 credits that includes "Research and Publication Ethics". The SRC may also recommend UGC recognized online courses as part of the credit requirements for the PhD program. The calendar of evaluation, registration, assessment and exams of the course work are given in the University academic calendar.

Scholars who are admitted into the PhD program directly after B. Tech are required to complete an additional 12 credits of coursework recommended by SRC.

Full-time PhD scholars will also be assigned 8 hours per week of teaching load for conducting tutorial or laboratory work and evaluations.

A PhD scholar must obtain a minimum of 60% marks in each course and a minimum CGPA of 8.0 on a 10-point scale in the overall course work to be eligible to continue in the PhD program and be eligible for the comprehensive exam. If any scholar obtains less than 8 CGPA in course work, they must redo course work partially or fully by re-registering the course(s) by making an additional fee as per the policy.

The maximum duration to complete the course work is two semesters. If a scholar fails to complete the course work within the stipulated time, the scholar can take the extension for completing the course work after the payment of the extension fee. The maximum period cannot be more than two years after two extensions.

8.7. Comprehensive Examination

All scholars shall take a comprehensive examination after completing the course work. The comprehensive examination shall be in the form of an oral examination. The comprehensive examination shall be conducted by a panel of examiners which consists of,

The members of the SRC.

Two experts on related areas of the work from SRU to be nominated by Dean PhD. One should be from the School/Dept and one from outside the School/Dept.

The Assistant Dean PhD of relevant department shall inform the scholar one month in advance of the scope of the examination and other relevant details through 'Notification for Comprehensive Examination Form'.

If the performance of the scholar in the comprehensive examination is satisfactory, the registration to PhD scholar shall be confirmed.

If the performance is unsatisfactory, one more opportunity shall be given to appear for the comprehensive examination within 45 days of the first attempt by paying a repeat of comprehensive examination fee.
In case the scholar fails to successfully complete the comprehensive examination in the second attempt, scholar's registration shall be canceled from the PhD Program.
A scholar should have cleared all fees before appearing for the comprehensive examination.

8.8. Research Plan Presentation and Progression

After clearing up the Comprehensive Examination, a notification will be sent for research plan presentation, and the scholar must present their Research Plan to the SRC. SRC shall advise scholars to finalize the research plan.
After the Satisfactory evaluation from SRC, Scholar can continue with the PhD research as per the approved plan. In case the scholar gets unsatisfactory, then scholar will get another chance to present the Research plan to SRC within 45 days of the previous SRC by paying an additional fee. In case the research plan is not finalized in the repeat of SRC, the candidature of the scholar may be cancelled.
Soon after the submission of the research plan, the minutes of the meeting shall be made by the SRC/Supervisor, Assistant Dean, Research should upload the approved research plan on SRUniv portal.
It is mandatory for the scholar to meet the following criteria to start their PhD research work and continue their PhD program.
Complete the course work with a minimum CGPA of 8.0.
Satisfactorily pass the comprehensive examination.
Submit a research plan approved by SRC.
In research plan presentation scholars need to finalize the objectives of PhD work. Ideally there will be three objectives. It cannot be less than 2 and more than 4.
The title of the research work should be finalized. For changing the title later, scholar has to pay the prescribed fee and get approval from the SRC.

Progression

Monthly Progress

Scholars must submit the work done every month in the SRUNIV web portal (https://www.sruniv.com/) for the supervisor to evaluate, rate and provide remarks on the progress of their research work. Supervisors should also submit monthly progress report of each candidate.

Semester Progress

All scholars shall appear before the SRC in person/online once in six months to make a presentation of the progress of their research work for evaluation and further guidance.
All faculty and other PhD scholars should be invited to attend the Scholar semester progress meeting.
Any scholar who fails to attend the SRC semester progress meeting will be permitted to take a second chance to appear within 45 days after payment of SRC semester progress re-conducting fee.
In case the progress of the scholar is unsatisfactory, the SRC shall record the reasons for the same and suggest corrective measures. If the scholar fails to implement these corrective measures, the SRC may recommend to the respective Dean of School specific reasons for the cancellation of the registration of the scholar.
A scholar whose semester progress report is unsatisfactory should pay a fee to re- appear for the SRC semester progress meeting within 45 days. In case the scholar is absent on the day of the presentation; then the scholar can also get another chance to appear before SRC by paying an additional fee. During the intervening period of unsatisfactory progress, the PhD assistantship may be kept on hold. In case the scholar again gets an unsatisfactory report during the repeat of SRC meeting, then the candidature of the scholar will be cancelled.
On duty will be provided to a full-time scholar for undertaking fieldwork/ data collection/ survey/ any other research work that is mandatory for the research work with the permission of the supervisor, Dean PhD and School Dean.

8.9. Synopsis

Synopsis submission has to be coincide with one of the semester progress meetings of the candidate. A scholar is eligible to submit the synopsis in the prescribed format if they fulfill the following criteria:

Research work Completion

Ensure all objectives align with the approved plan.
Each objective is satisfactorily completed.
70% of the theses is written.

January 2026 Admission batch-B11

For Engineering, CSE and Basic Sciences minimum point requirement is 12 points and remaining dept 8 points.

S. No	Publication types	Credits
1	SCI/SSCI/AHCI: Top 10 percentile	12
2	SCI/SSCI/AHCI/ABDC A Q1	8
3	SCI/SSCI/AHCI Q2, Q3, Q4	4
4	Scopus/ ABDC BDC Journal	1
5	Scopus Book Chapter	1 (For First 2) Subsequently 0.5
6	Scopus Conference Paper	1 (For First 4) Subsequently: 0.5
7	Patent Published (Utility -SRU as 1st Applicant)	1 (For First 2) Subsequently 0.5
8	Patent Granted (Utility -SRU as 1st Applicant)	04 (For First 1) Subsequently 2
At least one Journal paper should be there out of all the items being claimed for total points.		

July 2024 to July 2025 [July-2024(B08) to July-2025(B10)]

PhD Thesis Submission Minimum Requirements (Candidate Need to have 12 points in Total). Applicable for Engineering, CSE, Basic Sciences. Older batches can choose old or new scheme

S. No	Publication types	Credits
1	SCI/SSCI/AHCI/ABDC A Q1 Subscription Based or (Open Access with IF>4)	8
2	SCI/SSCI/AHCI/ABDC A Q1 Open Access or with(Open Access Option of Hybrid Journals with IF<4)	4
3	SCI/SSCI/AHCI Q2, Q3, Q4 Subscription Based or (Open Access with IF>4)	4
4	SCI/SSCI/AHCI Q2, Q3, Q4 Open Access or with (Open Access of Hybrid Journals or Open Access with IF<4)	2
5	Scopus/ ABDC BDC Journal	1
6	Scopus Book Chapter: 01 Point (For First Two),	1
7	Subsequent Scopus Book Chapter	0.5
8	Scopus Conference Paper: 01 Point (For First Four),	1
9	Subsequent Scopus Conference Paper	0.5
10	Patent Published: (For First two)	1
11	Subsequent Patent Published	0.5
12	Patent Granted	4

13	Subsequent Patent Granted	2
Out of the overall marks being claimed at least one of the entry should be a SCI Journal paper.		

08-points Publication Criteria for Batches from July 2020 to January 2024 (Batch-01 to Batch-07), for all five schools.

S. No	Publication types	Credits
1	SCI/SSCI/AHCI/ABDC A Q1 Subscription Based	8
2	SCI/SSCI/AHCI/ABDC A Q1 Open Access or with Access Option of Hybrid Journals	4
	Subsequent SCI/SSCI/AHCI/ABDC A Q1 Open Access or with Access Option of Hybrid Journals	2
3	SCI/SSCI/AHCI Q2, Q3, Q4 Subscription Based	4
4	SCI/SSCI/AHCI Q2, Q3, Q4 Open Access or with Open Access of Hybrid Journals (first two)	2
5	Subsequent SCI/SSCI/AHCI Q2, Q3, Q4 Open Access or with Open Access of Hybrid Journals (first two)	1
6	Scopus/ ABDC BDC Journal	1
7	Scopus Book Chapter: 01 Point (For First Two)	1
8	Subsequent Scopus Book Chapter	0.5
9	Scopus Conference Paper: 01 Point (For First Four),	1
10	Subsequent Scopus Conference Paper	0.5
11	Patent Published: (For First two)	1
12	Subsequent Patent Published	0.5
13	Patent Granted	4
14	Subsequent Patent Granted	2
Out of the overall marks being claimed at least one of the entry should be a Journal paper. For students of Basic Sciences and Core Engineering batches it should be 12 points in total and one SCI is must.		

Author sequence and Affiliation criteria

The first author should be the PhD scholar, followed by the supervisor(s), with any additional collaborators listed thereafter. These publications should have been published and archived at the time of submission of thesis. The publication should have affiliation of university mentioned as “SR University, Warangal, Telangana -506371”. Part-time scholars can have their institute as second affiliation if necessary.

Once the criteria are met, a synopsis presentation notification is issued along with the semester progress meeting, allowing faculty members and scholars to provide feedback for incorporation into the synopsis and thesis under the SRC guidance.

The synopsis should have been subjected to plagiarism check by SRU-recommended software (Turnitin) adhering to the plagiarism policy of SRU.

In case the synopsis presentation outcome is unsatisfactory then the scholar can again appear within 45 days for synopsis presentation by paying an additional fee. In the repeat case if the scholar again gets an unsatisfactory report, then the candidature of the scholar may be cancelled.

8.10. Thesis Submission Policy

A scholar is eligible to submit the thesis if they fulfill the following criteria:

Scholar had completed the synopsis successfully.

Scholar had published required research publications.

Scholars had paid all the fees in full, including the thesis fee and viva fee.

The scholar shall, within 45 days of submission of the synopsis, prepare the thesis in accordance with the guidelines and format. The thesis report shall be in an organized and scholarly fashion, highlighting

the original contribution made in the research work of the scholar with a focus on the scientific contribution the work has made. The novelty of the work should be substantiated clearly through literature review and research gap identification.
The Supervisor shall forward the thesis to the Dean PhD along with a list of at least 12 names as examiners for adjudication (external) of the PhD thesis for the viva voce examination. These experts should have good publication records (Preferably SCIE/SSCI Q1 publications), and research credentials related to the topic of the thesis. The List of publications of such proposed examiners should be attached for consideration.
Thesis submission cannot be delayed under any circumstances. However, in special cases, a three-month extension may be granted with SRC approval, requiring the scholar to pay a delayed submission fee, subject to their guide's adjudication.
The thesis must be submitted after completing at least 2.5 years within the program, with the required fee (minimum six semesters) and before reaching the program's maximum duration.
Scholars who are in the extension period need to pay an additional thesis submission fee along with the regular thesis fee.
While submitting for evaluation, the thesis shall have an undertaking from the scholar and a certificate from the supervisor attesting to the originality of the work, vouching that there is no plagiarism after testing the thesis with a Plagiarism software recommended by SRU and that the work has not been submitted for the award of any other degree/diploma at SRU where the work was carried out, or to any other Institution in the prescribed format.
Scholars shall submit the thesis by official email to the supervisor and supervisor should submit it to Dean PhD by official email.

Thesis Adjudication

The PhD thesis submitted by a scholar shall be evaluated by the supervisor(s) and external examiners.
The supervisor makes a list of Examiner,
by following criteria:
At least 2 out of Telangana
At least 2 of each gender
At least 2 from Foreign with Q1 SCIE/SSCI subscription Journal publication
At least 2 from Industry preferably with Q1 SCIE/SSCI subscription Journal publication
At least 2 from Professor rank with Q1 SCIE/SSCI subscription Journal publication
At least 5 Internal Examiners with Q1 SCIE/SSCI subscription Journal publication
At least 3 Observers from SRU with Q1 SCIE/SSCI subscription Journal publication
Supervisor(s)
For Civil, EEE, ECE, ME, CSE, Mathematics, Physics, Chemistry, Biology Adjudicators must have at least 5 SCIE-indexed publications (including a minimum of 2 SCIE Q1 journals), or, alternatively, a total of 50 Scopus-indexed publications. For English, Humanities, Social Sciences, Agriculture, Management, Business Adjudicators must have at least 5 SCIE/Scopus-indexed publications. Avoid repetition of names used for other scholars, Names should be from the similar research area as of the Thesis research area.
From the list of 12 examiners submitted by the supervisor, the Vice-Chancellor shall nominate the two external examiners and two additional examiners for backup. VC will also nominate two internal examiners one supervisor. The Vice-Chancellor, as deemed necessary, may also nominate examiners from outside the panel.
The Dean PhD shall take such steps as deemed necessary to enable the reports of the examiners to be received as quickly as possible and keep a record of the communication with examiners with dates. All communication should be done from the official email address of the institution.
In the event of an undue delay in receiving the report from the examiner, Dean, Research shall refer the thesis to the additional examiner selected by the Vice-Chancellor after waiting for the due period.
The examiner shall include in the report an overall assessment placing the thesis in one of the following /categories:

Recommended for the award of the degree of Doctor of Philosophy.
Recommended that the scholar does minor revisions in the thesis as suggested in the report, and the revised thesis is referred to the Supervisor for verification.
Recommended that the scholar does major revision in the thesis as suggested in the report, and the revised thesis is sent to the examiner for revaluation.
Not recommended.
The examiner shall enclose a report of 500-1000 words covering all chapters as per format.
On receipt of the reports from the examiners, the following procedure shall be followed:
The meeting of SRC should be convened and SRC should write a consolidated report giving the essence of all reviews by evaluators.
If all the examiners recommend the award of the degree, the thesis shall be provisionally accepted. Any minor revision, modification, etc., suggested by the examiners shall be carried out before the oral examination.
If any examiner recommends major revision of the thesis, the scholar shall be permitted to revise and resubmit the thesis within 3 months with the approval of the SRC. The revised thesis shall be referred to the same examiner.
If one external examiner recommends the award of the degree while the other recommends rejection, then the thesis shall be referred to a third examiner to be nominated by the Vice-Chancellor. If the third examiner recommends the award, the thesis shall be provisionally accepted after performing all necessary corrections that may be provided by the examiner. Otherwise, the thesis shall be rejected, and the registration of the scholar cancelled.
If both the external examiners recommend rejection, the thesis shall be rejected, and the registration of the scholar be cancelled.
Individual cases not covered by the above regulations shall be referred to the Vice-Chancellor for the final decision.
In the case of any dispute or extra ordinary situation arising in the process of evaluation, the Vice-Chancellor shall refer the thesis and the comments to a committee constituted for this purpose with internal and/or external members as deemed necessary for the situation.

8.11. Thesis Defense Examination

The public viva-voce of the scholar to defend the thesis shall be conducted by a board of examiners constituted by the Vice-Chancellor only if the evaluation reports of the external examiner on the thesis are satisfactory. Viva-voce may be conducted online.
The public viva-voce examination board shall include:
The examiner of the thesis: If the examiner of the thesis is not available, a member from the approved panel of examiners.
SRC members of the scholar.
One observer will be nominated by Vice-Chancellor.
The Public viva-voce examination shall be conducted as an “Open defense type” examination in which all faculty and PhD scholars are invited.
University shall ensure that the entire process of evaluation of the PhD thesis is completed within a period of six to nine months from the date of submission of the thesis.

Publication of Thesis

After the public viva voce examination, the scholar shall submit a copy of the final thesis as per defined template for online storage duly certified by the supervisor that all the corrections have been duly carried out as suggested by the examiners, if any, for SRU archives. Physical Copies of the Thesis may be submitted to the library and/or supervisor for records.
SRU shall submit an electronic copy of the PhD thesis to the INFLIBNET /**Shodhganga**/ Institutional Electronic Archive for hosting the same to make it accessible to all Institutions / Colleges.

Research Ethics, Anti-Plagiarism, IPR and Code of Conduct policies

For ensuring ethics, all scholars of PhD should adhere to the research work as per the research ethics policy, Anti-plagiarism policy, IPR policy, and code of conduct policy of the university (Annexure -I).

Provisional Certificate

Prior to the actual award of the PhD degree, SRU shall issue a provisional certificate to the effect that the PhD is being awarded in accordance with the provisions of these Regulations.

8.12. Award of PhD Degree

If the performance of the scholar in the public viva-voce examination is satisfactory, candidate will be awarded PhD degree in the Convocation on the recommendation of the Academic Council with the approval of the Board of Management of SRU and submission of "No dues certificate".

If the performance of the scholar in the public viva-voce examination as reported by the public viva-voce examination board is unsatisfactory, the scholar may opt to reappear for the public viva-voce examination at a later date (not later than six months from the date of the first public viva-voce examination) by paying a re-exam fee. On the second occasion, the public viva-voce examination board shall include one examiner nominated by the Vice-Chancellor. If the performance of the scholar in the public viva-voce examination on the second occasion also is reported to be unsatisfactory, the Vice-Chancellor, if deemed necessary, shall refer to the remarks of the public viva-voce examination board, along with the thesis and comments of the examiners, to a committee constituted by the Vice-Chancellor for this purpose and decide. The decision of the Vice-Chancellor shall be final.

Escalation Matrix

For PhD Scholars the first point of contact for any academic/research queries is Supervisor. The first point of contact for any operational/procedural issues is Assistant Dean PhD of the Department/School.

1st Escalation: If the Scholar is not satisfied with the Supervisor/Assistant Dean PhD and wants to escalate or reach out to the next level; then they should write/meet Head/ Dean of the concerned unit.

2nd level Escalation: Dean, Research in case the scholar is not satisfied with the level 2 escalation response.

The last level of escalation is Vice-Chancellor.

Scholars should wait for at least one week for resolution of their queries/or response to their email/concern before going to the next escalation level.

Officers at all escalation levels have the responsibility to keep the communication professional and try their best to cater to the request/issues of the PhD Scholar.

ANNEXURE-I

I. RESEARCH ETHICS

SRU's Research Ethics Policy mandates trustworthiness and transparency in all research findings. All campuses utilize premium anti-plagiarism software, Turnitin/iThenticate. Researchers must adhere to UGC guidelines regarding plagiarism regulations and sanctions (refer to www.plagiarism.org for information on plagiarism and its consequences). SRU strongly discourages plagiarism in any form. Furthermore, the institution provides researchers with access to international state-of-the-art digital databases to ensure research quality and the uniqueness of research questions and hypotheses. Necessary statistical analysis software is also provided to ensure data robustness and reliable results. All research students are required to maintain a detailed research notebook documenting daily research activities. Each student stores their data in an immutable network folder, regularly examined and evaluated by the research guide. Intentional destruction or deletion of notebook or electronic folder information may result in disciplinary action. Similarly, any researcher found manipulating data will face severe consequences, including potential termination.

Human Trials-Based Research and Other Related Policies

SRU permits research involving human trials, and researchers must be aware of relevant Indian regulations, including The Drugs and Cosmetics Act of 1940, the Medical Council of India Act of 1956, and the Central Council for Indian Medicine Act of 1970. Initiating a clinical trial in India necessitates the following:

- Approval from the DCGI (Drugs Controller General of India).
- Ethics Committee Approval in each country where the study is conducted.
- Registration on the ICMR (Indian Council of Medical Research) website if the study involves cross-border participation.

Researchers should note the ICMR's evolving ethical guidelines: the 1980 Policy Statement on Ethical Considerations in Human Subjects Research, the 2000 Ethical Guidelines for Biomedical Research on Human Subjects (revised in 2006), and the recent ICMR Ethical Guidelines for Biomedical and Health Research involving Human Participants. For clinical trials, the Central Drugs Standard Control Organization (CDSCO) published the Indian Good Clinical Practice Guidelines (2001) in 2005 and amended the Drugs and Cosmetics Rules in 2013. Guidelines for Stem Cell Research and Therapy were initially published in 2007 by the ICMR and the Department of Biotechnology (DBT). SRU and its researchers are required to follow all ethical guidelines provided in the most current ICMR Ethical Guidelines for Biomedical and Health Research involving Human Participants when conducting such research.

Research Result Storage and Data Archiving

Early identification of responsibilities for data and sample archiving and destruction, along with establishing appropriate methods, is crucial in all research. SRU researchers must prioritize meticulous data processing. Research partnership agreements should include terms outlining necessary research arrangements. Researchers must maintain detailed and accurate records of all procedures, permissions, data collected, and conclusions drawn. This ensures a sound research approach and facilitates responses to inquiries about the study's methodology and results. Properly maintained notebooks can serve as evidence for intellectual property claims. Data should be stored to allow for comprehensive retrospective audits. Backup plans and secure data storage are essential. Original files and images must be backed up, especially when modifying existing data or photos for quality improvement. When editing data or photographs, both the original and modified versions should be retained. Avoid simplifying or manipulating images. Confidentiality is particularly important when financial advantages are possible. A reliable system for storing and retrieving research data is critical. Primary research data must be protected to ensure its continued usability. Researchers must obtain permission from the Registrar via the department head before removing any data. The need to preserve data sources persists after publication. All raw data should be recorded and stored in numbered, permanently bound laboratory notebooks or a dedicated electronic notebook. A cross-index should be the primary record, with all supplementary materials (such as surveys, chart

recordings, autoradiographs, and machine outputs) stored in separate ring binders or folders. Data should be recorded in notebooks as soon as practically possible after collection, uniquely identified by the date of record and/or collection. Supervisors should regularly check and "sign off" on researchers' notebooks to ensure comprehensive data documentation. Regular backups of computer data should be made and stored securely yet accessibly, such as on a disc. When feasible, a hard copy of important information should be created. Copies of necessary software, especially the version used for electronic data processing, must be kept with the raw data.

Confidentiality in Research and Consultancy

Principal Investigators and other researchers may handle proprietary or restricted data, materials, software, or technology from sponsors or other entities during their work. Sponsors or third parties (e.g., firms or government bodies) may require researchers to sign a Non-Disclosure Agreement (NDA), Confidential Disclosure Agreement (CDA), Proprietary Information Agreement (PIA), or Confidentiality Agreement. Recipients of confidential technical information (such as proprietary technology, trade secrets, or source code) are responsible for complying with export regulations. An export license may be necessary if the data is to be sent outside India or shared with a foreign national; SRU researchers are advised to verify this well in advance of such activities. It is important to note that export-regulated technology does not include non-technical information with disclosure restrictions, such as sensitive financial information, company information, clinical trial/human subjects' data, or demographic information.

Various university agreements between SRU and sponsors or third parties may include confidentiality clauses. Examples include purchases and loans of hardware and software, intellectual property licensing, data sharing, and material transfer agreements. SRU's R&D Cell will be involved in these institutional agreements and will negotiate terms aligned with university principles. The R&D Cell has the sole authority to sign on behalf of SRU and bind the university to the terms of any negotiated institutional agreements. Individual researchers may be asked to sign such agreements by sponsors or third parties in connection with clinical trials or potential joint research efforts where all parties have a vested interest. In these cases, the NDA is between the individual and the sponsor or third party. To avoid associating the signature with SRU, the researcher must sign as an individual. Individual researchers intending to sign on their own behalf should seek guidance from the Office of the Dean (Research and Ranking), as sponsor or third-party NDAs often contain terms that conflict with SRU research policy.

Collaborations and Funded Research

Collaboration with External Research Peers

To maximize research output and societal impact through complementary resources, SRU actively encourages collaboration with peers. Institutions within India and from other countries can collaborate. Any collaboration conducted through a department or school must have clear parameters defined in an MOU and/or research collaboration agreement. Scholars can utilize existing Memoranda of Understanding (MoUs) or propose new ones to facilitate their research. Scholars are free to conduct research at multiple institutions that promote teamwork.

Funded Research

SRU's research endeavors are supported by grants and contracts from external funding agencies, including state, national, and international governments, as well as industry collaborations, consultancy projects, shared consultancy projects, and joint ventures between institutional groups. Research funding is significant as it is peer-reviewed and competitive, indicating the quality of faculty research. Scholars are advised to apply for research funding in collaboration with their supervisors and external researchers.

Openness in Research

The institute recognizes researchers' responsibility to protect their academic and intellectual property rights (IPR) but encourages them to make their work as accessible as possible to colleagues and the public. Research findings should not be disseminated solely for the promotion of the researcher, the institution, or the sponsor. After publication, the author is responsible for making the underlying data

and materials available to other researchers who contact the institute. However, the use of this information and materials, as well as the Intellectual Property Rights associated with any publications, must comply with all applicable ethical clearances and consents. Guidelines for accessing the institute via public transportation are detailed elsewhere. Publication of research findings may be delayed for a reasonable period due to intellectual property concerns. Publication delays exceeding three months should be avoided. Researchers should exercise caution when publicly sharing preliminary or unpublished findings or work that has not undergone peer review. Avoid using email to communicate details about pending patent applications. When available, researchers must adhere to the standards set by the institute's sponsoring scientific, scholarly, and other relevant professional organizations. Every researcher at SRU should be particularly mindful of health and safety standards and data protection regulations during all research-related activities.

II. Plagiarism and Abating Plagiarism

Plagiarism Policy

Research excellence in the areas of Science and Technology, the Humanities, and Social Responsibilities is a goal at university. We demonstrate our dedication to interdisciplinary study by continuing to conduct both applied and fundamental studies of lasting significance. By adhering to the strictest scholarly norms, University encourages study across all its primary and interdisciplinary fields. Data recording, analysis, and utilization are emphasized. Students at University are encouraged to engage in critical thinking. Advancing scientific understanding for future generations requires going beyond what is taught in schools and what is published in academic journals. The institution's philosophy is predicated on the idea that creating research methods to expand knowledge and developing the full person is essential to fostering a culture of research. SRU will take necessary steps to adapt the best practices and protocols to promote research integrity among its students through all measures.

The University acknowledges that the free exchange of ideas is essential to academic endeavours, as it is often only through discussion with others that one can completely process information or crystallize an elusive concept. Consequently, students are commonly motivated to engage in dialogues with their teachers and peers regarding their courses, research, and even homework. These types of discussions and debates represent, in some respects, the essence of academic life. Nonetheless, it is essential for all academics to explicitly acknowledge when they have relied on or incorporated the work of others.

Plagiarism definition

According to SR University, plagiarism is "to offer work or ideas from another source as one's own, with or without authorization of the source author(s), directly by verbatim copying or by usage of any AI software" (i.e., with or without permission from the original author). In certain cases, authorization might be provided for the usage of other sources through written permission may not be considered as plagiarism.

Self-plagiarism, a form of plagiarism, can also be committed by reusing one's own work which is published in a source without proper citation to that source. It is considered plagiarism in educational content to use someone else's idea or phrase without properly attributing the source of the work. It makes no difference if the source is an accomplished writer, another pupil, a web page without distinguished authorship, a website that sells research papers, or anyone else as well, whether done knowingly or unintentionally, claiming credit for someone else's work is considered as a form of academic theft and is despicable in all educational environments.

An act of "plagiarism" is any use of words or concepts from another writer without giving proper credit to them. Plagiarism is the unacknowledged use of another author's words, ideas, or structure in one's own work, whether those words, ideas, or structure are published or not.

Misrepresentation: Research and publications are misunderstood; there has been fabrication and distortion of research material published in book chapters, journals, and conference proceedings.

Redundant submission: Not getting permission from your teacher before submitting work that has been submitted in whole or in significant part for another class or course that is already used for academic purposes.

Forms of plagiarism

Verbatim: Quotations must be marked with quotation marks or indentation and fully cited. The reader must know which parts are your own and which are borrowed.

Cut and paste: This type is defined when a person copies and paste the content from sources including internet, the list of sources must include references to Internet-derived information. Since Internet content is less likely to have been peer-reviewed, it should be carefully assessed.

Paraphrasing: Without proper citation, replicating someone else's work by altering a few words and rearranging the sequence in which they appear or by closely following the framework of their argument to develop another related content.

Collusion: This can include things like working together on a project without permission, failing to properly credit third-party assistance, or failing to adhere to guidelines for working in groups. You should know exactly how much teamwork is allowed and what responsibilities fall solely on one's shoulders.

Inaccurate citation: Always use the standard format for citations in the area, one works in. Author should cite the sources not only at the end of the paper (in a bibliography), but also within the text itself (in a footnote). Also, one should not include books, articles, or websites in the bibliography or references that you did not consult.

Failure to acknowledge assistance: One should provide proper credit to any source who helped you while creating your work, whether they are classmates, lab assistants, or anyone else.

Auto-plagiarism (Identical submission): One must not develop or submit an assessment related work that is already submitted either in partial or full, for a course or for any other qualification, from this university or other, electronically, or manually.

Academic Integrity Committee (AIC)

SR University will have its own Academic Integrity Committee, made up of the following members.

Chairperson – Dean (Research and Ranking)

Vice-chairman - Dean (Faculty Affairs)

Member – One Professor

Member – One Professor/ Associate Professor

Advocate member – One faculty well versed with the concept of plagiarism, identification methods, and interpretation.

Two years shall be the term of office for all members of the Committee. Three of the five members (including the Chairperson) constitute a quorum for meetings.

Role and Responsibilities of the Academic Integrity Committee

The AIC shall act as a single point of contact for any issues related to academic integrity.

The AIC shall also investigate cases of plagiarism and other ethical issues that may arise with reference to the policies of SRU.

AIC shall have the power to review any of the recommendations provided by department committees.

The AIC shall duly investigate and prepare a detailed report with due recommendations on penalties imposed and submit it to Vice-chancellor within a period of 30 days from the date of filing of complaint/ proceedings. A copy of which may also be maintained with AIC.

School Academic Integrity Committee (SAIC)

There shall be a School Academic Integrity Committee (SAIC) with the composition as,

Chairperson – Department Head/Dean

Member – A senior academician recommended by Dean Research from another department.

Department member- Professor by rotation of one year.

Advocate member – One staff who is well versed with the concept of plagiarism, identification methods and interpretation.

Each member's term will last for one year. Two members (including the Chairperson) are needed to hold a meeting.

Role and Responsibilities of the School Academic Integrity Committee (SAIC)

When making its determination on the plagiarism claim against the student, instructor, researcher, or staff member, the SAIC shall adhere to the principles of natural justice.

The SAIC shall have the full power to verify any integrity issues in the department and recommend penalties.

The AIC shall duly investigate and prepare a detailed report with due recommendations on penalties imposed and submit it to AIC within a period of 30 days from the date of filing of complaint/ proceedings. A copy of which may also be maintained with SAIC.

The policy's applicability is not limited to graduate and doctorate degree; it might be expanded to cover bachelor's and even associate degrees as well.

Plagiarism Identification and Repercussion

Plagiarism is a serious academic offense, and SRU strongly advises its scholars to avoid it. Scholars submitting academic documents must carefully evaluate their content to prevent any form of plagiarism. All academic documents submitted by scholars during their studies, including theses, research papers, conference papers, and related materials, will be checked for plagiarism.

Procedure for Plagiarism Check for Masters/ PhD Thesis

Scholars who meet the University's PhD thesis submission requirements are eligible to submit. The Scholar and Supervisor should declare that the material is their original work and plagiarism-free, as per PhD requirements. SRU strongly discourage plagiarised content submission in any form.

Supervisor may also verify that there is no copyright violation in the document.

Supervisor of the scholar should verify that there is no plagiarism in the document and recommend it to the research office.

Submission of the thesis in the final version is the responsibility of the supervisor.

Once the file is submitted, the research office will verify the same using standard plagiarism software (Turnitin/ iThenticate) and inform the supervisor with the outcome and level of similarity present.

Dean (Research and Ranking) shall evaluate the report and act as follows.

In the case of Level 0, the thesis will be passed on as per the regulations.

In the case of Level 1, the scholar/ student will be asked to revise and resubmit within 30 days.

In the case of Level 2 and 3 – Necessary action will be taken and will recommend penalty as per regulations and UGC norms.

Procedure for Plagiarism Check (Articles and book chapters)

Any author who wishes to submit the paper can submit the pdf version of the final paper to the research office for plagiarism verification. It may be a conference paper/ book chapter/ book content/ journal article or an unfinished manuscript.

The research office will be in charge for the verification of plagiarism and integrity issues, if any.

Research office will then be responsible for checking the document and will report the author/ scholar/ student with the report within the stipulated time (2 days).

The above-mentioned process is not applicable for thesis and dissertation submissions for which the supervisor is responsible.

Penalties

Only after all possible appeals have been exhausted and the individual in question has been given enough time to defend himself or herself in a fair or transparent manner may disciplinary measures be taken against an individual enrolled in a master's or Research program, or a researcher, staff member, or staff member of the University, for academic misconduct. Any benefit of the doubt should be issued in favour of the student/scholar/ staff.

Suggested penalties for integrity issues

Academic Integrity Committee (AIC) shall impose a penalty considering the severity of the Plagiarism.

Level 0: Similarities up to 10% - Single source plagiarism, if less than 1% no penalty.

Level 1: Similarities above 10% to 20% - Scholar/ student will be asked to revise and resubmit within 30 days, S/he will be provided with only one chance to revise.
Level 2: Similarities above 20% - Punishment as per the regulations will be initiated, and the student/scholar will be barred for one year from submitting any document for academic purposes. Such a student/scholar may also be asked to forgo registration of the program.
Penalty on repeated offense: Such a student will face the consequences for the next level of plagiarism committed. In the event of severe plagiarism, the corresponding penalties must be enforced.
Penalty in the case where the degree/credit has already been obtained: If plagiarism is reported and prima facie shown after the degree (Masters/PhD) or credit (in appraisal) has been issued, the University will invalidate the degree or credit. The degree/award will be put on hold until the beneficiary can explain the reported misbehaviour.
The AIC recommends and the Vice-Chancellor approves the action as mentioned below.
The thesis will be withdrawn from all the repositories it was submitted.
A show cause notice will be issued to the scholar and the supervisor.
Disciplinary action may be initiated against the supervisor within the rules of the university.
If the student does not cooperate, employer, if any will be contacted and informed about the outcome of the action duly.
University is entitled to cancel the degree/award/credit given for the course as per the ordinances.
Penalties in Case of Plagiarism in Academic and Research Publications
Level 0: Similarities up to 10% - The author may be asked to revise, but no penalty, single-source plagiarism should be less than 1%.
Level 1: Similarities above 10% to 20%- Paper should be withdrawn immediately.
Level 2: Similarities above 20% - Paper should be withdrawn immediately, one annual increment will be cut, and not allowed to supervise any candidate for a period of two years.
Penalty on repeated plagiarism - Such an author will face the consequences for the next level of plagiarism committed. In the event of severe plagiarism, the corresponding penalties must be enforced.
Failure to acknowledge technical assistance
Every author must explicitly acknowledge any assistance that contributed to the creation of their work, including advice from classmates, laboratory technicians, and other external sources. This need not apply to the help provided by your instructor or supervisor, or to standard proofreading, but it is necessary to acknowledge other guidance that results in substantial content or approach changes. No penalty is given for this violation, but the author may be asked to provide acknowledgment duly when an issue rises. SRU strongly urge its faculties and scholars to acknowledge all sources and support they received.
Use of content created by professional agencies or other individuals
The authors are strongly discouraged from using professional/paid support and should neither use expert agencies in the production of their work nor submit material that has been written for them, even with the author's permission. It is essential to your intellectual training and development that you conduct independent investigations. This kind of violation if found guilty will be punishable equivalent to Level 3 similarity.
Exceptional Reference
In all other cases not covered by the above-mentioned regulations, the matter shall be referred to the Vice-chancellor for consideration.
The above rules and regulations are applicable w.e.f. 2023-24 academic year.
Penalties in case of PhD Thesis
A PhD Program student at the University may face disciplinary action for academic misconduct only after all available appeals have been exhausted and the student has been given adequate time for a fair and transparent defense. The student, scholar, or supervisor should always be given the benefit of the doubt.

The Academic Integrity Committee (AIC), formed to adjudicate plagiarism and integrity issues, will determine penalties based on the severity of the plagiarism.

Level 0: Thesis will be passed according to regulations.

Level 1: Scholar/student will be asked to revise and resubmit within 30 days.

Level 2 and 3: Necessary action will be taken, and penalties will be recommended as per regulations and UGC norms.

If a thesis is found to be plagiarized after submission, the AIC recommends, and the Vice-Chancellor approves the following actions:

The thesis will be withdrawn from all repositories where it was submitted.

A show-cause notice will be issued to the scholar and the supervisor.

Disciplinary action may be initiated against the supervisor according to university rules.

If the student does not cooperate, their employer (if any) will be contacted and informed of the outcome.

The University is entitled to cancel the degree/award/credit given for the course as per regulations.

Grievance Mechanism

Scholars with grievances can follow the mechanism below for resolution. The primary contact for all scholars is their supervisor, who will address queries and provide solutions. If the scholar is not satisfied with the resolution, they can contact the Head of the Department, who will attempt to resolve the grievance. If further resolution is needed, scholars can follow the guidelines in Table A.1.

Table A.1. Grievance Mechanism

Process	Time Frame
Initial grievance addressed by Supervisor	Immediate
Escalation to Head of Department (if needed)	7 days
Further escalation as per university rules	Varies

SRU will make every effort to handle grievances confidentially and with utmost care, ensuring proper resolution within the stipulated timeframe. While efforts are sincere, some grievances may take longer than indicated in the flowchart. Scholars are requested to note this possibility.

III. Code of Conduct

SRU scholars are expected to uphold the highest standards of professionalism, integrity, and ethical conduct throughout their course of study. This Code of Conduct outlines the expected behavior and responsibilities of all scholars, serving as a guide for maintaining a positive academic environment and fostering mutual respect among colleagues, students, and the broader community.

Professionalism and Integrity: Scholars are expected to demonstrate professionalism and integrity in all aspects of their work. This includes:

Treating all individuals with respect, fairness, and dignity, regardless of their background, race, gender, religion, or sexual orientation.

Adhering to academic standards and maintaining the integrity of research, teaching, and scholarly activities.

Maintaining confidentiality and protecting the privacy of students, colleagues, and university information.

Avoiding conflicts of interest and disclosing any potential conflicts that may arise in their professional roles.

Complying with all applicable laws, regulations, and university policies.

Teaching and Mentoring: Every full-time scholar should undertake teaching tasks of 8 hours per week as per university regulations. Scholars have a responsibility to provide quality education, guidance, and mentorship to their students. This includes:

Creating a supportive and inclusive learning environment that fosters intellectual growth, critical thinking, and academic excellence.

Demonstrating fairness and impartiality in conducting examinations and evaluating student performance and providing constructive feedback.

Encouraging open and respectful dialogue, promoting diverse perspectives, and cultivating an atmosphere conducive to learning.
Guiding and mentoring students in their academic and professional development, offering guidance and support as needed.
Research and Scholarly Activities: Scholars are expected to engage in research and scholarly activities that contribute to the advancement of knowledge. This includes:
Conducting research with integrity, honesty, and transparency, adhering to ethical guidelines and best practices in their respective disciplines.
Publishing research findings in reputable journals and presenting them at conferences to contribute to the academic community.
Seeking external funding and grants to support research endeavors and collaborations.
Mentoring and supervising students in research activities, providing them with opportunities for intellectual growth and development.
Collegiality and Collaboration: Scholars should foster a collegial and collaborative environment within the university. This includes:
Respecting the contributions and expertise of colleagues, promoting teamwork, and engaging in constructive dialogue.
Collaborating with colleagues within and outside the department to promote interdisciplinary research and educational initiatives.
Participating in departmental and university committees, contributing to shared governance, and supporting the university's mission and goals.
Encouraging a culture of academic freedom, intellectual diversity, and open exchange of ideas.
Compliance with Policies and Regulations: Scholars are expected to comply with all university policies, regulations, and codes of conduct. This includes:
Familiarizing themselves with and adhering to the policies and procedures outlined in the doctoral program handbook, staff handbook, and other relevant university documents.
Reporting any potential violations of policies or unethical behavior to the appropriate authorities.
Cooperating fully with any investigations or inquiries related to alleged misconduct.
Failure to adhere to this Code of Conduct may result in disciplinary action, including but not limited to suspension, termination, or other appropriate measures. By abiding by this code of conduct, scholars contribute to the overall academic integrity, reputation, and success of SRU.

IV. Sustainable Development Goals Policy

The university has made significant strides in addressing the Sustainable Development Goals (SDGs) by integrating sustainability principles across its academic, operational, and research initiatives. Through its curriculum and courses, SRU educates and empowers students to become advocates for sustainable practices, equipping them with the knowledge and skills needed to tackle global challenges. Additionally, the university has implemented various eco-friendly practices on campus, such as adopting renewable energy sources and eliminating single-use plastic. Furthermore, SRU has integrated sustainability into its academic curriculum, fostering a culture of awareness and responsibility among students and faculty. The university also collaborates with local communities to address societal challenges. By fostering a culture of sustainability and emphasizing social and environmental responsibility, the university is making a substantial and positive impact on global efforts to attain the SDGs and create a more sustainable future. Research at SRU primarily focuses on SDG goals, and scholars are encouraged to undertake high-quality research to serve humanity.

V. Intellectual Property Rights Policy

Policy Objective

To benefit society, the University establishes this Intellectual Property Policy to foster the translation and commercialization of its research findings. This Policy defines the ownership, protection, and profitable use of intellectual property generated through University research projects. It outlines SRU's expectations for industry collaborations and proposes guidelines for distributing financial benefits arising from the commercialization of intellectual property.

Strategic Framework for Research and Intellectual Property Rights at the University

The University aims to cultivate, support, and advance scientific exploration and research.

The University seeks to establish clear legal frameworks for research initiatives and collaborations involving technological advancements with external entities.

SRU's policies and procedures are designed to delineate the identification, ownership, protection, and commercialization of intellectual property.

The University is committed to ensuring the timely and effective protection and management of intellectual property.

The University facilitates the documentation, monitoring, and maintenance of its intellectual property portfolio.

The University ensures the fair and equitable distribution of economic benefits derived from intellectual property commercialization, acknowledging the contributions of inventors, the University, and other relevant stakeholders.

By disseminating research findings to the public, SRU aims to enhance its reputation as a leading academic research institution and a valuable societal contributor, thereby also elevating the standing of its researchers.

This IP Policy, including future revisions, constitutes the established IP protocol referenced in: a) staff employment contracts; b) fixed-purpose staff contracts; c) agreements with other relevant parties; d) the student handbook; and e) any acceptance form or intellectual property assignment agreement signed by staff and/or students.

This IP Policy is an integral part of SRU's regulatory framework governing student and staff conduct. Its provisions do not supersede existing national legislation.

Individuals Subject to this Policy

This Intellectual Property Policy applies to:

All individuals employed by, paid by, or contracted with the University, unless explicitly exempted by contract. This includes, but is not limited to, full-time and part-time faculty and staff, visiting faculty and researchers, consultants, and students.

Students working on sponsored projects and/or utilizing SRU resources beyond lecture-based coursework or other course-related assignments.

Anyone using SRU facilities or resources, or the facilities of any SRU-affiliated entity, for the purposes or in the manner described below.

Definitions

Commercialization: Any form of exploiting Intellectual Property, including assignment, licensing, internal use within SRU, and commercialization via a spin-off company in India and overseas.

Spin-off: A company established to exploit Intellectual Property originating from SRU.

Inventor: The Researcher who contributed to the creation of the Intellectual Property.

Research Agreement: May include Memoranda of Understanding (MOUs), Research Service Agreements, Cooperative Research and Development Agreements, Material Transfer Agreements, Confidentiality Agreements, Project Development Agreements, Joint Development Agreements between two or more Universities, Consultancy Agreements, and any other agreement concerning research pursued by Researchers and/or Intellectual Property created at the University in India and Overseas.

Researcher: Individuals employed by the University, including students and technical staff. This also includes any person, such as visiting scientists, who uses University resources in India or overseas and performs any research task at the University or participates in any research project administered by the University, including those funded by external sponsors in India and overseas.

Visiting Researcher: An individual affiliated with SRU who is neither an employee nor a student, including academic visitors, individuals with honorary appointments, and overseas staff.

University Resources: Any form of funds, facilities, or resources provided by SRU directly or indirectly, including equipment, consumables, and human resources.

Copyrighted Works: Literary, scientific, and artistic works, including academic publications, scholarly books, articles, lectures, musical compositions, films, architectural work, presentations, photography, cinematography, software, and other materials eligible for copyright protection.

Intellectual Property: Works related to Patents, Trademarks, Designs, Copyright, industrial designs, trade secrets, plant varieties, and includes inventions, technologies, developments, improvements, materials, compounds, processes, and all other research results and tangible research properties, including software and other copyrighted works.

Intellectual Property Rights (IP Rights): Ownership and associated rights relating to Intellectual Property, including patents, designs, trademarks, topography rights, know-how, trade secrets, and all other intellectual or industrial property rights, as well as copyrights, whether registered or unregistered, including applications for and rights to apply for them, along with all extensions and renewals, and all equivalent or similar forms of protection worldwide.

Overview of the IPR System in India

India has made significant progress in the protection, administration, management, and enforcement of IP. The IP system has experienced notable growth in the last two decades. The key statutes governing different types of IP in India include: the Trademarks Act, 1999; the Patents Act, 1970 (as amended in 2005); the Copyright Act, 1957 (as amended in 2012); the Designs Act, 2000; the Geographical Indications of Goods (Registration and Protection) Act, 1999; the Protection of Plant Varieties and Farmers' Rights Act, 2001; the Semiconductor Integrated Circuits Layout-Design Act, 2000; and the Biological Diversity Act, 2002.

Types of Intellectual Property Subject to this Policy

This Policy applies to all forms of intellectual property, including but not limited to inventions, discoveries, creations, know-how, trade secrets, technologies, scientific or technological developments, mask works, trademarks, research data, works of authorship, and computer software, regardless of their protectability.

Scope of this Policy

This Policy applies to all researchers legally bound to it through legislation, collective agreements, or individual agreements with the University.

This Policy applies to all Intellectual Property created at the University and all associated IP Rights.

This Policy does not apply in cases where a researcher has an explicit prior agreement to the contrary with SRU, or where SRU has a pre-existing agreement with a third party concerning the rights and obligations outlined herein.

S. No.	IPR POLICY COMMITTEE	Designation
1.	Registrar	Chairman
2.	Dean Research	Member
3	Dean, IP&R	Member
4.	All School Deans	Member
5.	Adv. Ashish Sharma, IP Nation	Patent Legal Advisor

The IPR Policy Committee will review and analyze presented proposals and IP created at SRU, safeguarding new ideas. The Vice-Chancellor may change the Committee's composition at their discretion.

The IPR Policy Committee may hold meetings, conduct IP awareness programs for projects, and attend committee meetings as required.

Members of the IPR Policy Committee are expected to disclose any personal interest in a proposal and recuse themselves from related discussions.

The importance of external expert support is recognized, and the IPR Policy Committee will utilize these resources as needed.

The Committee will convene a meeting whenever a change in membership is necessary, and specific resolutions and meeting minutes will be documented and retained for such actions.

Role of IPR Policy Committee Members

Facilitating and processing IP applications.

Determining the market value of intellectual property (IP) and/or creations.
Defining IP agreements with industry on collaborative research initiatives in compliance with university laws and regulations. The committee may propose specific procedures for this purpose.
Enabling fair and equitable returns for individuals involved in the commercialization of their research/work, consistent with university procedural laws.
Providing recommendations for third-party negotiators in sustainable IPR projects.
Ensuring reasonable financial returns for personnel involved in developing and submitting IPRs.
Assigning, licensing, franchising, and transferring IPR rights in ongoing, pending, or any other IPR works to any person or firm in India or abroad, if necessary, in collaboration with a university special committee nominated by the Vice-Chancellor for this specific purpose.

Legal Issues Concerning the Status of Researchers

Before commencing any research activity, SRU students must sign an agreement to be bound by this Policy. The individual exercising employment authority on behalf of SRU must ensure that any employment contract or agreement establishing a work relationship between SRU and the Researcher includes a clause subjecting the Researcher to this Policy.
Upon registration, PG, PhD students enrolled in research doctoral programs must sign an agreement to be bound by this Policy.
Before commencing their association with SRU, the authorized representative of SRU shall ensure that Researchers not employed by SRU, including Visiting Researchers, sign an agreement to be bound by this Policy and an assignment agreement regarding the ownership of IP created by them during their activities arising from their affiliation with SRU.
The rights and obligations under this Policy will survive any termination of enrollment or employment with SRU.

Ownership of Intellectual Property

Employees of SRU:

All intellectual property rights invented, made, or created by an SRU employee or student within the scope of their duties and employment activities will normally belong to SRU.
If an SRU employee creates Intellectual Property outside their normal duties but with significant use of University Resources, they are deemed to have agreed to transfer the IP Rights in such Intellectual Property to SRU in exchange for the use of those resources.

Employees Pursuing Research Activities at Other Institutions

An agreement between SRU and the other University governs the rights to Intellectual Property developed during an academic visit by an SRU employee to that institution. Unless otherwise specified in an agreement, the IP developed during the visit belongs to the other University, provided SRU's IP Rights are not compromised.

Non-employee

Visiting Researchers must transfer any Intellectual Property they produce during their activities arising from their affiliation with SRU to the University. For the purposes of this Policy, these individuals will be treated as SRU employees.

Students

Students not employed by SRU retain ownership of all Intellectual Property and related IP Rights created during their studies, with the following exceptions:
SRU will claim ownership of all Intellectual Property developed by PG (doctoral) students during their studies.
Students will be offered the option to assign IP Rights to SRU and will be granted the same rights as any employee Inventor as outlined in this Policy. Students should follow the procedures detailed in this Policy in such cases.
Regardless of the use of University Resources, creators own all rights in Copyrighted Works.
If SRU decides not to exploit Intellectual Property to which it has a claim, it must notify the Inventor(s) as soon as possible, at least one month before any action or intentional omission that could jeopardize the ability to secure protection. In such cases, the Inventor(s) will have the option to acquire the

related IP Rights; however, SRU will be entitled to a share of any subsequent exploitation income proportional to its verified expenditures in protecting and commercializing the IP. Alternatively, SRU may request a perpetual, non-exclusive, royalty-free license for research purposes, without the right to commercial exploitation or sub-licensing. On a case-by-case basis, SRU may be entitled to a portion of any net income generated by the Inventor(s) from the commercialization of the Intellectual Property. SRU will not unduly withhold or delay the assignment of IP Rights to the Inventor(s) but reserves the right to postpone exploitation if it is in its best interests.

Any requests for SRU to transfer rights to the Inventor(s) or any other third party should be initially directed to SRU's IPR Policy Committee.

Conflict of Interest and Confidentiality

As an SRU employee, a Researcher's primary commitment of time and intellectual contributions should be to SRU's educational, research, and academic programs.

Unauthorized use of a business secret that could harm or jeopardize SRU's legitimate financial, commercial, or market interests constitutes a breach of confidentiality. Researchers must take all reasonable precautions to ensure confidentiality when communicating with third parties.

Researchers must promptly report any potential or actual conflict of interest to SRU's IPR Policy Committee to facilitate a satisfactory resolution for all involved parties.

If researchers have any doubts regarding a conflict of interest or confidentiality issue, they should consult the relevant person or members of the IPR Policy Committee.

Identification, Disclosure, and Commercialization of Intellectual Property

The University encourages its researchers to identify research outcomes with commercial potential that can enhance SRU's reputation through public dissemination.

Before publishing any draft publications containing scientific results, researchers must submit them in writing to the relevant Head of Department and declare in writing that, to the best of their knowledge, the works do not contain any results that are protectable or commercially exploitable.

Researchers, including staff, students, and Visiting Researchers, must disclose all Intellectual Property falling within the scope of this agreement.

The SRU IPR Policy Committee is responsible for protecting and commercializing the University's intellectual property; however, the inventor(s) must be consulted at every stage of the process.

Inventors are expected to disclose all potentially exploitable Intellectual Property as soon as they become aware of it, as timely and efficient administration is crucial for protection and successful commercialization. The disclosure must be made in writing by completing the Intellectual Property Disclosure Form, available from SRU's Research Office.

Incomplete disclosure forms may be returned to the inventor(s) for additional information. The date of disclosure is the day the SRU Research Office receives the complete, signed disclosure from all Inventors.

If an Inventor is uncertain whether an Intellectual Property falls within the scope or has potential economic value, they should submit a disclosure to SRU's Research Office for review before any public disclosure.

Premature disclosure can jeopardize intellectual property protection and commercialization. Researchers must make reasonable efforts to identify Intellectual Property early in the research process and assess the implications of any public disclosure to avoid losing potential benefits.

The Research Office will report all disclosures to the relevant Head of Department, including a brief description of the Intellectual Property and the Inventor's name(s).

The University's IPR Policy Committee is responsible for determining if any agreements stipulate the sharing of IP Rights or other obligations beyond those outlined in this Policy. Provisions of related Research Agreements may necessitate the full or partial assignment of certain IP rights. In cases of assignment, the protection and commercialization process will be governed by a separate agreement between SRU and the concerned parties. In all other instances, the procedures set forth in this Policy will apply.

Following the disclosure date, SRU will promptly initiate the evaluation of the Intellectual Property through a designated person or department. A pre-evaluation will be the initial step to identify any significant obstacles to the protection and commercialization of the Intellectual Property. Based on the pre-evaluation results, a recommendation on whether to protect and exploit the Intellectual Property should be forwarded to the person or committee responsible for the final decision on behalf of SRU within one week of the disclosure date. The final decision must be made within 10 days of the disclosure date by the Research Office.

The IPR Policy Committee will appoint a person or department to conduct a comprehensive examination of the Intellectual Property, focusing on potential methods of Intellectual Property protection and business opportunities.

The Inventor(s) must be notified in writing of the decision within 7 days of the decision date if SRU decides not to commercialize the disclosed Intellectual Property.

The Inventor(s) are expected to collaborate closely with SRU's Research Office, the patent attorney, and any other engaged professional specialists. This includes sharing information, attending meetings, and providing advice on development to facilitate the preservation and commercial development of the Intellectual Property.

As part of the review process, the IPR Policy Committee and the Inventor(s) must jointly identify a suitable commercialization strategy within 3 weeks or 30 days, whichever is earlier, from the date of the Research Office's decision. This plan will outline the responsibilities of each involved entity and establish timelines for specific actions.

SRU's IPR Policy Committee is responsible for implementing the commercialization strategy and must present specific proposals, such as draft agreements or business plans, to SRU's Vice-Chancellor for approval.

Commercial decisions, such as the terms of an assignment/licensing agreement or the development of a spin-off company, will be made on a case-by-case basis by the IPR Policy Committee, considering all relevant circumstances.

If SRU decides to discontinue, withdraw, or not maintain a granted or registered right, SRU will nominate a person or committee to make such decisions.

SRU is responsible for all expenses incurred in connection with the protection and commercialization of Intellectual Property.

Under a confidentiality agreement, the complete description of the Intellectual Property will be disclosed to third parties during the evaluation and commercialization period.

Recording and Maintenance of SRU's Intellectual Property Portfolio

The University's Research Office is responsible for maintaining accounting records for each Intellectual Property. This includes ensuring the Intellectual Property is recorded in accounting records, timely payment of all associated costs, and the distribution of exploitation income.

The University's Research Office is responsible for maintaining accurate and detailed records of the University's Intellectual Property. It will track payment deadlines for fees related to the upkeep of protected intellectual property and will promptly notify SRU's IPR Policy Committee of these deadlines.

Distribution of Revenues, Motivation of Researchers

Subject to the signing of a confirmatory Assignment from the inventors, the distribution of net income arising from the exploitation of any intellectual property, whether accruing directly to SRU or through royalty or similar payments, will follow the scale outlined below. SRU reserves the right to modify this in justifiable cases, subject to the Vice-Chancellor's approval.

"Net revenue" refers to all license fees, royalties, and other payments received by SRU from the commercialization of Intellectual Property, less any expenses incurred by SRU in its protection and commercialization.

In certain instances, SRU reserves the right to negotiate specific revenue distribution terms, such as when income is generated through the sale of shares or the payment of dividends on shares allocated

to SRU in an entity to which the Intellectual Property is licensed or assigned, provided this entity is not a spin-off enterprise.

If there are multiple Inventors, the Inventor's share will be divided among them proportionally to their respective contributions as stated in the signed Invention-Disclosure Form.

In the case of trademark and other indicator exploitation, the Inventor(s) may benefit from the revenue as stipulated in an individual agreement, considering their contribution to the exploitation. The SRU IPR Policy Committee will decide such matters on a case-by-case basis.

If a spin-off company is established, a separate stock share agreement must be reached between SRU and the Inventor(s). The terms of this agreement will be negotiated individually, taking into account the Inventors' contributions to any further development and exploitation beyond the initial creation of Intellectual Property, as well as any funding provided by the Inventor(s), SRU, or any third parties acquiring equity in the new venture. The IPR Policy Committee, acting on behalf of SRU, will determine the conditions for establishing a spin off establishment.

Breach of the rules of this policy

Members of the IPR Policy Committee will be in charge of dealing with any violations of this policy. Breach of this Policy's terms will be dealt with through SRU's customary processes, which are laid out in accordance with the applicable legal regulations.

Dispute and Appeals

In the first instance, any conflicts must be resolved amicably by the IPR Policy Committee. One week after the concern is submitted, a decision will be made. In addition to the foregoing, the relevant sections of law shall apply to any legal issue arising in connection with the rules of this Policy.

Filing affiliation

All IPR filings should have affiliation of university mentioned as "SR University, Warangal, Telangana-506371"

ANNEXURE-II

IT RESOURCE MANAGEMENT POLICY

The university recognizes the vital role of Information Technology (IT) in supporting its teaching, learning, research, and administrative functions. The University is committed to protecting the confidentiality, integrity, reliability, and availability of its information assets. All users of SRU's IT resources—including faculty, staff, students, researchers, associates, and other authorized individuals—are responsible for using these resources appropriately to support the University's objectives. The IT Policy applies to both University-owned and personally owned devices used to access, store, or transmit University information and establishes guidelines for the secure management and protection of information in all forms.

Scope and objective

IT Policy applies to all individuals who use the University's IT resources, including faculty, staff, administrators, students, guests, and other authorized users, regardless of whether the resources are personally owned or University-owned. Its purpose is to ensure the secure, lawful, and appropriate use of the University's IT infrastructure in support of teaching, learning, research, and administrative activities. The policy establishes responsibilities and controls to protect the confidentiality, integrity, reliability, and availability of information assets, including data, information systems, computers, network devices, intellectual property, documents, and verbal communications.

Definition of Information Technology Resources and Policies

IT Resources include all University-owned, licensed, leased, or contractually managed technology assets and information resources. These comprise electronic and physical information, computer hardware and software, networks, telephone systems, servers, personal computers, wireless infrastructure, and other devices connected to the University's IT environment. The scope also extends to digital resources and services accessible through the internet or intranet, both on and off campus, that are provided by the University for the benefit of its stakeholders.

Protection of IT Information

The Custodian is responsible for protecting sensitive and legally restricted information from unauthorized access, use, or disclosure. Access to such information must be limited to individuals with a legitimate business, academic, or legal need. Any transmission of restricted information outside the University requires proper authorization and must comply with applicable legal and institutional requirements.

Information Policy

The Information Policy defines how sensitive information is identified and protected within the University. It recognizes all organizational data as a valuable asset and requires employees to safeguard confidential information in their possession. The policy applies to information in both physical and electronic formats and establishes appropriate measures to ensure its security and confidentiality.

IT Hardware Installation Policy

Users must ensure proper installation and management of computers and peripherals to minimize service disruptions. Each computer should have a designated responsible user, and departments must assign accountability where multiple users share a system. University-owned computers should be procured with adequate warranty coverage and maintained through annual maintenance contracts after warranty expiration. Any relocation of a computer must be reported to the IT Department to maintain accurate asset and IP address records. Unauthorized changes to registered systems may result in temporary network disconnection until compliance is restored. Users are responsible for regularly backing up important data, while the IT Team is responsible for maintaining and supporting University computer systems.

Software Installation and Licensing Policy

All departments and projects must ensure that computers are procured with properly licensed software, including operating systems, antivirus solutions, and required applications. The installation or use of pirated, unauthorized, or illegal software on university-owned systems or devices connected

to the University network is strictly prohibited. Departments or individuals will be held accountable for any violations involving unlicensed software. To ensure standardization, compliance, and efficient management, all IT-related purchases must be coordinated and approved through the University's IT Department.

Database (of e-Governance) Use Policy

University databases and e-Governance systems are valuable institutional assets and must be protected regardless of the sensitivity of the data they contain. Access to data shall be granted based on an individual's role and authorized responsibilities, and information stored in university databases is intended primarily for internal institutional use. Personal and identifiable information must not be disclosed to external parties without proper authorization, and all external requests for information must be routed through the Office of the Registrar. Unauthorized modification, deletion, manipulation, or destruction of data, attempts to compromise database security, or any form of database tampering are strictly prohibited. Violations may result in disciplinary action and, where applicable, legal proceedings in accordance with university regulations and applicable laws.

Role of IT team

The IT Team and System Administrators are responsible for managing and supporting all IT services and infrastructure at SR University. The System Manager, as Director of the Computer Centre (CC), oversees the implementation of the University's IT Policy. The CC is responsible for maintaining University computer systems, peripherals, websites, and network-related services, as well as resolving hardware, operating system, and authorized software issues. The installation or promotion of unauthorized or illegal software is strictly prohibited. During system maintenance or reinstallation, authorized personnel must preserve network configurations, apply necessary updates and security patches, and ensure antivirus software remains current and effective.

Open-source and free-to-use software policy

SR University encourages the adoption of Free and Open-Source Software (FOSS) for IT operations wherever it meets institutional requirements. Open-source software may be used without prior approval from the IT Department, subject to the discretion of the respective Dean or authorized authority. Stakeholders are encouraged to prioritize open-source solutions over proprietary alternatives whenever feasible. Proprietary software may be adopted when no suitable open-source option exists. The University also supports making internally developed software available under approved open-source licenses whenever appropriate.

Network Intranet and Internet Use Policy

The University provides secure network access through authenticated connections, including VPN services, and all usage is governed by the IT Policy. The Computer Centre (CC) is responsible for maintaining and supporting the University network, while users must promptly report network-related issues. Access to network resources is granted through authorized user accounts, and account holders are personally responsible for all activities conducted under their credentials. All devices connected to the University network must be registered and assigned an approved IP address by the CC. IP addresses are allocated based on designated network segments and locations, and users may not transfer assigned IP addresses between devices without authorization. Any modifications to network configurations or established protocols require prior approval from the Computer Centre.

E-mail Account Use Policy

The University's email system shall be used primarily for official, academic, administrative, and authorized communications. All faculty, staff, and students are expected to maintain active University email accounts to receive official notifications and announcements. Official communications should be conducted through university-issued email accounts, and personal email accounts should not be used for internal institutional correspondence except under exceptional circumstances with a copy sent to the official account. Users are prohibited from using University email for illegal, commercial, offensive, fraudulent, or unauthorized activities, including spamming and spoofing. Users must exercise caution when handling suspicious emails and attachments, maintain appropriate backups of important communications, and ensure compliance with the University's email usage requirements.

The University retains ownership of official email accounts and their contents, and violations may result in disciplinary action in accordance with university regulations.

Breach of IT Policy

All users are responsible for remaining vigilant and promptly reporting any suspected or actual IT policy violations, security incidents, or breaches to the System Manager of the Computer Centre or the University Registrar. Any confirmed violation of the IT Policy will be investigated and addressed in accordance with university regulations. The Registrar shall be the designated authority responsible for initiating and overseeing disciplinary or corrective actions related to IT policy violations occurring both within and outside the University campus.

ANNEXURE-III
UNDERTAKING BY STUDENT AND PARENT

(Applicable for 2025-26 Admitted Students)

PREAMBLE

Welcome to SR University!

At SR University, we are committed to foster an environment of academic excellence, discipline, and student well-being. To ensure a clear understanding of expectations and responsibilities, all students and their parents/guardians are required to read and acknowledge this undertaking. By signing this document, you confirm your understanding of this agreement to abide by the university's rules, policies, and code of conduct.

I. ACADEMIC COMMITMENTS & RESPONSIBILITIES

1. Academic Integrity

At SR University, I understand that academic integrity forms the foundation of its educational philosophy and core institutional values. I acknowledge that upholding honesty and transparency in all academic activities is essential not just for my personal development, but also for contributing to a respected and trustworthy scholarly environment.

By signing this undertaking, my parent/guardian and I affirm our complete understanding of, and commitment to, maintaining the highest standards of academic integrity during the entirety of my time at SR University.

As a student, I commit to the following:

(a) Maintaining Honesty in All Academic Work:

I will complete all exams, assignments, lab work, presentations, and project work independently, unless the instructor specifically permits group work.

I will properly acknowledge the contributions of others in my written and oral work by following the citation and referencing practices prescribed by the university or my academic department.

(b) Avoiding Plagiarism:

I will not use or copy someone else's work, ideas, images, or data whether published or unpublished without giving proper credit.

I understand that plagiarism includes using content created by others such as Internet Sources or AI tools without appropriate citation or permission.

(c) *Avoiding Cheating:*

I will adhere to all assessment schedules and instructions, including those for mid-term and end-term exams.

I will not use unauthorized materials, communicate unfairly with peers, or seek or give help to gain an advantage.

I understand that impersonation, tampering with examination procedures, or using unfair means is a serious violation.

I will also comply with guidelines for assignments, viva-voce, thesis, and other evaluations.

(d) *Avoiding Impersonation or Fabrication:*

I will not impersonate another student or allow anyone to impersonate me in any academic setting.

I will not falsify or fabricate data, results, academic records, or attendance.

(e) Respecting the Integrity of Evaluation:

I will not try to influence or persuade faculty members for academic benefits I do not deserve.

I will not disrupt or interfere with another student's academic work.

University's Rights and Responsibilities:

I understand that the university can investigate any form of academic misconduct. I am aware that disciplinary actions may include:

- A formal warning
- Cancellation of the specific exam, assessment, or assignment
- Suspension from academic activities or examinations
- Debarment from receiving academic awards
- Expulsion from the university in cases of severe or repeated violations

I also understand that if found guilty of academic misconduct, I may lose eligibility for scholarships, internships, or other academic privileges, and may be subject to a financial penalty in accordance with university regulations.

2. Adherence to Rules and Regulations

At SR University, I understand that the rules and regulations are carefully designed to support the academic mission, ensure safety, and create a positive environment for learning and personal development. By choosing to enrol at the university, both my parent/guardian and I fully agree to comply with all policies issued by the university's governing bodies, administrative departments, and academic units.

I commit to the following key areas of adherence:

Academic Performance: I will strive to meet the academic standards required in all my courses, projects, and evaluations. I understand that moving to higher semesters / year or completing my degree depends on achieving the minimum credit requirements and maintaining a satisfactory CGPA. Specifically:

- I must obtain a minimum CGPA of 4.50 or earn at least 40% of the total credits in the first year to be promoted to the second year.
- I must obtain a minimum CGPA of 5.00 or earn at least 50% of the credits in the second year to be promoted to the third year.
- I must obtain a minimum CGPA of 5.00 or 50% of the credits for promotion to the fourth year (Applicable in case of 4-year UG programs).

Campus Discipline: I will conduct myself with discipline both inside and outside the classroom. I recognize that acts of indiscipline such as disrupting academic activities, damaging university property, or harassing students or staff will result in disciplinary action. I also understand that misusing social media or posting defamatory content or reels against the university community on public platforms is a punishable offense.

Use of University Resources: I will use all university resources including the library, laboratories, computer systems, internet services, hostels, and sports facilities responsibly and strictly for academic purposes. I understand that any misuse, theft, damage, or unauthorized use of these resources will lead to penalties and disciplinary consequences.

Policy Updates: I acknowledge that the university may revise or update its policies periodically. It is my responsibility, along with my parent/guardian, to stay informed about such changes through official communication channels such as the university website, email, ERP system, and notice boards and to adhere to them.

3. Attendance

I understand that regular attendance is crucial for my active participation in class, meaningful engagement in the learning process, and strong academic performance. At SR University, attendance is seen as a clear reflection of my commitment, discipline, and sense of responsibility as a student.

Minimum Attendance Requirement: I am required to maintain a minimum of 75% attendance in each course. I acknowledge that the remaining 25% is provided to accommodate valid situations such as: Medical issues, Personal emergencies, Participation in NSS/NCC camps, Involvement in Sparkrill, sports, or club activities, Representing the university in external events and other approved academic or extracurricular commitments.

Condonation of Attendance: If my attendance falls below 75% but remains above 65%, I understand that I may apply for condonation. The Condonation Board will review my case, and approval will be granted only if the reasons are deemed valid, such as serious medical conditions or genuine emergencies.

Mandatory Attendance Threshold: I am fully aware that if my attendance in any course falls below 65%, I will be automatically detained from that course. I accept that no exceptions or appeals will be considered in such cases. It is entirely my responsibility to ensure that my attendance does not drop below this threshold under any circumstances.

Parental Responsibility: My parent/guardian is also expected to monitor my attendance through the student portal or other official communication channels. They will respond promptly if contacted by the university regarding any attendance-related concerns.

4. Code of Conduct

I understand that the Code of Conduct at SR University is designed to instill values of respect, responsibility, professionalism, and inclusivity. It governs my behaviour on campus, online, and during any off-campus activities related to the university.

As a student, I commit to the following behaviour:

Respectful Interaction: I will treat faculty, staff, and fellow students with courtesy and respect at all times, regardless of their gender, background, religion, or social identity. I will not engage in disrespectful behaviour, use of abusive language, or physical/verbal aggression under any circumstances.

Academic Etiquette: I will be punctual for all classes, actively participate in academic discussions, and maintain appropriate behaviour during lectures, lab sessions, and official university events.

Ethical Conduct: I will not engage in dishonesty, manipulation of academic records, or submission of fraudulent documents. I will uphold ethical standards in all forms of communication, including during virtual classes and interactions on online platforms.

Dress and Identification: I will follow the prescribed dress code during labs and workshops. I will wear formal dress on Mondays and Tuesdays each week, as well as during placement drives and other official events. I will always wear or display my university-issued ID card while on campus.

Prohibited Substances: I will not possess or consume alcohol, narcotic drugs, tobacco, or any other banned substances on campus. I am fully aware that SR University enforces a strict zero-tolerance policy in this regard, in line with national laws, to ensure a safe and healthy campus environment.

Misuse of Internet: I will not access harmful or banned websites, engage in digital impersonation, disrupt digital infrastructure, or attempt to hack university systems. I will not send unsolicited emails, request financial payments from fellow students for any events or activities, or create unofficial WhatsApp groups without approval from university authorities. I will immediately inform my mentor/Head for any third party outside people trying to cheat me and asking about any payments for internships, training, events, activities, group tours, parties or club gatherings etc. I will not forward any fake messages or information on social media and will not be part of spreading any rumours that hinders the University activities.

Zero Tolerance for Discrimination and Harassment: I will not engage in any form of harassment, discrimination, or bullying. I understand that SR University promotes a gender-sensitive, inclusive environment and I commit to upholding these values in all my interactions.

Positive Contribution to Campus Culture: I will contribute positively to the campus culture by participating in academic and extracurricular activities that build a sense of belonging, creativity, and social responsibility. I understand that I must be part of at least one club at the department or university level or be actively involved in NSS, NCC, or sports activities.

Mobile Phone and Personal Belongings Policy: I understand that mobile phones are not allowed inside classrooms and laboratories, and I will refrain from using them during academic sessions to maintain a distraction-free learning environment.

I will not bring valuable items such as large amounts of cash, jewelry, or expensive gadgets to the campus. I acknowledge that it is my responsibility to keep my personal belongings safe, and I understand that the university will not be held responsible for any loss, theft, or damage.

Consequences of Misconduct: I am aware that any violation of university rules or breach of conduct may result in disciplinary actions such as:

- A formal warning
- Suspension from classes or access to campus
- Expulsion from the university
- Financial penalties or other actions as deemed appropriate by the university administration

II. DISCIPLINARY MATTERS AND ANTI-RAGGING

I understand that SR University is fully committed to maintaining a safe, respectful, and inclusive campus environment. To uphold these values, the university enforces a strict code of conduct and has a zero-tolerance policy against ragging, harassment, violence, and all forms of misconduct. I acknowledge that I am expected to behave responsibly and respectfully, thereby upholding the dignity and values of SR University.

By signing this undertaking, both my parent/guardian and I acknowledge and agree to strictly abide by the university's disciplinary policies and anti-ragging regulations, which are aligned with national laws and the guidelines of the University Grants Commission (UGC).

Anti-Ragging Commitment: I am fully aware that ragging is prohibited under law and university policy, whether it is physical, verbal, emotional, or cyber-based. I understand that SR University strictly follows the UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009, and its subsequent amendments.

What Constitutes Ragging?

Ragging includes any act of physical or psychological abuse, harassment, teasing, or any behaviour that causes fear, shame, embarrassment, or emotional distress to another student. Whether done individually or as part of a group, such actions that violate the dignity or mental well-being of any student are considered ragging and are completely unacceptable.

Punishment Provisions: If I am found guilty of ragging, either alone or as part of a group, I understand that I may face one or more of the following punishments:

- Debarring from appearing in any mid exam/ university examination or withholding results.
- Suspension from attending classes and academic privileges.
- Withdrawing scholarships and other benefits.
- Suspension from the college for a period of one month.
- Cancellation of admission.
- Debarring from representing the institution in any national or international meet, tournament, youth festival, etc.
- Suspension/expulsion from the hostel.
- Rustication from the institution for periods varying from 1 to 4 semesters or equivalent period.
- Expulsion from the institution and consequent debarring from admission to any other institution.
- Fine ranging between Rs. 25,000/- and Rupees 1 Lakh.
- Imprisonment for a term which may extend to two years or with fine which may extend to ten thousand rupees or with both.
- Collective punishment - When the students committing or abetting the crime of ragging are not identified, the institution shall resort to collective punishment as a deterrent to ensure community pressure on the potential raggers.

Disciplinary Action: To maintain discipline and safeguard the rights of all students, I understand that SR University has well-defined disciplinary policies covering both academic and behavioral conduct. As a student, I am expected to:

- Conduct myself ethically and respectfully on campus and on university-related online platforms
- Avoid disruptive behaviour in classes, labs, events, and any academic or co-curricular activity
- Refrain from damaging property, using prohibited substances, or engaging in threatening or dishonest acts

Types of Misconduct Include (but are not limited to):

- Academic dishonesty such as cheating or plagiarism
- Disrespecting faculty, staff, or fellow students
- Unauthorized absences from academic or co-curricular activities
- Acts of violence, sexual harassment, or discriminatory behaviour
- Possession or use of prohibited substances or weapons on campus

Possible Disciplinary Actions Include:

- Verbal or written warnings
- Fines or financial penalties
- Restrictions from using university facilities or participating in events
- Suspension from classes or hostel
- Forfeiting the scholarship for the subsequent years
- Rustication or permanent expulsion from the university

I understand that the Disciplinary Committee will determine the nature and extent of action to be taken based on the severity of the offense and my past conduct.

III. DOCUMENTATION AND FINANCIAL RESPONSIBILITIES

By enrolling at SR University, I, along with my parent/guardian, fully understand that this is a shared commitment between us and the institution. We are committed to maintaining transparency, upholding administrative integrity, and ensuring complete financial and legal accountability throughout my time at the university. I agree to submit all required documents accurately and on time, and I will adhere to the university's financial norms. **All financial dues will be paid as per the deadlines defined by the university.**

1. Information Accuracy

I acknowledge that it is mandatory for me to submit the following **original documents**, along with **one set of self-attested photocopies** at the time of admission:

• SSC/10th Mark Sheet • Intermediate/12th Mark Sheet / Diploma (PC & CMM) / UG (PC & CMM) • Transfer Certificate • Bonafide / Conduct Certificate • Caste Certificate (if applicable)	• Income Certificate (if applicable) • Aadhar Card • Passport-size Photos (4 copies) • Entrance Test Admit Card/Rank Card (if applicable) • Medical Certificate (if applicable) • Migration Certificate (If applicable)

My parent/guardian and I declare that all the information provided in my admission application including personal, academic, and contact details is true, complete, and authentic to the best of our knowledge. I understand that any false declaration, manipulation, or suppression of facts, whether intentional or unintentional, will be considered a serious violation of university policy and may lead to:

- Rejection of my application
- Cancellation of my admission, even if discovered at a later stage
- Forfeiture of any fee paid
- Disqualification from scholarships or other academic privileges

I also understand that the university reserves the right to cross-verify any information submitted by me at any stage during my academic journey.

2. Submission of Original Documents

I understand that I am required to submit my original academic certificates, mark sheets, transfer/migration certificates, identification documents, and any other relevant proofs at the time of admission or whenever requested by the university authorities.
I acknowledge that all documents submitted are subject to verification and authentication, and that photocopies without original documents will not be accepted for final verification.
I am aware that failure to produce original documents within the stipulated time may lead to:

- My admission being placed on hold or cancelled
- My ineligibility to attend classes or appear for university examinations

My parent/guardian and I fully agree not to submit any forged or tampered documents, understanding that doing so will result in strict legal and institutional action.

3. Fee Payment & Financial Commitment

I understand that I am required to pay all applicable fees including tuition fees, hostel charges (if applicable), examination fees, library dues, transportation fees, and any other charges notified by the university strictly in accordance with the timelines specified in the academic calendar.
I acknowledge that timely payment of fees is essential for the continuation of my enrolment and full participation in academic activities. I am aware that failure to pay fees within the stipulated deadlines will result in late fee penalties, as outlined in the university's policies. I also understand that continued non-payment may lead to serious consequences, including cancellation of my admission.

In the event of non-payment or delayed payment, I accept that the university reserves the right to take the following actions:

- Impose late fee penalties as per applicable rules
- Withhold academic documents such as grade sheets, transcripts, and certificates
- Deny access to academic activities, internal assessments, and university examinations
- Suspend access to the student portal or other university services

Schedule of Fee Payment:

- **First Year:** At the time of admission
- **Subsequent Years:** 15 days before the commencement of each semester

My parent/guardian and I accept full financial responsibility for my education and assure that all payments will be made on time throughout the duration of my course.

We also understand that the university reserves the right to revise the fee structure as per institutional or regulatory requirements, and such changes will be communicated to us in advance.

4. Publication and Research Ethics

I understand that as a student of SR University, I am expected to uphold the highest standards of ethics and integrity in all my academic and research contributions.

I will not submit more than three papers to a single conference, as I understand the importance of quality over quantity in academic publishing.

I will not submit the same article to multiple journals simultaneously. I am aware that such actions are unethical and will invite disciplinary action from the university.

I will not engage in any unethical practices related to publications or patents, including:

- Manipulating or fabricating research data
- Simultaneously submitting the same manuscript to multiple journals, conferences, or publishers
- Adding authors who have not made any actual contribution to the work
- Listing multiple institutional affiliations without obtaining proper approval

I commit to ensuring that no harm is caused to humans or animals during any experimentation I undertake as part of my research or academic work.

I will ensure that all materials used in my research are stored and handled responsibly, with consideration for environmental safety and sustainability.

5. Hostel Rules

1. Each room accommodates 3-4 students and room once allotted will not be changed
2. Hostel accommodation is allotted on a yearly basis, and no amount will be refunded, if the room is vacated during the academic year.
3. It is the student's responsibility to be present in the room at the time of daily attendance
4. Two local outings are permitted and the timings are from 7:00 AM to 6:00 PM and student reporting after 6:00 PM will not be permitted into the hostel
5. Wi-Fi facility is made available as per the university policy
6. The time period from 10:00 PM to 7:00 AM is considered as "Silence Period" and the students are expected to maintain silence during this period.

UNDERTAKING AND DECLARATION BY STUDENT AND PARENT/GUARDIAN

We, the undersigned student and parent/guardian, hereby declare that we have carefully read and understood the complete *Student and Parent Undertaking* issued by SR University. By signing this document:

1. We agree to abide by all academic policies, institutional rules, code of conduct, anti-ragging regulations, and disciplinary norms as laid down by the university from time to time.
2. We acknowledge the importance of academic integrity and commit to upholding honesty, transparency, and ethical behaviour in all academic pursuits, including avoiding plagiarism, cheating, impersonation, and data fabrication.
3. We commit to maintaining minimum attendance of 75% in every course and understand the implications of failing to meet this requirement, including detention or loss of academic privileges.
4. We understand and accept the university's zero-tolerance policies regarding ragging, harassment, discrimination, substance abuse, misuse of digital resources, and unethical behaviour on-campus or off-campus.
5. We undertake full responsibility for accurate documentation and timely submission of original certificates and required records. We understand that any false declaration or forgery may result in the cancellation of admission and legal action.
6. We agree to fulfill all financial obligations including timely payment of tuition, hostel, transport, and other fees as notified by the university. We accept that non-compliance may lead to suspension of academic privileges or cancellation of admission.
7. We affirm our understanding of publication and research ethics and commit to avoiding unethical academic practices in publishing or patenting.
8. We acknowledge that SR University can take disciplinary, academic, financial, and legal actions, as per its policies, in case of any breach of rules or misconduct.

We understand that failure to adhere to the university's standards and academic, behavioural, financial requirements may result in serious consequences, including administrative, academic, or legal actions.

By signing below, we solemnly affirm that all information provided to the university is true and accurate to the best of our knowledge. We fully accept the responsibilities and consequences outlined in the above undertaking.

SR UNIVERSITY

Hostel Accommodation Undertaking Form

(To be signed by the Student and Parent/Guardian)

UNDERTAKING BY THE STUDENT

I, Mr./Ms. _____, hereby undertake that:

1. I have read and understood the rules and regulations of the university hostel and I agree to abide by them throughout my stay.
2. I will maintain discipline, cleanliness, and decorum in the hostel and not indulge in any unlawful or unethical activity.
3. I understand that ragging is prohibited, and I will not participate in or support any form of ragging.
4. I will not cause damage to hostel property and will be held financially liable for any such act.
5. I will not possess or consume alcohol, narcotic drugs, tobacco, or any other prohibited substances on campus.
6. I will not organize/participate in any birthday celebrations in the hostel premises
7. I will not bring any outside food into the hostel premises
8. I will not use any electronic devices inside the hostel room
9. I agree to return all hostel property (furniture, keys, etc.) in good condition at the time of vacating the room.
10. I will report any illness or medical condition to the warden immediately and cooperate with health and safety procedures.
11. I understand that unauthorized absence from the hostel without prior permission may result in disciplinary action.
12. I agree that the university can terminate my hostel accommodation at any time for violation of rules.
13. I will not allow any unauthorized person to stay in my room and will not sublet the room.

UNDERTAKING BY THE PARENT / GUARDIAN

I, Mr./Ms. _____, parent/guardian of the above student, hereby declare that:

1. I have read and understood the hostel rules and support my ward's application for accommodation.
2. I will ensure that my ward complies with all hostel regulations and maintains good conduct.
3. I understand that the university will not be held responsible for any loss, injury, or accident caused due to negligence or violation of rules by my ward.
4. I also undertake that if my son/daughter meets with any accident outside the university campus during an outing, I will not hold the university responsible or proceed against the University for such incidents.
5. I give my full consent for disciplinary action if my ward fails to follow the hostel regulations.
6. I undertake to cooperate with the university in any matter related to the welfare, safety, and conduct of my ward.
7. I understand that the hostel fee is to be paid for the full academic year, and that hostel admission cannot be withdrawn in the middle of the year. I will ensure that the hostel fee is paid 15 days before the commencement of each semester, and I assure timely payment as per the university's schedule.
